S 873. AMEND SEPTAGE MANAGEMENT PROGRAM. TO AMEND THE SEPTAGE MANAGEMENT PROGRAM AND TO AUTHORIZE CERTAIN PERMIT FEES UNDER THAT PROGRAM. Amends GS 130A-291.1 to increase annual permit fees paid by septage management companies; fees for companies with one pumper truck are raised from \$300 to \$550, and fees for companies with two or more trucks are raised from \$400 to \$800. In addition, imposes a \$200 fee on individuals who operate a septage management facility but do not operate a septage management company. Provides that fees do not revert to the General Fund. Provides for probationary permits and for periodic inspections of septage land application sites and pump trucks. Adds new GS 130A-291.2 permitting temporary domestic wastewater holding tanks at construction sites or temporary special events, with removal of such tanks to be done by septage management firms. Adds new GS 130A-291.3 requiring annual training for operators of septage management firms and of septage land application sites.
