The Commission shall develop a system of individual and general permits for animal operations and dry litter poultry facilities based on species, number of animals, and other relevant factors. The Commission shall develop a general permit for animal operations that includes authorization for the permittee to construct and operate a farm digester system. It is the intent of the General Assembly that most animal waste management systems be permitted under a general permit. The Commission, in its discretion, may require that an animal waste management system be permitted under an individual permit if the Commission determines that an individual permit is necessary to protect water quality, public health, or the environment. The owner or operator of an animal operation shall submit an application for a permit at least 180 days prior to construction of a new animal waste management system or expansion of an existing animal waste management system and shall obtain the permit prior to commencement
of the construction or expansion. The owner or operator of a dry litter poultry facility that is
required to be permitted under 40 Code of Federal Regulations § 122, as amended at 73 Federal
Register 70418 (November 20, 2008), shall submit an application for a permit at least 180 days
prior to operation of a new animal waste management system.

SECTION 11.(c) For purposes of this section, the following definitions apply:
(1) "Certificate of coverage" means an approval granted to a person who meets
the requirements of coverage under a general permit as provided in 15A
NCAC 02H .0127 (General Permits).
(2) "Commission" means the Environmental Management Commission.
(3) "Notice of intent" means a request for coverage under a general permit as
provided in 15A NCAC 02H .0127 (General Permits).

SECTION 11.(d) The Commission shall immediately initiate the process of
developing and issuing a general permit for animal operations that includes authorization for the
permittee to construct and operate a farm digester system. In addition to conditions required to
describe and authorize the construction of farm digester systems, the general permit shall contain
the same conditions that are included in the currently existing general permits for animal
operations, except for conditions relating to phosphorus loss assessment tests, groundwater
monitoring, and the filing of annual reports. The general permit shall become effective no later
than six months after the effective date of this section.

SECTION 11.(e) Until the general permit issued under subsection (d) of this section
becomes effective, any animal operation that holds a general or individual permit that (i) is in
effect on the effective date of this section and (ii) authorizes the construction and operation of a
farm digester system, may construct and continue to operate the farm digester system as
authorized by that permit. For any animal operation that holds a general or individual permit that
is in effect on the effective date of this section, but that does not authorize the construction and
operation of a farm digester system, an operator may submit a notice of intent to be covered under
the general permit to be developed under subsection (d) of this section. When an operator submits
a notice of intent, the Commission shall, within 90 days of receipt of the notice of intent, either
issue a certificate of coverage allowing the operator to construct and operate the farm digester
system or notify the operator of the basis for the denial of the certificate of coverage and give the
operator an opportunity to respond to the denial, provided that the denial must be based on a
substantial deviation from the applicable requirements to receive the certificate of coverage. If
the Commission fails to take action on the notice of intent within 90 days, authorization to
construct and operate a farm digester system under the existing general permit shall be deemed
approved, and the Commission shall, within 10 days following the expiration of the 90-day time
period, issue a written confirmation that the animal operation is covered by the then-existing
general permit and that the applicant may continue to operate an existing farm digester system,
or may construct and operate a new farm digester system.

SECTION 11.(f) In acting on a notice of intent for all or part of a farm digester
system, the Commission may solicit public comment but shall not hold or require a public
hearing.

SECTION 11.(g) G.S. 106-806 reads as rewritten:
"§ 106-806. Construction or renovation of swine houses at preexisting swine farms.
(a) As used in this section, the following definitions apply:
(1) "Farm digester system" means a farm digester system as defined in
G.S. 143-213(12a).
(2) "New swine farm" means any swine farm the operations of which were sited
on or after October 1, 1995. "New swine farm" does not include any
preexisting swine farm, even if a subsequent site evaluation is performed on
or after October 1, 1995, at the preexisting swine farm.
"Preexisting swine farm" means any swine farm either the operations of which were begun prior to October 1, 1995, or the site evaluation of which was approved prior to October 1, 1995, by the Department of Environmental Quality under Part 1A of Article 21 of Chapter 143 of the General Statutes.

"Renovation or construction," "renovated or constructed," and any similar phrase mean any activity to renovate, construct, reconstruct, rebuild, modify, alter, change, restructure, upgrade, improve, enlarge, reduce, move, or otherwise perform construction work on a swine house that is a component of a swine farm.

SECTION 11.(h) G.S. 150B-34 is amended by adding a new subsection to read:

"(f) In any contested case involving a permitting action for a general permit for animal operations that includes authorization for the permittee to construct and operate a farm digester system, unless all parties to the case agree otherwise in writing, the administrative law judge shall conduct the hearing and make a final decision or order no later than 90 days after the commencement of the contested case pursuant to G.S. 150B-23. Upon written request of the administrative law judge or any party to the hearing, the Chief Administrative Law Judge may extend this deadline for good cause shown, no more than two times, for not more than 30 days per extension."

SECTION 11.(i) G.S. 150B-44 reads as rewritten:

"§ 150B-44. Right to judicial intervention when final decision unreasonably delayed.

(a) Failure of an administrative law judge subject to Article 3 of this Chapter or failure of an agency subject to Article 3A of this Chapter to make a final decision within 120 days of the close of the contested case hearing is justification for a person whose rights, duties, or privileges are adversely affected by the delay to seek a court order compelling action by the agency or by the administrative law judge.

(b) Failure of an agency to make a final permitting decision involving a general permit for animal operations that includes authorization for the permittee to construct and operate a farm digester system, within 90 days of the agency's receipt of a notice of intent, is justification for a person whose rights, duties, or privileges are adversely affected by the delay to seek a court order compelling action by the agency. It shall not be necessary to file a petition for a contested case hearing pursuant to Article 3 of this Chapter to seek judicial relief. Any judicial review pursuant to this subsection involving allegations of failure to act within 90 days, or involving a claim of
delay in the issuance of any order under G.S. 150B-34(f), shall be given expedited judicial
review."

SECTION 11.(j) G.S. 105-275 reads as rewritten:

"§ 105-275. Property classified and excluded from the tax base.

The following classes of property are designated special classes under Article V, Sec. 2(2),
of the North Carolina Constitution and are excluded from tax:

…

(8) a. Real and personal property that is used or, if under construction, is to
be used exclusively for air cleaning or waste disposal or to abate,
reduce, or prevent the pollution of air or water (including, but not
limited to, waste lagoons and facilities owned by public or private
utilities built and installed primarily for the purpose of providing sewer
service to areas that are predominantly residential in character or areas
that lie outside territory already having sewer service), if the
Department of Environmental Quality or a local air pollution control
program for air-cleaning devices located in an area where the
Environmental Management Commission has certified a local air
pollution control program pursuant to G.S. 143-215.112 furnishes a
certificate to the tax supervisor of the county in which the property is
situated or to be situated stating that the Environmental Management
Commission or local air pollution control program has found that the
described property:

1. Has been or will be constructed or installed;
2. Complies with or that plans therefor which have been
submitted to the Environmental Management Commission or
local air pollution control program indicate that it will comply
with the requirements of the Environmental Management
Commission or local air pollution control program;
3. Is being effectively operated or will, when completed, be
required to operate in accordance with the terms and conditions
of the permit, certificate of approval, or other document of
approval issued by the Environmental Management
Commission or local air pollution control program; and
4. Has or, when completed, will have as its primary rather than
incidental purpose the reduction of water pollution resulting
from the discharge of sewage and waste or the reduction of air
pollution resulting from the emission of air contaminants.

a1. Subdivision a. of this subdivision shall not apply to an animal
waste management system, as defined in G.S. 143-215.10B, unless the
Environmental Management Commission determines that the animal
waste management system will accomplish all of the following:

1. Eliminate the discharge of animal waste to surface waters and
groundwater through direct discharge, seepage, or runoff.
2. Substantially eliminate atmospheric emissions of ammonia.
3. Substantially eliminate the emission of odor that is detectable
beyond the boundaries of the parcel or tract of land on which
the farm is located.
4. Substantially eliminate the release of disease transmitting
vectors and airborne pathogens.
5. Substantially eliminate nutrient and heavy metal
contamination of soil and groundwater.
SECTION 11.(k) Subsection (h) of this section becomes effective on the date that the general permit required to be issued by the Environmental Management Commission under subsection (d) of this section becomes effective. The remainder of this section is effective when it becomes law.

SECTION 12.(a) G.S. 20-7(f)(3) reads as rewritten:
"(3) Duration of license for certain other drivers. – The durations listed in subdivisions (1), (2) and (2a) of this subsection are valid unless the Division determines that a license of shorter duration should be issued when the applicant holds valid documentation issued by, or under the authority of, the United States government that demonstrates the applicant's legal presence of limited duration in the United States. In no event shall a license of limited duration expire later than the expiration of the authorization for the applicant's legal presence in the United States. A drivers license issued to an H-2A worker expires three years after the date of issuance of the H-2A worker's visa; provided, if at any time during that three-year period an H-2A worker's visa duration is not extended by United States Citizenship and Immigration Services, the license expires on the date the H-2A worker's visa expires. For purposes of this subdivision, the term "H-2A worker" means a foreign worker who holds a valid H-2A visa pursuant to the Immigration and Nationality Act (8 U.S.C. § 1101(a)(15)(H)(ii)(a)) and who is legally residing in this State."

SECTION 12.(b) This section is effective when it becomes law.

SECTION 13.(a) If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this act that can be given effect without the invalid provision or application, and, to this end, the provisions of this act are declared to be severable.

SECTION 13.(b) Except as otherwise provided, this act is effective when it becomes law.
