**H 1904. DIABETES SELF-MGMT/REIMBURSEMENT.** Filed 4/30/07. *PERTAINING TO MEDICAID REIMBURSEMENT FOR DIABETES OUTPATIENT SELF-MANAGEMENT EDUCATION PROGRAMS.*

Directs the Department of Health and Human Services, Division of Medical Assistance, to reimburse entities for providing a Diabetes Outpatient Self-Management Education Program if the entity meets listed conditions, regardless of whether the program was provided incident to a physician's services. Requires pharmacies or pharmacists providing Medicaid enrollees with diabetes education services to obtain patient histories and provide a summary of the problems discussed to the enrollee's primary care physician. Provides that the act does not allow a pharmacist to provide services that otherwise require a Clinical Pharmacist Practitioner from the Pharmacy Board. Effective July 1, 2007.
