S 331. AMEND SEX OFFENDER REGISTRY LAWS. Intro. 3/11/99. House committee substitute makes the following changes to 1st edition. Amends GS 14-208.6(1d) (definition of offense against a minor) to include in definition kidnapping, abduction of children, and felonious restraint committed by legal guardian other than parent. Deletes provisions throughout original bill that included as reportable convictions accessory before or after the fact of offenses otherwise reportable to sex offender registry. Provides that conviction for aiding and abetting of covered offense is reportable only if sentencing court finds that registration of that person furthers purposes of law. Deletes proposed amendment to GS 14-208.32.
