7 Whereas, as provided in G.S. 143B-282(a), the Environmental Management  
8 Commission was established with the power and duty to promulgate rules for the protection,  
9 preservation, and enhancement of the water and air resources of the State; and

10 Whereas, the membership of the Environmental Management Commission was  
11 established by Section 20 of S.L. 1973-1262; and

12 Whereas, subdivision (9) of subsection (a) of Section 20 of S.L. 1973-1262  
13 provided, "The Governor, by executive order, shall promulgate criteria for determining the  
14 eligibility of persons under this section and for this purpose, may promulgate the rules,  
15 regulations or guidelines established by any federal agency interpreting and applying  
16 equivalent provisions of law."; and

17 Whereas, Section 5 of S.L. 1979-1158 amended the provision enacted by  
18 subdivision (9) of subsection (a) of Section 20 of S.L. 1973-1262 to also provide, "The  
19 Governor shall require adequate disclosure of potential conflicts of interest by members. The  
20 Governor, by executive order, shall promulgate criteria regarding conflicts of interest and  
21 disclosure thereof for determining the eligibility of persons under this section, giving due  
22 regard to the requirements of federal legislation, and for this purpose may promulgate rules,

28 Governor, by executive order, shall promulgate criteria regarding conflicts of interest and  
29 disclosure thereof for determining the eligibility of persons under this subsection, giving due  
30 regard to the requirements of federal legislation, and for this purpose may promulgate rules,  
31 regulations or guidelines in conformance with those established by any federal agency  
32 interpreting and applying provisions of federal law."; and

33 Whereas, the Coastal Resources Commission was established by Section 1 of S.L.  
34 1973-1284, effective July 1, 1974; and

35 Whereas, the Coastal Resources Commission was established to implement the  
36 Coastal Area Management Act of 1974; and

\* D R S 3 5 2 0 1 - L E - 9 9 A \*

1           Whereas, as provided in G.S. 113A-102(b), the goals of the Coastal Area  
2 Management Act include management of the natural coastal systems in order to protect and  
3 maintain their natural productivity and their biological, economic, and esthetic values and  
4 management of development and preservation of the land and water resources of the coastal  
5 area in a manner consistent with the capability of the land and water for development, use, or  
6 preservation based on ecological considerations; and

7           Whereas, the membership of the Coastal Resources Commission was established by  
8 Section 1 of S.L. 1973-1284; and

9           Whereas, Section 1 of S.L. 1989-505 amended the membership provisions  
10 established by Section 1 of S.L. 1973-1284 to provide, "The Governor shall require adequate  
11 disclosure of potential conflicts of interest by members. The Governor, by executive order,  
12 shall promulgate criteria regarding conflicts of interest and disclosure thereof for determining  
13 the eligibility of persons under this section."; and

14           Whereas, the provision enacted by Section 1 of S.L. 1973-1284, as subsequently  
15 amended, currently provides, "The Governor shall require adequate disclosure of potential  
16 conflicts of interest by these members. The Governor, by executive order, shall promulgate  
17 criteria regarding conflicts of interest and disclosure thereof for determining the eligibility of  
18 persons under this subsection."; and

19           Whereas, the Coal Ash Management Commission was established by Section 3.(a)  
20 of S.L. 2014-122, effective September 20, 2014; and

21           Whereas, as provided in G.S. 130A-309.202(a), the Coal Ash Management  
22 Commission was established in recognition of the complexity and magnitude of the issues  
23 associated with the management of coal combustion residuals and the proper closure and  
24 remediation of coal combustion residuals surface impoundments; and

25           Whereas, as provided in G.S. 130A-309.213(c), the Coal Ash Management  
26 Commission must evaluate all information submitted in accordance with the Coal Ash  
27 Management Act related to the proposed classifications of coal combustion residuals surface  
28 impoundments and may only approve a proposed classification if it determines that the  
29 classification was developed in accordance with the Coal Ash Management Act and that the  
30 classification accurately reflects the level of risk posed by the coal combustion residuals  
31 surface impoundment; and

32           Whereas, as provided in G.S. 130A-309.214(d), the Coal Ash Management  
33 Commission must approve a Closure Plan if it determines that the Closure Plan was developed  
34 in accordance with the Coal Ash Management Act, that implementation of the Closure Plan  
35 according to the Closure Plan's schedule is technologically and economically feasible, and the  
36 Closure Plan is protective of the public health, safety, and welfare; the environment; and  
37 natural resources. In addition, the Commission may consider any impact on electricity costs  
38 and reliability, but this factor may not be dispositive of the Commission's determination; and

39           Whereas, like the Environmental Management Commission and the Coastal  
40 Resources Commission, the Coal Ash Management Commission was established to evaluate  
41 complex issues related to the risks posed by environmental contaminants and ensure that the  
42 actions taken to manage environmental contaminants are protective of the public health, safety,  
43 and welfare; the environment; and natural resources; and

44           Whereas, due to the similar powers and duties shared by the Coal Ash Management  
45 Commission with the Environmental Management Commission and the Coastal Resources  
46 Commission, the General Assembly modelled many of the provisions establishing the Coal Ash  
47 Management Commission on provisions establishing the Environmental Management  
48 Commission and the Coastal Resources Commission; and

49           Whereas, the General Assembly modelled the conflict of interest and disclosure  
50 provision of the Coal Ash Management Commission found in G.S. 130A-309.202(j) on the

1 long-standing and unchallenged conflict of interest and disclosure provisions of the  
2 Environmental Management Commission and the Coastal Resources Commission; and

3       Whereas, although the General Assembly finds that measures to prevent conflicts of  
4 interest for public servants and to provide abundant disclosure to prevent the appearance of  
5 conflicts of interest are of the utmost public good, the General Assembly finds that  
6 implementing such measures through issuance of an Executive Order by the Governor is  
7 unnecessary and that the Governor may determine that such additional measures are not  
8 necessary given the protections provided under Chapter 138A of the General Statutes, the State  
9 Government Ethics Act; and

10       Whereas, the holding of the North Carolina Supreme Court in *Wallace v. Bone*, 304  
11 N.C. 591 (1982), prohibits legislators from serving on certain boards; and

12       Whereas, since *Wallace v. Bone*, the General Assembly has periodically enacted  
13 legislation removing legislators from serving in such capacities when those instances arise; and

14       Whereas, the General Assembly has determined that legislators are not eligible to  
15 serve on certain existing boards and commissions; Now, therefore,  
16 The General Assembly of North Carolina enacts:
