(e) No person shall modify a diesel-powered motor vehicle with a device that temporarily or permanently enables (i) the vehicle to emit visible air contaminants exceeding the limits of G.S. 20-128.1 or (ii) coal rolling, as defined in G.S. 20-128.1A."

SECTION 1.(b) G.S. 20-183.3 reads as rewritten:

"§ 20-183.3. Scope of safety inspection and emissions inspection.

(a) Safety. – A safety inspection of a motor vehicle consists of an inspection of the following equipment to determine if the vehicle has the equipment required by Part 9 of Article 3 of this Chapter and if the equipment is in a safe operating condition:

19

(9) Exhaust system and emissions control devices, as required by G.S. 20-128. For diesel-powered motor vehicles, this inspection shall include a determination that the vehicle has not been modified in violation of G.S. 20-128(e). For a vehicle that is subject to an emissions inspection in addition to a safety inspection, a visual inspection of the vehicle's emissions control devices is included in the emissions inspection rather than the safety inspection.

27"

SECTION 1.(c) This section becomes effective October 1, 2022, and applies to vehicles inspected or due to be inspected on or after that date.

SECTION 2.(a) Article 3 of Chapter 20 of the General Statutes is amended by adding a new section to read:

"§ 20-128.1A. Coal rolling.

- (a) For purposes of this section, "coal rolling" means operating a diesel-powered motor vehicle in a manner that causes an emission of visible air contaminants with the intent to do any of the following:
