The General Assembly of North Carolina enacts:

**SECTION 1.** G.S. 105-472(b) reads as rewritten:

"(b) Distribution Between Counties and Cities. – The Secretary shall divide the amount allocated to each taxing county among the county and its municipalities in accordance with the method determined by the county. The board of county commissioners shall, by resolution, choose one of the following methods of distribution:

- (1) Per Capita Method. – The net proceeds of the tax collected in a taxing county shall be distributed to that county and to the municipalities in the county on a per capita basis according to the total population of the taxing county, plus the total population of the municipalities in the county. In the case of a municipality located in more than one county, only that part of its population living in the taxing county is considered its "total population". In order to make the distribution, the Secretary shall determine a per capita figure by dividing the amount allocated to each taxing county by the total population of that county plus the total population of all municipalities in the county. The Secretary shall then multiply this per capita figure by the population of the

1 taxing county and by the population of each municipality in the county; each  
2 respective product shall be the amount to be distributed to the county and to  
3 each municipality in the county. To determine the population of each county  
4 and each municipality, the Secretary shall use the most recent annual estimate  
5 of population certified by the State Budget Officer.

- 6 (2) Ad Valorem Method. – The net proceeds of the tax collected in a taxing county  
7 shall be distributed to that county and the municipalities in the county in  
8 proportion to the total amount of ad valorem taxes levied by each on property  
9 having a tax situs in the taxing county during the fiscal year next preceding  
10 the distribution. For purposes of this section, the amount of the ad valorem  
11 taxes levied by a county or municipality includes ad valorem taxes levied by  
12 the county or municipality in behalf of a taxing district and collected by the  
13 county or municipality. In addition, the amount of taxes levied by a county  
14 includes ad valorem taxes levied by a merged school administrative unit  
15 described in G.S. 115C-513 in the part of the unit located in the county. In  
16 computing the amount of tax proceeds to be distributed to each county and  
17 municipality, the amount of any ad valorem taxes levied but not substantially  
18 collected shall be ignored. Each county and municipality receiving a  
19 distribution of the proceeds of the tax levied under this Article shall in turn  
20 immediately share the proceeds with each district in behalf of which the  
21 county or municipality levied ad valorem taxes in the proportion that the  
22 district levy bears to the total levy of the county or municipality. Any county  
23 or municipality that fails to provide the Department of Revenue with  
24 information concerning ad valorem taxes levied by it adequate to permit a  
25 timely determination of its appropriate share of tax proceeds collected under  
26 this Article may be excluded by the Secretary from each monthly distribution  
27 with respect to which the information was not provided in a timely manner,  
28 and those tax proceeds shall then be distributed only to the remaining counties  
29 or municipalities, as appropriate. For the purpose of computing the  
30 distribution of the tax under this subsection to any county and the  
31 municipalities located in the county for any month with respect to which the  
32 property valuation of a public service company is the subject of an appeal and  
33 the Department of Revenue is restrained by law from certifying the valuation  
34 to the county and the municipalities in the county, the Department shall use  
35 the last property valuation of the public service company that has been  
36 certified.

37 The board of county commissioners in each taxing county shall, by resolution adopted during  
38 the month of April of each year, determine which of the two foregoing methods of distribution  
39 shall be in effect in the county during the ~~next fiscal year following the~~ succeeding fiscal year.  
40 In order for the resolution to be effective, a certified copy of it must be delivered to the Secretary  
41 in Raleigh within 15 calendar days after its adoption. If the board fails to adopt a resolution  
42 choosing a method of distribution not then in effect in the county, or if a certified copy of the  
43 resolution is not timely delivered to the Secretary, the method of distribution then in effect in the  
44 county shall continue in effect for the following fiscal year. The method of distribution in effect  
45 on the first of July of each fiscal year shall apply to every distribution made during that fiscal  
46 year."

47 **SECTION 2.** G.S. 120-163(c) reads as rewritten:

48 "(c) The petition must include a proposed name for the city, a map of the city, a list of  
49 proposed services to be provided by the proposed municipality, the names of three persons to  
50 serve as interim governing board, a proposed charter, a statement of the estimated population,  
51 assessed valuation, degree of development, population density, and recommendations as to the

1 form of government and manner of election. The petition must contain a statement that the  
2 proposed municipality will have a budget ordinance with an ad valorem tax levy of at least five  
3 cents (5¢) on the one hundred dollar (\$100.00) valuation upon all taxable property within its  
4 corporate limits. The petition must contain a statement that the proposed municipality will offer  
5 four of the following services no later than the first day of the third fiscal year following the  
6 effective date of the incorporation: (i) police protection; (ii) fire protection; (iii) solid waste  
7 collection or disposal; (iv) water distribution; (v) street maintenance; (vi) street construction or  
8 right-of-way acquisition; (vii) street lighting; and (viii) zoning. In order to qualify for providing  
9 police protection, the proposed municipality must propose either to provide police service or to  
10 have services provided by contract with a county or another municipality that proposes that the  
11 other government be compensated for providing supplemental protection. The petition must  
12 contain a statement from the Local Government Commission regarding the proposed  
13 municipality's prospects for financial viability and effective fiscal management. The proposed  
14 municipality may not contain any noncontiguous areas."
