A BILL TO BE ENTITLED

AN ACT DIRECTING THE STATE BOARD OF EDUCATION TO IMPLEMENT A
DROPOUT RECOVERY PILOT PROGRAM.

Whereas, dropout rates continue to plague North Carolina, limiting career opportunities for dropouts and costing the State billions of dollars in lost wages; and

Whereas, high school dropouts are more likely to be incarcerated and more likely to need social welfare assistance; and

Whereas, the traditional path to a complete high school education is not for everyone; and

Whereas, many students perform best in nontraditional settings, and many students have family and employment obligations that hinder them from following the traditional route to a diploma; and

Whereas, these students require flexibility in terms of scheduling and content delivery; and

Whereas, there is also a need to close the gap in the graduation rates between minority students and white students; and

Whereas, it would be more efficient for North Carolina to reengage students across the State by implementing a statewide pilot program with an initial focus on the districts of highest need to allow the program to be effectively monitored prior to a statewide implementation; and

Whereas, North Carolina can implement such a program without additional taxes or appropriations; Now, therefore,

The General Assembly of North Carolina enacts:

SECTION 1. The State Board of Education shall implement a three-year Dropout Recovery Pilot Program in New Hanover County Schools and three other local school administrative units selected by the State Board of Education. The purpose of the pilot program is to reengage students and increase the graduation rates in North Carolina through an educational program that provides flexible scheduling and a blended learning environment with individualized and self-paced learning options.

SECTION 2. Under the pilot program, the educational services and programming shall be provided by an education partner that is a nonprofit or for-profit entity approved by the State Board of Education.
