HOUSE BILL DRH40587-NGa-82

Short Title: Add Segregation Score to School Report Cards. (Public)

Sponsors: Representative Brockman.

Referred to:

1 A BILL TO BE ENTITLED
2 AN ACT TO INCORPORATE MEASURES OF PROPORTIONALITY AND EQUALITY
3 INTO STATE ACCOUNTABILITY MODELS.

4 Whereas, the Supreme Court has ruled that segregation of children in public schools
5 solely on the basis of race deprives the children of the minority group of equal educational
6 opportunities; and

7 Whereas, decades of research have found that racial and socioeconomic integration
8 of schools benefits all students; and

9 Whereas, the Elementary and Secondary Education Act of 1965, 20 U.S.C. § 6301, et
10 seq., as amended, requires state accountability systems to include an indicator of school quality
11 or student success that meaningfully differentiate among schools and be valid, reliable, and
12 comparable statewide; Now, therefore,
13 The General Assembly of North Carolina enacts:

14 **SECTION 1.** G.S. 115C-83.15 reads as rewritten:

15 "**§ 115C-83.15. School achievement, growth, performance scores, and grades.**

16 (a) School Scores and Grades – The State Board of Education shall award (i) school
17 achievement, growth, and performance scores and an associated performance grade and (ii) racial
18 and ethnic proportionality scores and a proportionality designation as required by
19 G.S. 115C-12(9)c1., and calculated as provided in this section.

20 ...

21 (d4) Racial and Ethnic Proportionality Score and Designation. – For each school, the State
22 Board of Education shall calculate a proportionality score and assign a proportionality
23 designation that compares the demographic profile of the school to the demographic profile of
24 the county in which the school is located. In determining the proportionality score and
25 designation, the following applies:

26 (1) Calculation of school proportionality score. – The State Board shall calculate
27 the proportionality score for each school as follows:

- 28 a. Multiply the percentage of each racial or ethnic subgroup identified
29 pursuant to subsection (d1) of this section by the total population of
30 the school.
31 b. Subtract the population of each subgroup from the value determined
32 under sub-subdivision a. of this subdivision for each racial or ethnic
33 group identified pursuant to subsection (d1) of this section.
34 c. Convert each number calculated under sub-subdivisions a. and b. of
35 this subsection to an absolute value.

- 1 d. Sum the values calculated for every identified subgroup to determine
2 the sum total value.
- 3 e. Divide the sum total value by an amount equal to the total number of
4 students in the school multiplied by two.
- 5 (2) School proportionality designation. – The State Board shall assign each school
6 a proportionality designation as follows:
- 7 a. Highly Proportional, if their proportionality score is less than ten
8 percent (10%).
- 9 b. Proportional, if their proportionality score is between ten percent
10 (10%) and less than twenty-five percent (25%).
- 11 c. Somewhat Disproportional, if their proportionality score is between
12 twenty-five percent (25%) and less than fifty percent (50%).
- 13 d. Highly Disproportional, if their proportionality score is fifty percent
14 (50%) or above.
- 15 (d5) Measures of Equality of Access. – For each school that serves the minimum number
16 of students in subgroups identified under subsection (d1) of this section, the State Board of
17 Education shall calculate measures of equality of access that demonstrate the extent to which
18 each school's population of each subgroup has access to school resources associated with high
19 educational achievement. In calculating measures of equality of access, the following applies:
- 20 (1) For racial and ethnic subgroups and economically disadvantaged subgroups
21 within a school, as identified in subsection (d1) of this section, the State Board
22 shall calculate each subgroup's participation in or exposure to each of the
23 following:
- 24 a. Gifted and talented programs or advanced courses.
- 25 b. Teachers with at least three years of experience.
- 26 c. Teachers with certification from the National Board for Professional
27 Teaching Standards.
- 28 (2) For racial and ethnic subgroups and economically disadvantaged subgroups
29 within a local school administrative unit, as identified in subsection (d1) of
30 this section, the State Board shall calculate the school and subgroup's average
31 of each of the following:
- 32 a. Number of field trips.
- 33 b. Hours of instruction in arts or music.
- 34 c. School-level ratio of students to psychologists.
- 35 d. School-level ratio of students to guidance counselors.
- 36 e. School-level ratio of students to nurses.
- 37 f. School-level ratio of students to media specialists.
- 38 (d6) Reporting. – The data calculated in subsections (d4) and (d5) of this section shall be
39 reported separately on the annual school report card in a way that allows for easy comparison of
40 school-level and local school administrative unit-level data. The school report card shall also
41 indicate any measures taken by the school or local school administrative unit to make progress
42 towards reducing school segregation and providing students with equality of access to school
43 resources associated with high educational achievement.

44 "

45 **SECTION 2.** There is appropriated from the General Fund to the Department of

1 each school and taking into account progress over the previous years'
 2 level of performance and the State's performance in comparison with
 3 other states. This assessment shall take into account factors that have
