Referred to:

May 15, 2014

1 A BILL TO BE ENTITLED  
2 AN ACT TO PREVENT THE ABUSIVE USE OF PATENTS.  
3 The General Assembly of North Carolina enacts:

4 SECTION 1. Chapter 75 of the General Statutes is amended by adding a new  
5 Article to read:

6 "Article 8.

7 "Abusive Patent Assertions.

8 **"§ 75-136. Title.**

9 This Article shall be known and may be cited as the "Abusive Patent Assertions Act."

10 **"§ 75-137. Purpose.**

11 (a) The General Assembly finds the following:

- 12 (1) North Carolina is home to a growing high-technology, knowledge-based  
13 economy. With its top-tier research universities and active technology  
14 sector, North Carolina is poised to continue its growth. To continue growing,  
15 North Carolina must attract new, small, or mid-sized technology companies.  
16 Doing so will help provide jobs for North Carolina's residents and boost  
17 North Carolina's economy. North Carolina also is home to companies in  
18 retail, manufacturing, and other industries, many of whom are customers of  
19 technology companies. Those other businesses are more likely to succeed if  
20 not inhibited by abusive and bad-faith demands and litigation.
- 21 (2) Patents encourage research, development, and innovation. Patent holders  
22 have legitimate rights to enforce their patents.
- 23 (3) The General Assembly does not wish to interfere with good-faith patent  
24 litigation or the good-faith enforcement of patents. The General Assembly  
25 also recognizes that North Carolina is preempted from passing any law that  
26 conflicts with federal patent law.
- 27 (4) Patent litigation can be technical, complex, and expensive. The expense of  
28 patent litigation, which may cost millions of dollars, can be a significant  
29 burden on small- and medium-sized companies. North Carolina wishes to  
30 help its businesses avoid these costs by encouraging the most efficient  
31 resolution of patent infringement claims without conflicting with federal  
32 law.
- 33 (5) In order for North Carolina companies to be able to respond promptly and  
34 efficiently to patent infringement assertions against them, it is necessary that  
35 they receive specific information regarding how their product, service, or  
36 technology may have infringed the patent at issue. Receiving this

1 information at an early stage will facilitate the resolution of claims and  
2 lessen the burden of potential litigation on North Carolina companies.

3 (6) Abusive patent litigation, and especially the assertion of bad-faith  
4 infringement claims, can harm North Carolina companies. A business that  
5 receives a letter asserting such claims faces the threat of expensive and  
6 protracted litigation and may feel that it has no choice but to settle and to  
7 pay a licensing fee even if the claim is meritless. This is especially so for  
8 small- and medium-sized companies and nonprofits that lack the resources to  
9 investigate and defend themselves against infringement claims.

10 (7) Not only do bad-faith patent infringement claims impose a significant  
11 burden on individual North Carolina businesses, they also undermine North  
12 Carolina's efforts to attract and nurture technology and other companies.  
13 Funds used to avoid the threat of bad-faith litigation are no longer available  
14 to invest, produce new products, expand, or hire new workers, thereby  
15 harming North Carolina's economy.

16 (8) North Carolina has a strong interest in patent matters involving its citizens  
17 and its businesses, including protecting its citizens and businesses against  
18 abusive patent assertions and ensuring North Carolina companies are not  
19 subjected to abusive patent assertion by entities acting in bad faith.

20 (9) In lawsuits involving abusive patent assertions, an accused infringer  
21 prevailing on the merits may be awarded costs and, less frequently, fees.  
22 These awards do not serve as a deterrent to abusive patent assertion entities  
23 who have limited liability, as these companies may hold no cash or other  
24 assets. North Carolina has a strong interest in making sure that prevailing  
25 North Carolina companies sued by abusive patent assertion entities can  
26 recover what is awarded to them.

27 (b) The General Assembly seeks, by this narrowly tailored act, to strike a balance  
28 between (i) the interests of efficient and prompt resolution of patent infringement claims,  
29 protection of North Carolina businesses from abusive and bad-faith assertions of patent  
30 infringement, and building of North Carolina's economy and (ii) the intentions to respect  
31 federal law and be careful to not interfere with legitimate patent enforcement actions. Nothing  
32 in this act is intended to alter current law concerning piercing the corporate veil.

33 **§ 75-138. Definitions.**

34 The following definitions apply in this Article:

35 (1) Affiliate. – A business establishment, business, or other legal entity that  
36 wholly or substantially owns, is wholly or substantially owned by, or is  
37 under common ownership with another entity.

38 (2) Demand. – A letter, e-mail, or other communication asserting or claiming  
39 that a target has engaged in patent infringement or should obtain a license to  
40 a patent.

41 (3) Institution of higher education. – Defined in 20 U.S.C. § 1001(a).

42 (4) Interested party. – A person, other than the party alleging infringement, that  
43 (i) is an assignee of the patent or patents at issue; (ii) has a right, including a  
44 contingent right, to enforce or sublicense the patent or patents at issue; or  
45 (iii) has a direct financial interest in the patent or patents at issue, including  
46 the right to any part of an award of damages or any part of licensing revenue.  
47 A "direct financial interest" does not include either of the following:

48 a. An attorney or law firm providing legal representation in the civil  
49 action alleging patent infringement if the sole basis for the financial  
50 interest of the attorney or law firm in the patent or patents at issue

1 arises from the attorney's or law firm's receipt of compensation  
2 reasonably related to the provision of the legal representation.

3 b. A person whose sole financial interest in the patent or patents at issue  
4 is ownership of an equity interest in the party alleging infringement,  
5 unless such person also has the right or ability to influence, direct, or  
6 control the civil action.

7 (5) Operating entity. – A person primarily engaged in, when evaluated with its  
8 affiliates over the preceding 24-month period and when disregarding the  
9 selling and licensing of patents, one or more of the following activities: (i)  
10 research and technical or experimental work to create, test, qualify, modify,  
11 or validate technologies or processes for commercialization of goods or  
12 services, (ii) manufacturing, or (iii) the provision of goods or commercial  
13 services.

14 (6) Target. – A North Carolina person that meets one or more of the following:

15 a. The person has received a demand or is the subject of an assertion or  
16 allegation of patent infringement.

17 b. The person has been threatened with litigation or is the defendant of  
18 a filed lawsuit alleging patent infringement.

19 c. The person has customers who have received a demand asserting that  
20 the person's product, service, or technology has infringed a patent.

21 **"§ 75-139. Abusive Patent Assertions.**

22 (a) It is unlawful for a person to make a bad-faith assertion of patent infringement. A  
23 court may consider the following factors as evidence that a person has made a bad-faith  
24 assertion of patent infringement:

25 (1) The demand does not contain all of the following information:

26 a. The patent application number or patent number.

27 b. The name and address of the patent owner or owners and assignee or  
28 assignees, if any.

29 c. Factual allegations concerning the specific areas in which the target's  
30 products, services, and technology infringe the patent or are covered  
31 by specific, identified claims in the patent.

32 d. An explanation of why the person making the assertion has standing,  
33 if the United States Patent and Trademark Office's assignment  
34 system does not identify the person asserting the patent as the owner.

35 (2) Prior to sending the demand, the person failed to conduct an analysis  
36 comparing the claims in the patent to the target's products, services, and  
37 technology, or the analysis was done but does not identify specific areas in  
38 which the products, services, and technology are covered by the claims in  
39 the patent.

40 (3) The demand lacks the information described in subdivision (1) of this  
41 subsection, the target requests the information, and the person fails to  
42 provide the information within a reasonable period of time.

43 (4) The person demands payment of a license fee or response within an  
44 unreasonably short period of time.

45 (5) The person offers to license the patent for an amount that is not based on a  
46 reasonable estimate of the value of the license, or the person offers to license  
47 the patent for an amount that is based on the cost of defending a potential or  
48 actual lawsuit.

49 (6) The claim or assertion of patent infringement is meritless, and the person  
50 knew or should have known that the claim or assertion is meritless; or the  
51 claim or assertion relies on an interpretation of the patent that was

- 1 disclaimed during prosecution, and the person making the claim or assertion  
2 knows or should have known about the disclaimer, or would have known  
3 about the disclaimer if the person reviewed the patent's prosecution history.  
4 (7) The claim or assertion of patent infringement is deceptive.  
5 (8) The person or its subsidiaries or affiliates have previously or concurrently  
6 filed or threatened to file one or more lawsuits based on the same or similar  
7 claim of patent infringement and (i) those threats or lawsuits lacked the  
8 information described in subdivision (1) of this subsection, or (ii) the person  
9 attempted to enforce the claim of patent infringement in litigation, and a  
10 court found the claim to be meritless.  
11 (9) The person making the claim or assertion sent the same demand or  
12 substantially the same demand to multiple recipients and made assertions  
13 against a wide variety of products and systems without reflecting those  
14 differences in a reasonable manner in the demands.  
15 (10) The person making the claim or assertion is aware of, but does not disclose,  
16 any final, nonfinal, or preliminary postgrant finding of invalidity or  
17 unpatentability involving the patent.  
18 (11) The person making the claim or assertion seeks an injunction when that is  
19 objectively unreasonable under the law.  
20 (12) Any other factor the court finds relevant.  
21 (b) A court may consider the following factors as evidence that a person has not made a  
22 bad-faith assertion of patent infringement:  
23 (1) The demand contains the information described in subdivision (a)(1) of this  
24 section.  
25 (2) Where the demand lacks the information described in subdivision (a)(1) of  
26 this section and the target requests the information, the person provides the  
27 information within a reasonable period of time.  
28 (3) The person engages in a good-faith effort to establish that the target has  
29 infringed the patent and to negotiate an appropriate remedy.  
30 (4) The person makes a substantial investment in the use of the patent or in the  
31 production or sale of a product or item that the person reasonably believes is  
32 covered by the patent. "Use of the patent" in the preceding sentence means  
33 actual practice of the patent and does not include licensing without actual  
34 practice.  
35 (5) The person is either (i) the inventor or joint inventor of the patent or, in the  
36 case of a patent filed by and awarded to an assignee of the original inventor  
37 or joint inventor, the original assignee or (ii) an institution of higher  
38 education or a technology transfer organization owned or affiliated with an  
39 institution of higher education.  
40 (6) The person has demonstrated good-faith business practices in previous  
41 efforts to enforce the patent, or a substantially similar patent, or has  
42 successfully enforced the patent, or a substantially similar patent, through  
43 litigation.  
44 (7) Any other factor the court finds relevant.  
45 (c) This Article does not apply to any of the following:  
46 (1) A demand letter or assertion of patent infringement arising under any of the  
47 following:  
48 a. 7 U.S.C. § 136, et seq.  
49 b. 7 U.S.C. § 2321, et seq.  
50 c. 21 U.S.C. § 301, et seq.  
51 d. 35 U.S.C. § 161, et seq.

1 e. 35 U.S.C. § 271(e)(2).

2 f. 42 U.S.C. § 262.

3 (2) A demand letter or assertion of patent infringement by or on behalf of (i) an  
4 institution of higher education incorporated under the laws of and with its  
5 principal offices in North Carolina or (ii) a technology transfer organization  
6 owned by or affiliated with the institution of higher education.

7 (3) A demand letter or assertion of patent infringement by or on behalf of a  
8 nonprofit research organization recognized as exempt from federal income  
9 tax under 26 U.S.C. § 501(c)(3) incorporated under the laws of and with its  
10 principal offices in North Carolina or a technology transfer organization  
11 owned by or affiliated with the organization.

12 (4) A demand letter or assertion of patent infringement made by an operating  
13 entity or its affiliate.

14 (d) Subject to the provisions of subsections (a) and (b) of this section and provided the  
15 activities are not carried out in bad faith, nothing in this section shall be construed to deem it an  
16 unlawful practice for any person who owns or has the right to license or enforce a patent to do  
17 any of the following:

18 (1) Advise others of that ownership or right of license or enforcement.

19 (2) Communicate to others that the patent is available for license or sale.

20 (3) Notify another of the infringement of the patent.

21 (4) Seek compensation on account of past or present infringement or for a  
22 license to the patent.

23 **"§ 75-140. Bond.**

24 (a) Upon motion by a target and a finding by the court that a target has established a  
25 reasonable likelihood that a person has made a bad-faith assertion of patent infringement in  
26 violation of this Chapter, the court shall require the person to post a bond in an amount equal to  
27 a good-faith estimate of the target's fees and costs to litigate the claim and amounts reasonably  
28 likely to be recovered under G.S. 75-141, conditioned upon payment of any amounts finally  
29 determined to be due to the target. A hearing shall be held if either party so requests. A bond  
30 ordered pursuant to this section shall not exceed five hundred thousand dollars (\$500,000).

31 (b) The court may waive the bond requirement of subsection (a) of this section if it  
32 finds the person has available assets equal to the amount of the proposed bond or for other good  
33 cause shown.

34 (c) If the person asserting patent infringement fails within 30 days to pay any fee or  
35 cost ordered by a court in a matter related to the asserted patent infringement, the amount not  
36 paid shall be paid out of the bond posted under subsection (a) of this section without affecting  
37 the obligation of the person asserting patent infringement to pay any remainder of those fees or  
38 costs not paid out of the bond.

39 **"§ 75-141. Enforcement; Remedies; Damages.**

40 (a) The Attorney General shall have the same authority under this Article to make rules,  
41 conduct civil investigations, bring civil actions, and enter into assurances of discontinuance as  
42 provided under this Chapter. In an action brought by the Attorney General pursuant to this  
43 section, the court may award or impose any relief available under this Chapter.

44 (b) A target or a person aggrieved by a violation of this Article or by a violation of rules  
45 adopted under this Article may bring an action in Superior Court against a person that has made  
46 a bad-faith assertion of patent infringement. A court may award to a plaintiff that prevails in an  
47 action brought pursuant to this subsection one or more of the following remedies:

48 (1) Equitable relief.

49 (2) Damages.

50 (3) Costs and fees, including reasonable attorneys' fees.

1           (4)   Exemplary damages in an amount equal to fifty thousand dollars (\$50,000)  
2                   or three times the total of damages, costs, and fees, whichever is greater.

3           (c)   Joinder of Interested Parties. – In an action arising under subsection (a) or (b) of this  
4 section, the court shall grant a motion by the Attorney General or a target to join an interested  
5 party if the moving party shows that the party alleging infringement has no substantial interest  
6 in the patent or patents at issue other than making demands or asserting such patent claim in  
7 litigation.

8           (d)   In an action arising under subsection (a) or (b) of this section, any person who has  
9 delivered or sent a demand to a target in North Carolina has purposefully availed himself of the  
10 privileges of conducting business in this State and shall be subject to suit in this State, whether  
11 or not the person is transacting or has transacted any other business in this State. This Article  
12 shall be construed as a special jurisdiction statute in accordance with G.S. 1-75.4(2).

13           (e)   If a party is unable to pay an amount awarded by the court pursuant to subsection (a)  
14 or (b) of this section, the court may find any interested party joined pursuant to subsection (c)  
15 of this section jointly and severally liable for the abusive patent assertion and make the award  
16 recoverable against any or all of the joined interested parties.

17           (f)   This Article shall not be construed to limit rights and remedies available to the State  
18 of North Carolina or to any person under any other law and shall not alter or restrict the  
19 Attorney General's authority under this Article with regard to conduct involving assertions of  
20 patent infringement."

21           **SECTION 2.** Section 1 of this act is effective when it becomes law and applies to  
22 causes of actions commenced on or after that date and demands made on or after that date. The  
23 remainder of this act is effective when it becomes law.
