5 "§ 20-79. Dealer license plates.

6 (a) How to Get a Dealer Plate. – The Division may issue a person licensed under
 7 Article 12 of this Chapter the appropriate classification of dealer license plate. A person
 8 eligible for a dealer license plate may obtain one by filing an application with the Division and
 9 paying the required fee. An application must be filed on a form provided by the Division. The
 10 required fee is the amount set by G.S. 20-87(7).

11 (b) Number of Plates. – A dealer who was licensed under Article 12 of this Chapter for
 12 the previous 12-month period ending December 31 may obtain the number of dealer license
 13 plates allowed by the following table; the number allowed is based on the number of motor
 14 vehicles the dealer sold during the relevant 12-month period and the average number of
 15 qualifying sales representatives the dealer employed during that same 12-month period:

<u>Vehicles Sold In Relevant</u>	<u>Maximum Number of Plates</u>
<u>12-Month Period</u>	
Fewer than 12	4 3
At least 12 but less than 25	4 6
At least 25 but less than 37	5 7
At least 37 but less than 49	6 8
49 or more	

At least ~~6~~ 8, but no more than ~~4~~ 5 times the average number of qualifying sales representatives employed by the dealer during the relevant 12-month period.

28 A dealer who was not licensed under Article 12 of this Chapter for part or all of the
 29 previous 12-month period ending December 31 may obtain the number of dealer license plates
 30 that equals four times the number of qualifying sales representatives employed by the dealer on
 31 the date the dealer files the application. A "qualifying sales representative" is a sales
 32 representative who works for the dealer at least 25 hours a week on a regular basis and is
 33 compensated by the dealer for this work.

34 A dealer who sold fewer than 49 motor vehicles the previous 12-month period ending
 35 December 31 but has sold at least that number since January 1 may apply for additional dealer
 36 license plates at any time. The maximum number of dealer license plates the dealer may obtain
 37 is the number the dealer could have obtained if the dealer had sold at least 49 motor vehicles in
 38 the previous 12-month period ending December 31.

39 A dealer who applies for a dealer license plate must certify to the Division the number of
 40 motor vehicles the dealer sold in the relevant period. Making a material misstatement in an
 41 application for a dealer license plate is grounds for the denial, suspension, or revocation of a
 42 dealer's license under G.S. 20-294.

43 A dealer engaged in the alteration and sale of specialty vehicles may apply for up to two
 44 dealer plates in addition to the number of dealer plates that the dealer would otherwise be

 48 requirement that the plate display the registration number of a motor vehicle and the
 49 requirement that the plate be a "First in Flight" plate. A dealer license plate must have a
 50 distinguishing symbol identifying the plate as a dealer license plate. The symbol may vary

1 depending upon the classification of dealer license plate issued. The Division must provide
2 suitably reduced sized license plates for motorcycle dealers and manufacturers.

3 A dealer license plate is issued for a period of one year. The Division shall vary the
4 expiration dates of dealer registration renewals so that an approximately equal number expires
5 at the end of each month, quarter, or other period consisting of one or more months. A dealer
6 license plate may be transferred from one vehicle to another. When the Division issues a dealer
7 plate, it may issue a registration that expires at the end of any monthly interval. When one of
8 the following occurs, a dealer must surrender to the Division all dealer license plates issued to
9 the dealer:

- 10 (1) The dealer surrenders the license issued to the dealer under Article 12 of this
11 Chapter.

13 Article 12 of this Chapter.
- 14 (3) The Division rescinds the dealer license plates because of a violation of the
15 restrictions on the use of a dealer license plate.

16 To obtain a dealer license plate after it has been surrendered, the dealer must file a new
17 application for a dealer license plate and pay the required fee for the plate.

43 established salesroom.
 - 44 f. A dealer transporter plate shall not be used for purposes of
45 subsections (a), (b), and (c) of this section.

50 the registration card must be able to be produced within 24 hours upon
51 request of any law enforcement officer.

1 A dealer may issue a demonstration permit for a motor vehicle to a person licensed to drive
2 that type of motor vehicle. A demonstration permit authorizes each person named in the permit
3 to drive the motor vehicle described in the permit for up to 96 hours after the time the permit is
4 issued. A dealer may, for good cause, renew a demonstration permit for one additional 96-hour
5 period.

6 A dealer may not lend, rent, lease, or otherwise place a dealer license plate at the disposal
7 of a person except as authorized by this subsection.
