D

SENATE BILL 512
PROPOSED COMMITTEE SUBSTITUTE S512-PCS55301-SH-17

Short Title: Authorize Overnight Respite Pilot.

(Public)

Sponsors:

Referred to:

April 6, 2011

A BILL TO BE ENTITLED

AN ACT TO AUTHORIZE THE DEPARTMENT OF HEALTH AND HUMAN SERVICES
TO PILOT AN OVERNIGHT RESPITE PROGRAM IN FACILITIES THAT OFFER
ADULT DAY CARE.

Whereas, the population of adults who are elderly or disabled in North Carolina is
expected to increase, thereby increasing the need for safe and available overnight respite care;
and

Whereas, adult day care provides group care and supervision to adults who may be
physically or mentally disabled; and

Whereas, adult day care provides care and supervision during the day, allowing
caregivers a time of respite or allowing caregivers to attend to other duties, including work; and

Whereas, adult day care allows individuals to remain in their communities and/or in
familiar surroundings, thereby prolonging or eliminating the need for placement in a long-term
care facility; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1.(a) Notwithstanding G.S. 131D-6(b), the Department of Health and
Human Services shall conduct a pilot program to assess the provision of overnight respite
services in adult day care programs. The Secretary shall select a minimum of two, and a
maximum of four, stable and successful certified adult day care programs in which to conduct
the pilot. At least two of the programs selected shall be operated by an organization that has
been offering adult day care in North Carolina since 1980 and has received national recognition
including all of the following criteria: designated as a National Model Adult Day Care Center
by the Robert Wood Johnson Foundation, designated as the only Teaching Day Center for
recipients of North Carolina adult day care startup funds, received the North Carolina
Non-Profit Center's Non-Profit Sector Stewardship Award for exemplary stewardship of
resources, and received Leadership in Energy and Environmental Design (LEED) certification.

SECTION 1.(b) The provision of 24-hour care under this act shall not exceed 14
consecutive calendar days, or more than 60 total calendar days, during a 365-day period, for
each participant receiving overnight respite services. The capacity of the 24-hour overnight
respite program authorized under this act shall not exceed six beds. The State is not authorized
to pay for any overnight respite services offered through this pilot, and the pilot shall not be
eligible to enroll or otherwise participate in the Medicaid program.

SECTION 1.(c) An adult day care program participating in this pilot shall be
currently certified by the Department to provide adult day care. An adult day care program

1 participating in the pilot shall be exempt from adult care home licensure pursuant to Article 1
2 of Chapter 131D of the General Statutes and shall be exempt from licensure under Chapter
3 131E and Chapter 122C of the General Statutes. The Department of Health and Human
4 Services shall adopt rules to include minimum requirements to ensure the health and safety of
5 adult day care overnight respite participants. These requirements shall specify program
6 management, staffing, building specifications, fire safety, sanitation, nutrition, enrollment,
7 medication management, and program activities. Participant assessments conducted by the
8 adult day care pilot programs shall provide sufficient information to ensure appropriate care
9 and to protect the health and safety of participants but shall not be more onerous than current
10 adult day care assessments. The Division of Health Service Regulation shall have the authority
11 to enforce the rules adopted by the Department. Prior to the provision of overnight respite
12 services, an adult day care program participating in the pilot shall receive an initial inspection
13 by the Division of Health Service Regulation for compliance with the rules. On a basis not less
14 than every six months, the Division of Health Service Regulation shall conduct monitoring
15 visits and shall also be responsible for the investigation of complaints. Each adult day care
16 program participating in the pilot shall periodically report the number of individuals served and
17 the average daily census to the Division of Health Service Regulation, on a schedule
18 determined by the Division. The Division of Health Service Regulation shall have the authority
19 to suspend admissions or terminate the pilot program at any time due to noncompliance with
20 regulatory requirements which has resulted in death or serious physical harm, or when there is a
21 substantial risk that death or serious physical harm will occur.

22 **SECTION 2.** The Department of Health and Human Services shall report on the
23 status of the pilot once a year to the Program Evaluation Division. The Program Evaluation
24 Division shall evaluate the provision of overnight respite services in an adult day care program
25 through the experiences of this pilot. The evaluation shall include whether this pilot was
26 successful as measured by the participants in receipt of overnight respite, the primary
27 caregivers of participants, the adult day care programs participating in the pilot, and the
28 Department of Health and Human Services. On or before October 1, 2014, the Program
29 Evaluation Division shall provide a report to the General Assembly on the feasibility of
30 continuing to provide overnight respite in an adult day care program.

31 **SECTION 3.** This act becomes effective when it becomes law; adult day care
32 programs participating in the pilot shall be selected and have received an initial inspection by
33 January 1, 2012; and this act is repealed June 1, 2015.
