### 32 33 **PART III. USE MARKET-BASED SOURCING FOR MULTISTATE INCOME TAX** 34 **APPORTIONMENT**

35 **SECTION 3.1.** G.S. 105-130.4 reads as rewritten:

36 "**§ 105-130.4. Allocation and apportionment of income for corporations.**

37 ...

38 (l) ~~(4)~~ Sales Factor. – The sales factor is a fraction, the numerator of which is the total  
39 sales of the corporation in this State during the income year, and the denominator of which is the  
40 total sales of the corporation everywhere during the income year. Notwithstanding any other  
41 provision under this Part, the receipts from any casual sale of property shall be excluded from  
42 both the numerator and the denominator of the sales factor. Where a corporation is not taxable in  
43 another state on its apportionable income but is taxable in another state only because of  
44 nonapportionable income, all sales shall be treated as having been made in this State.

45 Receipts are in this State if the taxpayer's market for the receipts is in this State. If the market  
46 for a receipt cannot be determined, the state or states of assignment shall be reasonably  
47 approximated. In a case in which a taxpayer cannot ascertain the state or states to which receipts  
48 of a sale are to be assigned through the use of a method of reasonable approximation, the receipts  
49 must be excluded from the denominator of a taxpayer's sales factor. Except as otherwise provided  
50 by this section, a taxpayer's market for receipts is in this State as provided below:

- 1           (1)    In the case of sale, rental, lease, or license of real property, if and to the extent  
2           the property is located in this State.
- 3           (2)    In the case of rental, lease, or license of tangible personal property, if and to  
4           the extent the property is located in this State.~~Sales of tangible personal~~  
5           ~~property are in this State if the property is received in this State by the~~  
6           ~~purchaser. In the case of delivery of goods by common carrier or by other~~  
7           ~~means of transportation, including transportation by the purchaser, the place~~  
8           ~~at which the goods are ultimately received after all transportation has been~~  
9           ~~completed shall be considered as the place at which the goods are received by~~  
10          ~~the purchaser. Direct delivery into this State by the taxpayer to a person or~~  
11          ~~firm designated by a purchaser from within or without the State shall~~  
12          ~~constitute delivery to the purchaser in this State.~~
- 13          (3)    In the case of sale of tangible personal property, if and to the extent the  
14          property is received in this State by the purchaser. In the case of delivery of  
15          goods by common carrier or by other means of transportation, including  
16          transportation by the purchaser, the place at which the goods are ultimately  
17          received after all transportation has been completed is considered the place at  
18          which the goods are received by the purchaser. Direct delivery into this State  
19          by the taxpayer to a person or firm designated by a purchaser from within or  
20          without the State constitutes delivery to the purchaser in this State.~~Other sales~~  
21          ~~are in this State if any of the following occur:~~
- 22               a.       ~~The receipts are from real or tangible personal property located in this~~  
23               ~~State, and includes receipts from incidental services sold as part of, or~~  
24               ~~in connection with, the sale of tangible personal property in this State.~~
- 25               b.       ~~The receipts are from intangible property and are received from~~  
26               ~~sources within this State.~~
- 27               c.       ~~The receipts are from services and the income producing activities are~~  
28               ~~in this State. For the purposes of this subdivision, an~~  
29               ~~"income producing activity" means an activity directly performed by~~  
30               ~~the taxpayer or its agents for the ultimate purpose of generating the~~  
31               ~~sale of the service. Receipts from income producing activities~~  
32               ~~performed within and without this State are attributed to this State in~~  
33               ~~proportion to the income producing activities performed in this State~~  
34               ~~to total income producing activities performed everywhere that~~  
35               ~~generate the sale of service.~~
- 36          (4)    In the case of sale of a service, if and to the extent the service is delivered to  
37          a location in this State.
- 38          (5)    In the case of intangible property that is rented, leased, or licensed, if and to  
39          the extent the property is used in this State. Intangible property utilized in  
40          marketing a good or service to a consumer is "used in this State" if that good  
41          or service is purchased by a consumer who is in this State.
- 42          (6)    In the case of intangible property that is sold, if and to the extent the property  
43          is used in this State. A contract right, government license, or similar intangible  
44          property that authorized the holder to conduct a business activity in a specific  
45          geographic area is "used in this State" if the geographic area includes all or  
46          part of this State. Receipts from a sale of intangible property that is contingent  
47          on the productivity, use, or disposition of the intangible property shall be  
48          treated as receipts from the rental, lease, or licensing of the intangible property  
49          as provided under subdivision (5) of this subsection. All other receipts from a  
50          sale of intangible property shall be excluded from the numerator and  
51          denominator of the sales factor.

1       (1) Broadcasters. – A broadcaster's market for receipts is in this State as provided in  
2 G.S. 105-130.4A. For purposes of this section, the term "broadcaster" has the same meaning as  
3 defined in G.S. 105-130.4A.

4       (2) Banks. – A bank's market for receipts is in this State as provided in G.S. 105-130.4A.  
5 For purposes of this section, the term "bank" has the same meaning as defined in  
6 G.S. 105-130.4B.

7       ....

8       (s3) Electric Power Company. – All apportionable income of an electric power company  
9 shall be apportioned by a fraction, the numerator of which is the average value of the real and  
10 tangible personal property owned or rented and used in this State by the electric power company  
11 during the income year and the denominator of which is the average value of all the real and  
12 tangible personal property owned or rented and used by the electric power company during the  
13 income year. For purposes of this subsection, the term "electric power company" is a company,  
14 including any of its wholly owned noncorporate limited liability companies, primarily engaged  
15 in the business of supplying electricity for light, heat, current, or power to persons in this State  
16 and that is subject to control of one or more of the following entities: the North Carolina Utilities  
17 Commission or the Federal Energy Regulatory Commission.

18       For purposes of this subsection, the average value of real and tangible personal property  
19 owned or rented by an electric power company is determined as follows:

20           (1) The average value of property shall be determined by averaging the values at  
21 the beginning and end of the income year, but in all cases the Secretary may  
22 require the averaging of monthly or other periodic values during the income  
23 year if reasonably required to reflect properly the average value of the  
24 corporation's property.

25           (2) An electric power company that ceases its operations in this State before the  
26 end of its income year because of its intention to dissolve or to relinquish its  
27 certificate of authority, or because of a merger, conversion, or consolidation,  
28 or for any other reason whatsoever shall use the real estate and tangible  
29 personal property values as of the first day of the income year and the last day  
30 of its operations in this State in determining the average value of property, but  
31 the Secretary may require averaging of monthly or other periodic values  
32 during the income year if reasonably required to reflect properly the average  
33 value of the electric power company's property.

34           (3) Property owned by an electric power company is valued at its original cost.

35           (4) Property rented by an electric power company is valued at eight times the net  
36 annual rental rate.

37           (5) Net annual rental rate is the annual rental rate paid by an electric power  
38 company less any annual rental rate received by the electric power company  
39 from sub-rentals except that sub-rentals shall not be deducted when they  
40 constitute apportionable income.

41           (6) Any property under construction and any property the income from which  
42 constitutes nonapportionable income shall be excluded from the computation  
43 of the average value of an electric power company's real and tangible personal  
44 property.

45       ...."

46       **SECTION 3.2.** Part 1 of Article 4 of Chapter 105 of the General Statutes is amended  
47 by adding a new section to read:

48 **"§ 105-130.4A. Market-based sourcing for broadcasters.**

49       (a) Definitions. – The definitions in G.S. 105-130.4 and the following definitions apply  
50 to this section:

- 1           (1) Audience factor. – The factor determined by the ratio provided in this  
2 subdivision. The ratio is as follows:  
3           a. Television station. – The ratio that the viewing audience located in this  
4 State for a television station bears to the total viewing audience for a  
5 television station.  
6           b. Radio station. – The ratio that the listening audience in this State for a  
7 radio station bears to the total listening audience for a radio station.  
8           c. Cable or satellite program and channel broadcasts. – The ratio that the  
9 subscribers for a cable or satellite system located in this State bears to  
10 the total subscribers of a cable or satellite system. If the number of  
11 subscribers cannot be accurately determined from the books and  
12 records maintained by the taxpayer, the ratio shall be determined on  
13 the basis of the applicable year's subscription statistics located in  
14 published surveys, provided the source selected is consistently used  
15 from year to year for this purpose.  
16           (2) Broadcast. – The transmission of audio or video programming, directly or  
17 indirectly, to viewers and listeners by any other method of communication or  
18 combination of methods.  
19           (3) Broadcaster. – A person that provides audio or video programming to  
20 customers in this State by digital or analog means in exchange for one or more  
21 of the following: advertising receipts, subscriber fees, license, rent, or similar  
22 fees. The term includes a television or radio station licensed by the Federal  
23 Communications Commission, including network-owned or affiliated  
24 stations, a television or radio broadcast network, a cable program network, a  
25 distributor of audio or video programming, a cable system operator, and  
26 satellite system operator.  
27           (4) Gross receipts. – The same meaning as the term "sales" in G.S. 105-130.4.  
28           (5) Release or in release. – The placing of film or radio programming into service.  
29 A film or radio program is placed into service when it is first broadcast to the  
30 primary audience for entertainment, educational, commercial, artistic, or other  
31 purposes. Each episode of a television or radio series is placed in service when  
32 it is first broadcast. A program is not placed in service merely because it is  
33 completed and therefore in a condition or state of readiness and availability  
34 for broadcast or merely because it is previewed to prospective sponsors or  
35 purchasers.  
36           (6) Rent. – License fees or other payments or consideration provided in exchange  
37 for the broadcast or other use of television or radio programming.  
38           (7) Subscriber. – The individual residence or other outlet that is the ultimate  
39 recipient of the transmission of the audio or video programming.  
40           (b) Reasonable Approximation. – If the audience factor for a receipt cannot be  
41 determined, the state or states of assignment shall be reasonably approximated. If a taxpayer is  
42 delivering advertising or licensed content directly or indirectly to a known list of subscribers, the  
43 taxpayer shall reasonably approximate the receipts attributable to this State's market using a  
44 percentage that reflects the ratio of North Carolina subscribers to the total number of subscribers.  
45 If the taxpayer is delivering advertising or licensed content through an intermediary and does not  
46 have access to the list of subscribers, the taxpayer shall reasonably approximate the receipts  
47 attributable to this State's market using a percentage that reflects the ratio of the North Carolina  
48 population to the total population in the specific geographic area where the advertisement or  
49 licensed content is materially used. Unless the taxpayer provides substantial evidence to the  
50 contrary, the area where the advertisement or licensed content is materially used does not include  
51 areas outside the United States. If the taxpayer is able to show with substantial evidence that the

1 advertisement or licensed content is materially used in a city within a foreign country, then the  
2 population of that city may be included in the population ratio calculation. If the taxpayer is able  
3 to show with substantial evidence that the advertisement or license content is materially used  
4 throughout a foreign county, then the population of that foreign country may be included in the  
5 population ratio calculation. In a case where the specified rules of reasonable approximation fail  
6 to reasonably approximate the percentage of receipts attributable to this State's market, the  
7 Department may authorize an alternate approach that reflects an attempt to obtain the most  
8 accurate assignment of receipts.

9 (c) Market for Receipts. – The receipts factor of a broadcaster is a fraction, the numerator  
10 of which is the sum of the broadcaster's gross receipts from sources within the State and the  
11 denominator of which is the sum of the broadcaster's gross receipts from transactions and activity  
12 in the regular course of its trade or business everywhere. Advertising gross receipts and license  
13 fees for audio or video programming in release are attributable to this State in accordance with  
14 the audience factor in this State. Gross receipts from subscriber fees, rents, sales, or similar  
15 charges from audio or video programming in release are attributable to this State based on the  
16 amount of subscriber or other fees paid by customers in this State. A sale of audio or video  
17 programming on tangible media is sourced to this State as sales of tangible personal property."

18 **SECTION 3.3.** Part 1 of Article 4 of Chapter 105 of the General Statutes is amended  
19 by adding a new section to read:

33 the card.

30 the total receipts of the taxpayer in this State during the income year, and the denominator of  
31 which is the total receipts of the taxpayer everywhere during the income year. The method of  
32 calculating receipts for purposes of the denominator is the same as the method used in  
33 determining receipts for purposes of the numerator. The receipts factor includes only those  
34 receipts described herein that are apportionable income for the taxable year. Notwithstanding any  
35 other provision under this Part, the receipts from the following are excluded from both the  
36 numerator and the denominator of the receipts factor:

37                    (1) Receipts from a casual sale of property.

38                    (2) Receipts exempt from taxation.

39                    (3) The portion of receipts realized from the sale or maturity of securities or other  
40                    obligations that represents a return of principal.

42                    and (3b) and dividends excluded for federal tax purposes.

44                    derivatives that represent the notional principal amount that generates the cash  
45                    flow traded in the swap agreement.

47 receipts factor includes receipts from the sale, lease, or rental of real property owned by the  
48 taxpayer if the property is located within this State or receipts from the sublease of real property  
49 if the property is located within this State.

50                    (d) Receipts from the Sale, Lease, or Rental of Tangible Personal Property. – The method  
51 for calculating receipts from the sale, lease, or rental of tangible personal property is as follows:

1           (1) Tangible personal property. – Except as provided in subdivision (2) of this  
2 subsection, the numerator of the receipts factor includes receipts from the sale,  
3 lease, or rental of tangible personal property owned by the taxpayer if the  
4 property is located within this State when it is first placed in service by the  
5 lessee.

6           (2) Transportation property. – Receipts from the lease or rental of transportation  
7 property owned by the taxpayer are included in the numerator of the receipts  
8 factor to the extent that the property is used in this State. The extent an aircraft  
9 will be deemed to be used in this State and the amount of receipts that is to be  
10 included in the numerator of this State's receipts factor is determined by  
11 multiplying all the receipts from the lease or rental of the aircraft by a fraction,  
12 the numerator of which is the number of landings of the aircraft in this State  
13 and the denominator of which is the total number of landings of the aircraft.  
14 If the extent of the use of any transportation property within this State cannot  
15 be determined, then the property will be deemed to be used wholly in the state  
16 in which the property has its principal base of operations. A motor vehicle will  
17 be deemed to be used wholly in the state in which it is registered.

18           (e) Interest, Fees, and Penalties from Loans Secured by Real Property. – The numerator  
19 of the receipts factor includes interest, fees, and penalties from loans secured by real property if  
20 the property is located within this State. If the property is located both within this State and one  
21 or more other states, the receipts described in this subsection are included in the numerator of the  
22 receipts factor if more than fifty percent (50%) of the fair market value of the real property is  
23 located within this State. If more than fifty percent (50%) of the fair market value of the real  
24 property is not located within any one state, then the receipts described in this subsection are  
25 included in the numerator of the receipts factor if the borrower is located in this State. The  
26 determination of whether the real property securing a loan is located within this State is made as  
27 of the time the original agreement was made and any and all subsequent substitutions of collateral  
28 are disregarded.

29           (f) Interest, Fees, and Penalties from Loans Not Secured by Real Property. – The  
30 numerator of the receipts factor includes interest, fees, and penalties from loans not secured by  
31 real property if the borrower is located in this State.

32           (g) Net Gains from the Sale of Loans. – The numerator of the receipts factor includes net  
33 gains from the sale of loans. Net gains from the sale of loans include income recorded under the  
34 coupon stripping rules of section 1286 of the Code. The amount of net gains from the sale of  
35 loans that is included in the numerator is determined as follows:

36           (1) Secured by real property. – The amount of net gains, but not less than zero,  
37 from the sale of loans secured by real property is determined by multiplying  
38 the net gains by a fraction, the numerator of which is the amount included in  
39 the numerator of the receipts factor pursuant to subsection (e) of this section,  
40 and the denominator of which is the total amount of interest, fees, and  
41 penalties from loans secured by real property.

42           (2) Not secured by real property. – The amount of net gains, but not less than zero,  
43 from the sale of loans not secured by real property is determined by  
44 multiplying the net gains by a fraction, the numerator of which is the amount  
45 included in the numerator of the receipts factor pursuant to subsection (f) of  
46 this section, and the denominator of which is the total amount of interest, fees,  
47 and penalties from loans not secured by real property.

48           (h) Receipts from Interest, Fees, and Penalties from Cardholders. – The numerator of the  
49 receipts factor includes interest, fees, and penalties charged to credit, debit, or similar  
50 cardholders, including annual fees and overdraft fees, if the cardholder is located in this State.

1        (i) Receipts from ATM Fees. – The numerator of the receipts factor includes receipts  
2 from fees from the use of an ATM owned or rented by the taxpayer, if the ATM is located in this  
3 State. The receipts factor includes all ATM fees that are not forwarded directly to another bank.  
4 Receipts from ATM fees that are not sourced under this subsection are sourced pursuant to  
5 subsection (l) of this section.

6        (j) Net Gains from the Sale of Credit Card Receivables. – The numerator of the receipts  
7 factor includes net gains, but not less than zero, from the sale of credit card receivables multiplied  
8 by a fraction, the numerator of which is the amount included in the numerator of the receipts  
9 factor pursuant to subsection (h) of this section, and the denominator of which is the taxpayer's  
10 total amount of interest, fees, and penalties charged to cardholders.

11        (k) Miscellaneous Receipts. – The numerator of the receipts factor includes all of the  
12 following:

13            (1) Card issuer's reimbursement fees. – Receipts from card issuer's reimbursement  
14 fees if the payor is located in this State.

15            (2) Receipts from merchant's discount. – Receipts from a merchant discount if the  
16 payor is located in this State.

17            (3) Loan servicing fees. – Receipts from loan servicing fees if the payor is located  
18 in this State.

19            (4) Receipts from services. – Receipts from services not otherwise apportioned  
20 under this section if the payor is located in this State.

21            (5) Receipts from investment assets and activity and trading assets and activity. –  
22 Receipts from one or more of the following:

23            a. Interest and dividends from investment assets and activities and  
24 trading assets and activities if the payor is located in this State.

25            b. Net gains and other income, but not less than zero, from investment  
26 assets and activities and trading assets and activities multiplied by a  
27 fraction, the numerator of which is the amount included in the  
28 numerator of the receipts factor pursuant to sub-subdivision a. of this  
29 subdivision, and the denominator of which is the taxpayer's total  
30 amount of interest and dividends from investment assets and activities  
31 and trading assets and activities.

32        (l) All Other Receipts. – All other receipts not specifically enumerated in this section are  
33 included in the numerator of the receipts factor if the payor is located in this State."

39 of this act. Any adjustments required to existing tax assets or liabilities reflected in the utility's
