H 289. COORDINATE TRAFFIC SIGNALS/REDUCE ENERGY USE. Filed 2/24/09. *TO REQUIRE MUNICIPALITIES AND THE DEPARTMENT OF TRANSPORTATION TO COORDINATE TRAFFIC SIGNAL PATTERNS TO REDUCE THE CONSUMPTION OF ENERGY.*

Adds new GS 136-66.2A to require the Department of Transportation and municipalities and metropolitan planning organizations to develop traffic control plans coordinating traffic signal patterns so as to eliminate the idle time of vehicles and increase the efficient flow of traffic to reduce fossil fuel consumption, provide a cleaner environment, and reduce energy consumption.
