**H 560. MIDLAND RETIREMENT.** Filed 3/11/09. House committee substitute makes the following changes to 1st edition.

Clarifies that if no prior service credit is given to Midland town employees for service provided to the town before the town's participation in the Retirement System, then the town is not required to pay any prior service credits for its employees (was, no prior service credit for town employees for prior town service, and no requirement that the town pay any prior service credits for its employees).
