A BILL TO BE ENTITLED
AN ACT TO PROTECT THE RIGHT OF CONSCIENCE OF MEDICAL PRACTITIONERS, HEALTH CARE INSTITUTIONS, AND HEALTH CARE PAYERS.

Whereas, the right of conscience is a fundamental and unalienable right, and was central to the founding of the United States of America and deeply rooted in the United States' history and tradition for centuries; and

Whereas, the right of conscience has been central to the practice of medicine for millennia through the Hippocratic Oath; and

Whereas, despite its importance, threats to the right of conscience of medical practitioners, health care institutions, and health care payers have become increasingly more common and severe in recent years; and

Whereas, the swift pace of scientific advancement and the expansion of medical capabilities promise only to make the current crisis worse, unless something is done to restore conscience to its rightful place; and

Whereas, it is the public policy of the State of North Carolina to protect the right of conscience for medical practitioners, health care institutions, and health care payers; and

Whereas, the right of conscience is fundamental, and no medical practitioner, health care institution, or health care payer should be compelled to participate in a health care service that they object to on the basis of conscience, whether such conscience is informed by religious, moral, ethical, or philosophical beliefs or principles; and

Whereas, it is the purpose of this act to protect medical practitioners, health care institutions, and health care payers from discrimination, punishment, or retaliation as a result of an instance of conscientious medical objection; Now, therefore,

The General Assembly of North Carolina enacts:
