D

HOUSE JOINT RESOLUTION DRHJR30124-LG-29 (02/23)

Sponsors: Representative Willingham.

Referred to:

1 A JOINT RESOLUTION URGING CONGRESS TO ENACT WITHOUT DELAY AN
2 "AMERICAN ECONOMIC RECOVERY PROGRAM" WITH SUGGESTED
3 PARAMETERS AND SPECIFICS IN ORDER TO PROVIDE MECHANISMS TO
4 RESTORE THE ECONOMIC HEALTH AND WELL-BEING OF AMERICA AND ITS
5 CITIZENS.

6 Whereas, the financial system in the United States is now holding over \$275 trillion of
7 derivatives contracts on the books of the federally insured banks, according to the Comptroller of
8 the Currency, the same financial paper that blew up in 2008, and these derivatives now threaten a
9 new financial disintegration like that of 2008. The "Too Big To Fail Banks" are constantly hit by
10 crises – the expose of Wells Fargo's shocking improprieties, JP Morgan Chase, Goldman Sachs,
11 and others being found guilty of felonies against their customers, and Citigroup, Bank of America,
12 and others being fined for continuing legal malfeasance; and

13 Whereas, the financial crisis is being driven by a collapse of this country's industry and
14 infrastructure. The United States GDP has been "growing" at 1 to 2% over the past years, and only
15 11% since 2008. Productivity has been falling continuously and is now "expanding" at .5% per
16 year, rates not seen in decades. Capacity utilization has been stagnant, while over 1,500
17 corporations and banks continue to buy back their own stock, driving up the markets, while the
18 productive economy falters; and

19 Whereas, a return to a durable recovery will require adoption of national banking and
20 credit policies, as was done by Alexander Hamilton, John Quincy Adams, Abraham Lincoln,
21 Franklin D. Roosevelt, Dwight Eisenhower, and John F. Kennedy; this program of federal credit
22 to industry, states, and cities built our nation; Now, therefore,

23 Be it resolved by the House of Representatives, the Senate concurring:

24 **SECTION 1.** The General Assembly urges the Congress of the United States to enact
25 without delay the following "American Economic Recovery Program," according to the following
26 proposals:

- 27 (1) Restore the provisions of the Glass-Steagall Act, and pass HR 381 in the United
28 States House of Representatives and S 1709 in the United States Senate, which
29 aim to immediately restore the separation of investment and commercial
30 banking. Glass-Steagall was the law of the land for 66 years and prevented
31 banking crises like the one experienced in 2008. Glass-Steagall was added to
32 the platforms of both political parties this summer.
- 33 (2) Return to a national banking system, modeled on the principles of Alexander
34 Hamilton's First Bank of the United States which built all the early
35 infrastructure of the nation. Under President John Quincy Adams, the Second
36 Bank of the United States oversaw the largest expansion of infrastructure until
37 the advent of the Lincoln Administration, which used the same banking

1 principles. The same federal credit policy was embodied in Franklin Roosevelt's
2 Reconstruction Finance Corporation, which financed the gigantic New Deal
3 infrastructure program. Rep. Robert Doughton chaired the Ways and Means
4 Committee and played a crucial role in infrastructure development. The
5 Tennessee Valley Authority included parts of North Carolina and should be a
6 model for a much larger Carolina states flood control program. Congress can
7 and should enact a new National Infrastructure Bank, with at least \$1-3 trillion
8 federally backed, nontaxpayer money, and erect a new infrastructure platform
9 in coordination with the states.

10 (3) Use the federal credit system to build a modern network of high-speed rail,
11 power generating systems, water projects, and urban and rural infrastructure.
12 On the East Coast, the building of a modern high-speed rail system (200mph)
13 should be a priority. Funding must also be made available for coastal seawall
14 systems to end the threat of excessive hurricane and other water damage.
15 Additionally, a series of inland flood control projects, like the Tennessee Valley
16 Authority, should be built in the Carolinas to permanently end the threat of
17 flooding.

18 (4) Launch a John F. Kennedy-style initiative to rebuild our space program to
19 explore the solar system and inspire future generations. America, through its
20 President and the Congress, also must launch a crash program to develop fusion
21 power to finally solve the energy needs of the nation and the planet.

22 **SECTION 2.** The Secretary of State shall transmit copies of this application to the
23 President of the United States, Secretary of the United States Senate, the Speaker and Clerk of the
24 United States House of Representatives, and the members of North Carolina's congressional
25 delegation.

26 **SECTION 3.** This resolution is effective upon ratification.
