(July 1, 2008 Edition). As used in this sub-sub-subdivision, "passenger motor vehicle" has the same meaning as "private passenger vehicle" as defined in G.S. 20-4.01. Notwithstanding the requirements of sub-sub-subdivision 2a. of this sub-sub-subdivision, every request for proposals for new passenger motor vehicles to be purchased by the Department shall state a preference for vehicles that have a fuel economy for the new vehicle's model year that is in the top fifteen percent (15%) of its class of comparable automobiles. The award for every new passenger motor vehicle that is purchased by the Department shall be based on the Department's evaluation of the best value for the State, taking into account fuel economy ratings and life cycle cost that reasonably consider both projected fuel costs and acquisition costs. This sub-sub-subdivision does not apply to vehicles used in law enforcement, emergency medical response, and firefighting. The Department shall report the number of new passenger motor vehicles that are purchased as required by this sub-sub-subdivision, the savings or costs for the purchase of vehicles to comply with this sub-sub-subdivision, and the quantity and cost of fuel saved for the previous fiscal year on or before October 1 of each year to the Joint Legislative Commission on Governmental Operations and the Environmental Review Commission.

2a.2c. To participate in the energy credit banking and selling program under G.S. 143-58.4. The Division of Motor Fleet Management of the Department of Administration is eligible to receive proceeds from the Alternative Fuel Revolving Fund under G.S. 143-58.5 to purchase alternative fuel, develop alternative fuel refueling infrastructure, or purchase AFVs as defined in G.S. 143-58.4.

SECTION 2. The first report required under G.S. 143-34(8)i.2b. shall be due on or before October 1, 2011.

SECTION 3. This act becomes effective July 1, 2010, and applies to contracts to purchase passenger motor vehicles on or after that date.
