These endorsements shall reflect courses completed, overall grade point average, reading achievement, and other criteria as developed by the State Board of Education. A student shall only receive a high school diploma endorsement if that student receives on a nationally norm-referenced college admissions test for reading, either administered under G.S. 115C-174.11(c)(4) or as an alternative nationally norm-referenced college admissions test approved by the State Board, at least the benchmark score established by the testing organization that represents the level of achievement required for students to have approximately a fifty percent (50%) chance of obtaining a grade B or higher or a seventy-five percent (75%) chance of obtaining a grade C or higher in a corresponding credit-bearing, first-year college course. A student may retake a nationally norm-referenced test as many times as necessary to achieve the required benchmark score for reading in order to receive a high school diploma endorsement prior to the student's graduation. The State Board of Education shall report annually to the Joint Legislative Education Oversight Committee on (i) the impact of awarding these endorsements on high school graduation, college acceptance and remediation, and post-high school employment rates; (ii) the number of students who had to retake a nationally norm-referenced college admissions test to meet the reading benchmark score required by this subdivision to receive a high school diploma endorsement; and (iii) the number of students who were not awarded a high school diploma endorsement solely because of the inability to meet the benchmark score for reading as required by this subdivision.
