1 A BILL TO BE ENTITLED
2 AN ACT TO REQUIRE THE USE OF PLANTS AND SEEDS NATIVE TO THE
3 SOUTHEASTERN UNITED STATES, WITH A STRONG PREFERENCE FOR PLANTS
4 NATIVE TO NORTH CAROLINA, IN STATE PARKS AND ON STATE HIGHWAYS.

5 Whereas, native plants are an important part of North Carolina's natural heritage,
6 history, and identity; and

7 Whereas, North Carolina's native plants are indigenous plants that have adapted over
8 many years to our region and evolved to flourish in the unique geography, hydrology, and
9 microclimates of our State; and

10 Whereas, North Carolina contains over 3,900 native plant species, making North
11 Carolina one of the most diverse states for flora in the Southeast; and

12 Whereas, twenty-six of those species are extremely rare and considered federally
13 threatened or endangered; and

14 Whereas, native plants provide high-quality food and shelter for North Carolina's
15 native wildlife, including butterflies, bees, and other pollinators, both game and nongame
16 species; and

17 Whereas, native plants support over 350 resident and migratory bird species in North
18 Carolina, many of which are species of concern and face growing threats from climate change;
19 and

20 Whereas, North Carolina's native plants and their derivatives have provided foods,
21 medicines, and other products, from the origin of North Carolina's blueberry industry to
22 American ginseng exports; and

23 Whereas, planting, cultivation, and preservation of native plants provide a natural link
24 to wild land areas present and past, while presenting beauty and benefit and instilling a greater
25 appreciation for North Carolina's natural heritage; Now, therefore,
26 The General Assembly of North Carolina enacts:
