**S 82. GRADUATED MATCHING FUNDS BASED ON TIER STATUS.** Filed 2/5/09. *TO PROVIDE A GRADUATED SYSTEM OF MATCHING FUNDS FOR GRANTS BASED ON TIER STATUS.*

Amends GS 113-44.15(b)(2) (Parks and Recreation Trust Fund) and GS 143B-437.72(c)(1) (local government grant agreements for One North Carolina Fund) to modify the allocation of the funds appropriated for matching funds to local governmental units or public authorities as follows: (1) if located in a development tier one area, no more than \$1 local is required for every \$3 allocated; (2) if located in a development tier two area, no more than \$2 local is required for every \$3 allocated; and (3) if in a development tier three area, no more than \$1 local is required for every \$1 allocated. Clarifies that development tier designations are defined in GS 143B-437.08. Provides that if a gift or grant involves a project located in more than one development tier area, the highest development tier designation is to be used to determine the local match amount. Effective January 1, 2010.
