1 A BILL TO BE ENTITLED 2 AN ACT TO PROVIDE REFORMS TO LOCAL GOVERNMENT ZONING AUTHORITY TO 3 INCREASE HOUSING OPPORTUNITIES AND TO MAKE VARIOUS CHANGES AND 4 CLARIFICATIONS TO THE ZONING STATUTES. 5 The General Assembly of North Carolina enacts: 6 SECTION 1.(a) G.S. 160D-108 reads as rewritten: 7 "§ 160D-108. Permit choice and vested rights. 8 . . . 9 Duration of Vesting. - Upon issuance of a development permit, the statutory vesting (d) granted by subsection (c) of this section for a development project is effective upon filing of the 10 11 application in accordance with G.S. 143-755, for so long as the permit remains valid pursuant to law. Unless otherwise specified by this section or other statute, local development permits expire 12 one year after issuance unless work authorized by the permit has substantially commenced. A 13 14 local land development regulation may provide for a longer permit expiration period. For the 15 purposes of this section, a permit is issued either in the ordinary course of business of the 16 applicable governmental agency or by the applicable governmental agency as a court directive. Except where a longer vesting period is provided by statute or land development regulation, 17 18 the statutory vesting granted by this section, once established, expires for an uncompleted 19 development project if development work is intentionally and voluntarily discontinued for a 20 period of not less than 24 consecutive months, and the statutory vesting period granted by this 21 section for a nonconforming use of property expires if the use is intentionally and voluntarily 22 discontinued for a period of not less than 24 consecutive months. The 24-month discontinuance 23 period is automatically tolled during the pendency of any board of adjustment proceeding or civil 24 action in a State or federal trial or appellate court regarding the validity of a development permit, 25 the use of the property, or the existence of the statutory vesting period granted by this section. The 24-month discontinuance period is also tolled during the pendency of any litigation involving 26 27 the development project or property that is the subject of the vesting. 28 Multiple Permits for Development Project. - Subject to subsection (d) of this section, (e) 29 where multiple local development permits are required to complete a development project, the 30 development permit applicant may choose the version of each of the local land development 31 regulations applicable to the project upon submittal of the application for the initial development permit. This provision is applicable only for those subsequent development permit applications 32 33 filed within 18 months of the date following the approval of an initial permit. This subsection 34 does not limit or affect the duration of any vested right established under subsection (d) of this section. For purposes of the vesting protections of this subsection, an erosion and sedimentation 35
