HOUSE BILL DRH10585-MUF-32

Short Title: NC Financial and Insurance Regulatory Sandbox. (Public)

Sponsors: Representative Saine.

Referred to:

1 A BILL TO BE ENTITLED  
2 AN ACT TO ENACT THE NORTH CAROLINA FINANCIAL AND INSURANCE  
3 REGULATORY SANDBOX ACT AND TO ESTABLISH THE NORTH CAROLINA  
4 FINANCIAL AND INSURANCE INNOVATION COMMISSION.

5 The General Assembly of North Carolina enacts:

6 SECTION 1. The General Statutes are amended by adding a new Chapter to read:

7 **"Chapter 53D.**

8 **"North Carolina Financial and Insurance Regulatory Sandbox Act.**

9 **"§ 53D-1. Short title.**

10 This Chapter may be cited as the North Carolina Financial and Insurance Regulatory Sandbox  
11 Act.

12 **"§ 53D-2. Legislative findings.**

13 The North Carolina General Assembly finds all of the following:

- 14 (1) Financial and insurance services are major economic drivers in North  
15 Carolina, and financial and insurance technology is undergoing a  
16 transformational period. New technologies (Fintech and Insurtech) are  
17 providing greater automation, connectivity, transparency, and opportunity for  
18 financial and insurance products and services.
- 19 (2) The existing legal and regulatory frameworks are restricting financial and  
20 insurance innovation because these frameworks were established largely at a  
21 time when technology was not a fundamental component of financial and  
22 insurance products and services. Innovators in the financial and insurance  
23 industries require a flexible regulatory regimen to test new products and  
24 services.
- 25 (3) North Carolina is among the nation's leaders in technology, innovation, and  
26 regulatory reform. A Regulatory Sandbox provides unique Fintech and  
27 Insurtech solutions and a framework to grow within the regulated financial  
28 and insurance services sector. North Carolina has the opportunity to be a  
29 leader in the creation of a Regulatory Sandbox that will encourage further  
30 development of the Fintech and Insurtech industries.
- 31 (4) Certain nongovernmental partner organizations can help companies through  
32 the Regulatory Sandbox process, provide guidance as to how each product or  
33 service would fit within the given regulatory framework, and provide  
34 technical assistance to support design and implementation of tests of product  
35 and services.

36 **"§ 53D-3. Definitions.**
