SECTION 3.2.(a) The State Board of Education shall allocate additional funds for children with disabilities on the basis of up to a total of four thousand five hundred forty-nine dollars and eighty-eight cents ($4,549.88) per child for fiscal year 2021-2022 and up to a total of four thousand seven hundred four dollars and twenty-eight cents ($4,704.28) per child for fiscal year 2022-2023. Each local school administrative unit shall receive funds for the total number of children who are identified as children with disabilities in the local school administrative unit. The dollar amounts allocated under this section for children with disabilities shall also be adjusted in accordance with legislative salary increments, retirement rate adjustments, and health benefit adjustments for personnel who serve children with disabilities.

SECTION 3.2.(b) There is appropriated from the General Fund to the Department of Public Instruction the sum of forty million dollars ($40,000,000) in recurring funds for the 2021-2022 fiscal year and the sum of seventy million dollars ($70,000,000) in recurring funds for the 2022-2023 fiscal year to implement this section.

DISADVANTAGED STUDENT SUPPLEMENTAL FUNDING (DSSF)/AT-RISK STUDENT SERVICES/ALTERNATIVE SCHOOLS

SECTION 3.3.(a) Funds appropriated in this section for disadvantaged student supplemental funding (DSSF) shall be used, consistent with the policies and procedures adopted by the State Board of Education, to do the following:
(1) Provide instructional positions or instructional support positions.

(2) Provide professional development.

(3) Provide intensive in-school or after-school remediation, or both.

(4) Purchase diagnostic software and progress-monitoring tools.

(5) Provide funds for teacher bonuses and supplements.

The State Board of Education may require local school administrative units receiving funding under the Disadvantaged Student Supplemental Fund to purchase the Education Value-Added Assessment System (EVAAS) in order to provide in-depth analysis of student performance and help identify strategies for improving student achievement. This data shall be used exclusively for instructional and curriculum decisions made in the best interest of children and for professional development for their teachers and administrators.

SECTION 3.3.(b) Disadvantaged student supplemental funding shall be allotted to a local school administrative unit based on (i) the unit’s eligible DSSF population and (ii) the difference between a teacher-to-student ratio of 1:21 and the following teacher-to-student ratios:

(1) For counties with wealth greater than ninety percent (90%) of the statewide average, a ratio of 1:19.9.

(2) For counties with wealth not less than eighty percent (80%) and not greater than ninety percent (90%) of the statewide average, a ratio of 1:19.4.

(3) For counties with wealth less than eighty percent (80%) of the statewide average, a ratio of 1:19.1.

(4) For local school administrative units that received DSSF funds in fiscal year 2005-2006, a ratio of 1:16. These local school administrative units shall receive no less than the DSSF amount allotted in fiscal year 2006-2007.

For the purpose of this subsection, wealth shall be calculated under the low-wealth supplemental formula as provided for in this section.

SECTION 3.3.(c) If a local school administrative unit's wealth increases to a level that adversely affects the unit's DSSF allotment ratio, the DSSF allotment for that unit shall be maintained at the prior year level for one additional fiscal year.

SECTION 3.3.(d) For the 2022-2023 fiscal year, the State Board of Education shall transfer the At-Risk Student Services/Alternative Schools allotment into the DSSF allotment and allocate these additional funds to local school administrative units under a formula that reallocates At-Risk Student Services funding as an independent supplement to existing DSSF funds and does both of the following:

(1) Expands the allowable uses of the DSSF allotment to incorporate activities allowed under the current At-Risk Student Services allotment.

(2) Provides that no local administrative unit receives a decrease in combined funding.

SECTION 3.3.(e) There is appropriated from the General Fund to the Department of Public Instruction the sum of thirty-five million dollars ($35,000,000) in recurring funds for the 2021-2022 fiscal year and the sum of seventy million dollars ($70,000,000) in recurring funds for the 2022-2023 fiscal year to implement this section.

SUPPLEMENTAL FUNDING IN LOW-WEALTH COUNTIES

SECTION 3.4.(a) Use of Funds for Supplemental Funding. – All funds received pursuant to this section shall be used only (i) to provide instructional positions, instructional support positions, teacher assistant positions, clerical positions, school computer technicians, instructional supplies and equipment, staff development, and textbooks and digital resources and (ii) for salary supplements for instructional personnel and instructional support personnel. Local boards of education are encouraged to use at least twenty-five percent (25%) of the funds received pursuant to this section to improve the academic performance of children who are
performing at Level I or II on either reading or mathematics end-of-grade tests in grades three through eight.

SECTION 3.4.(b) Definitions. – As used in this section, the following definitions apply:

1. Anticipated county property tax revenue availability. – The county-adjusted property tax base multiplied by the effective State average tax rate.

2. Anticipated State average revenue availability per student. – The sum of all anticipated total county revenue availability divided by the average daily membership for the State.

3. Anticipated total county revenue availability. – The sum of the following:
   a. Anticipated county property tax revenue availability.
   b. Local sales and use taxes received by the county that are levied under Chapter 1096 of the 1967 Session Laws or under Subchapter VIII of Chapter 105 of the General Statutes.
   c. Fines and forfeitures deposited in the county school fund for the most recent year for which data are available.

4. Anticipated total county revenue availability per student. – The anticipated total county revenue availability for the county divided by the average daily membership of the county.

5. Average daily membership. – Average daily membership as defined in the North Carolina Public Schools Allotment Policy Manual adopted by the State Board of Education. If a county contains only part of a local school administrative unit, the average daily membership of that county includes all students who reside within the county and attend that local school administrative unit.

6. County-adjusted property tax base. – Computed as follows:
   a. Subtract the present-use value of agricultural land, horticultural land, and forestland in the county, as defined in G.S. 105-277.2, from the total assessed real property valuation of the county.
   b. Adjust the resulting amount by multiplying by a weighted average of the three most recent annual sales assessment ratio studies.
   c. Add to the resulting amount the following:
      1. Present-use value of agricultural land, horticultural land, and forestland, as defined in G.S. 105-277.2.
      2. Value of property of public service companies, determined in accordance with Article 23 of Chapter 105 of the General Statutes.
      3. Personal property value for the county.

7. County-adjusted property tax base per square mile. – The county-adjusted property tax base divided by the number of square miles of land area in the county.

8. County wealth as a percentage of State average wealth. – Computed as follows:
   a. Compute the percentage that the county per capita income is of the State per capita income and weight the resulting percentage by a factor of five-tenths.
   b. Compute the percentage that the anticipated total county revenue availability per student is of the anticipated State average revenue availability per student and weight the resulting percentage by a factor of four-tenths.
c. Compute the percentage that the county-adjusted property tax base per square mile is of the State-adjusted property tax base per square mile and weight the resulting percentage by a factor of one-tenth.

d. Add the three weighted percentages to derive the county wealth as a percentage of the State average wealth.

(9) Effective county tax rate. – The actual county tax rate multiplied by a weighted average of the three most recent annual sales assessment ratio studies.

(10) Effective State average tax rate. – The average of effective county tax rates for all counties.

(11) Local current expense funds. – The most recent county current expense appropriations to public schools, as reported by local boards of education in the audit report filed with the Secretary of the Local Government Commission pursuant to G.S. 115C-447.

(12) Per capita income. – The average for the most recent three years for which data are available of the per capita income according to the most recent report of the United States Department of Commerce, Bureau of Economic Analysis, including any reported modifications for prior years as outlined in the most recent report.

(13) Sales assessment ratio studies. – Sales assessment ratio studies performed by the Department of Revenue under G.S. 105-289(h).

(17) Weighted average of the three most recent annual sales assessment ratio studies. – The weighted average of the three most recent annual sales assessment ratio studies in the most recent years for which county current expense appropriations and adjusted property tax valuations are available. If real property in a county has been revalued one year prior to the most recent sales assessment ratio study, a weighted average of the two most recent sales assessment ratios shall be used. If property has been revalued the year of the most recent sales assessment ratio study, the sales assessment ratio for the year of revaluation shall be used.

SECTION 3.4.(c) Eligibility for Funds. – Except as provided in subsection (g) of this section, the State Board of Education shall allocate these funds to local school administrative units located in whole or in part in counties in which the county wealth as a percentage of the State average wealth is less than one hundred percent (100%).

SECTION 3.4.(d) Allocation of Funds. – Except as provided in subsection (f) of this section, the amount received per average daily membership for a county shall be the difference between one hundred ten percent (110%) of the State average current expense appropriations per student and the current expense appropriations per student that the county could provide given the county's wealth and an average effort to fund public schools. To derive the current expense appropriations per student that the county could be able to provide given the county's wealth and an average effort to fund public schools, multiply the county's wealth as a percentage of State average wealth by the State average current expense appropriations per student. The funds for the local school administrative units located in whole or in part in the county shall be allocated
to each local school administrative unit located in whole or in part in the county based on the
average daily membership of the county's students in the school units. If the funds appropriated
for supplemental funding are not adequate to fund the formula fully, each local school
administrative unit shall receive a pro rata share of the funds appropriated for supplemental
funding.

SECTION 3.4.(e) Formula for Distribution of Supplemental Funding Pursuant to
This Section Only. – The formula in this section is solely a basis for distribution of supplemental
funding for low-wealth counties. It is the intent of the General Assembly to incrementally
increase appropriations for low-wealth allotment to provide eligible counties supplemental
funding equal to one hundred ten percent (110%) of the statewide local revenue per student by
fiscal year 2027-2028. The State Board of Education shall adjust the formula to ensure each local
school administrative unit receives a pro rata share of the additional funds appropriated for the
low-wealth allotment in this section for supplemental funding.

SECTION 3.4.(f) Minimum Effort Required. – A county shall receive full funding
under this section if the county (i) maintains an effective county tax rate that is at least one
hundred percent (100%) of the effective State average tax rate in the most recent year for which
data are available or (ii) maintains a county appropriation per student to the school local current
expense fund of at least one hundred percent (100%) of the current expense appropriations per
student to the school local current expense fund that the county could provide given the county's
wealth and an average effort to fund public schools. A county that maintains a county
appropriation per student to the school local current expense fund of less than one hundred
percent (100%) of the current expense appropriations per student to the school local current
expense fund that the county could provide given the county's wealth and an average effort to
fund public schools shall receive funding under this section at the same percentage that the
county's appropriation per student to the school local current expense fund is of the current
expense appropriations per student to the school local current expense fund that the county could
provide given the county's wealth and an average effort to fund public schools.

SECTION 3.4.(g) Nonsupplant Requirement. – A county in which a local school
administrative unit receives funds under this section shall use the funds to supplement local
current expense funds and shall not supplant local current expense funds. For the 2021-2023
fiscal biennium, the State Board of Education shall not allocate funds under this section to a
county found to have used these funds to supplant local per student current expense funds. The
State Board of Education shall make a finding that a county has used these funds to supplant
local current expense funds in the prior year, or the year for which the most recent data are
available, if all of the following criteria apply:

1. The current expense appropriations per student of the county for the current
year are less than ninety-five percent (95%) of the average of local current
expense appropriations per student for the three prior fiscal years.

2. The county cannot show (i) that it has remedied the deficiency in funding or
(ii) that extraordinary circumstances caused the county to supplant local
current expense funds with funds allocated under this section.

The State Board of Education shall adopt rules to implement the requirements of this
subsection.

SECTION 3.4.(h) Counties Containing a Base of the Armed Forces. –
Notwithstanding any other provision of this section, for the 2021-2023 fiscal biennium, counties
containing a base of the Armed Forces of the United States that have an average daily
membership of more than 17,000 students shall receive whichever is the higher amount in each
fiscal year as follows: either the amount of supplemental funding the county received as a
low-wealth county in the 2012-2013 fiscal year or the amount of supplemental funding the county
is eligible to receive as a low-wealth county pursuant to the formula for distribution of
supplemental funding under the other provisions of this section.
SECTION 3.4.(i) Funds for EVAAS Data. – Notwithstanding the requirements of subsection (a) of this section, local school administrative units may utilize funds allocated under this section to purchase services that allow for extraction of data from the Education Value-Added Assessment System (EVAAS).

SECTION 3.4.(j) Reports. – For the 2021-2023 fiscal biennium, the State Board of Education shall report to the Fiscal Research Division prior to May 15 of each year if it determines that counties have supplanted funds.

SECTION 3.4.(k) Department of Revenue Reports. – The Department of Revenue shall provide to the Department of Public Instruction a preliminary report for the current fiscal year of the assessed value of the property tax base for each county prior to March 1 of each year and a final report prior to May 1 of each year. The reports shall include for each county the annual sales assessment ratio and the taxable values of (i) total real property, (ii) the portion of total real property represented by the present-use value of agricultural land, horticultural land, and forestland, as defined in G.S. 105-277.2, (iii) property of public service companies determined in accordance with Article 23 of Chapter 105 of the General Statutes, and (iv) personal property.

SECTION 3.4.(l) There is appropriated from the General Fund to the Department of Public Instruction the sum of twenty million dollars ($20,000,000) in recurring funds for the 2021-2022 fiscal year and the sum of forty million dollars ($40,000,000) in recurring funds for the 2022-2023 fiscal year to implement this section.

FUNDING FOR LIMITED ENGLISH PROFICIENCY STUDENTS

SECTION 3.5.(a) The State Board of Education shall allocate funds for services to students with limited proficiency in the English language to local school administrative units and to charter schools based on the three-year weighted headcount of students in the units or charter school with limited English proficiency. The State Board of Education shall adopt formulas for computing the allotments that do not include a cap on funds allocated.

SECTION 3.5.(b) There is appropriated from the General Fund to the Department of Public Instruction the sum of ten million dollars ($10,000,000) in recurring funds for the 2021-2022 fiscal year and the sum of twenty million dollars ($20,000,000) in recurring funds for the 2022-2023 fiscal year to implement this section.

The school achievement score shall account for eighty-five percent (85%), and the school growth score shall account for twenty-four percent (24%) of the total sum. For all schools, the total school performance score shall be converted to a 100-point scale and used to determine an overall school performance grade.
