HOUSE BILL DRH10463-MHa-128B

Short Title: Support Sustainable Fisheries Communities. (Public)

Sponsors: Representative Speciale.

Referred to:

A BILL TO BE ENTITLED

AN ACT TO RESTORE THE JOINT LEGISLATIVE OVERSIGHT COMMISSION ON SEAFOOD AND AQUACULTURE, TO REFORM THE STATUTES GOVERNING APPOINTMENTS TO THE MARINE FISHERIES COMMISSION, AND TO IMPOSE A MORATORIUM ON CERTAIN RULE-MAKING POWERS OF THE MARINE FISHERIES COMMISSION PENDING A STUDY OF ITS STRUCTURE AND FUNCTIONING.

The General Assembly of North Carolina enacts:

SECTION 1.1. This act shall be known as the "Sustainable Coastal Fisheries Community Preservation and Economic Development Act of 2018."

SECTION 1.2. The General Assembly finds the following:

- (1) The General Assembly finds that the reestablishment of an oversight committee for the review and study of issues pertaining to the management and promotion of coastal fisheries, aquaculture, and mariculture during times when the General Assembly is not in session will provide greater opportunity for stakeholder input and promote well-reasoned policy decisions supported by sound research.
- (2) The need for well-reasoned policy decision is highlighted by recent actions of the Marine Fisheries Commission (Commission) that are contrary to the legislative intent and express provisions of the Fisheries Reform Act of 1997, S.L. 1997-400, which significantly revised the State's approach to fisheries management based on the recognition by the General Assembly of the need to protect our coastal fishery resources and to balance the commercial and recreational interests in those fisheries through better management of these resources.
- (3) The Fisheries Reform Act established a fishery management plan (FMP) development process that professionalized the North Carolina fisheries conservation efforts and provided for structured participation of citizen advisory committees and guidance from scientific experts with the North Carolina Division of Marine Fisheries (Division).
- (4) The Commission recently approved a Petition for Rule Making regarding the North Carolina shrimp trawl fishery and conservation of spot and Atlantic croaker that undermined the FMP process and was in many respects contrary to the existing North Carolina Shrimp FMP and the current FMPs for spot and Atlantic croaker. By approving the Petition, the Commission rejected without explanation unanimous recommendations by its standing advisory committees

1 to deny the Petition. This action will likely discourage future participation by
 2 stakeholders on the advisory committees.

3 (5) The Commission also recently approved on an expedited basis a Southern
 4 Flounder FMP Supplement that was significantly more restrictive than
 5 measures recommended by the Division staff and was subsequently partially
 6 enjoined on judicial review in the State's courts by North Carolina courts.

7 (6) The Commission has also acted in a manner that is inconsistent with the State's
 8 open meeting statutes, which were enacted to provide citizens of the State
 9 transparency with respect to the activities of State boards and commissions in
 10 carrying out their statutory duties.

11 (7) The Fisheries Reform Act envisioned an appointment structure for the
 12 Commission that is fair and balanced with respect to various fisheries
 13 stakeholders, but recent votes by the Commission on controversial measures
 14 frequently passed with recreational fishing, scientist, and at-large seats all
 15 voting for significantly restrictive measures and commercial representatives
 16 voting against the measures.
