AN ACT APPROPRIATING FUNDS TO THE DEPARTMENT OF HEALTH AND HUMAN SERVICES, DIVISION OF PUBLIC HEALTH, TO EXPAND LOCAL COMMUNICABLE DISEASE SURVEILLANCE, DETECTION, CONTROL, AND PREVENTION INFRASTRUCTURE AND ACTIVITIES.

Whereas, in the last ten years, cases of communicable diseases have increased over two hundred percent (200%); and

Whereas, State law requires local health departments to implement control measures to prevent the spread of all reportable communicable diseases or communicable conditions and any other communicable disease or communicable condition that represents a significant threat to the public health; and

Whereas, local health departments provide, at no cost to the patient, the examination and treatment for tuberculosis disease and infection and for sexually transmitted diseases designated by the Commission for Public Health; and

Whereas, local health departments must have the infrastructure and capacity to perform communicable disease control and surveillance activities in order to prevent the spread of disease and protect the public health; Now, therefore,
