"phases of development. No later than July 1, 2013, the Commission shall also adopt rules to allow applicants for permits for transfer stations the option to (i) apply for a permit with a five-year duration to construct and operate a transfer station; or (ii) apply for a permit with a 10-year duration to construct and operate a transfer station, with a limited review of the permit five years after issuance of the initial permit and five years after issuance of any amendment to the permit. In developing these rules, the Department of Environment and Natural Resources shall examine the current fee schedule for permits for sanitary landfills and transfer stations as set forth under G.S. 130A-295.8, and formulate recommendations for adjustments to the current fee schedule sufficient to address any additional demands associated with review of permits issued for 10-year phases of landfill development and the issuance permits with a duration of up to 10 years for transfer stations. The Department shall report its findings and recommendations, including any legislative proposals, to the Environmental Review Commission on or before December 1, 2012. The rules required by this section shall not become effective until the fee schedule set forth under G.S. 130A-295.8 is amended as necessary to address any additional demands associated with review of permits issued for 10-year phases of landfill development and the issuance of permits with a duration of up to 10 years to construct and operate transfer stations."
