8 in impaired memory, thinking, and behavior, including gradual  
9 memory loss, impaired judgment, disorientation, personality change,  
10 difficulty in learning, and the loss of language skills.

11 c. Regardless of setting, the recipient requires a physical environment  
12 that includes modifications and safety measures to safeguard the  
13 recipient because of the recipient's gradual memory loss, impaired  
14 judgment, disorientation, personality change, difficulty in learning,

40 household chores not directly related to the qualifying ADLs.

41 **"SECTION 10.9F.(d)** All assessments for personal care services, continuation of service,

43 The IAE shall not be an owner of a provider business or provider of personal care services of  
44 any type.
