"SECTION 1.1(a) G.S. 130A-309.214 reads as rewritten:

5

"§ 130A-309.214. Closure of coal combustion residuals surface impoundments.

6

...

7

(g) Notwithstanding any other requirement for closure under this section or Part, no later than December 1, 2016, an impoundment owner shall submit plans to the Department of Environmental Quality to make at least 2.5 million tons of coal combustion residuals per year available for beneficial use for addition to concrete. At least 50% of the coal combustion residuals made available for beneficial use shall be removed from the current inventory of coal combustion residuals. Facilities that are or have received coal combustion residuals from other sites will be the sites from which the coal combustion residuals inventory will be used first. No later than June 1, 2018, an impoundment owner shall begin to supply such coal combustion residuals for beneficial use in accordance with this subsection."
