Referred to:

February 16, 2023

1 A BILL TO BE ENTITLED 2 AN ACT TO (I) LIMIT CITIES AND COUNTIES FROM PROHIBITING CONSUMER 3 CHOICE OF ENERGY SERVICE BASED UPON THE TYPE OR SOURCE OF ENERGY 4 TO BE DELIVERED AND (II) REQUIRE RESPONSIBLE DECOMMISSIONING OF 5 NEWLY SITED UTILITY-SCALE SOLAR PROJECTS UPON CESSATION OF 6 **OPERATIONS.** 7 The General Assembly of North Carolina enacts: 8 9 PART I. PRESERVING CHOICES FOR CONSUMERS 10 **SECTION 1.(a)** Article 8 of Chapter 160A of the General Statutes is amended by 11 adding a new section to read: 12 "§ 160A-203.3. Limitations on regulation of energy choice. 13 A city shall not adopt an ordinance that prohibits, or has the effect of prohibiting, (a) 14 either of the following: 15 (1)The connection, reconnection, modification, or expansion of an energy service 16 based upon the type or source of energy to be delivered to an individual or any other person as the end-user of the energy service. 17 18 The sale, purchase, or installation of an appliance utilized for cooking, space (2)19 heating, water heating, or any other appliance included under the definition of "white goods" pursuant to G.S. 130A-290(a). 20 As used in this section, "energy service" means the energy source that a consumer 21 (b) 22 may choose to use to illuminate, heat, or cool buildings; produce hot water; operate equipment; operate appliances; or any other similar activities, where the energy source is derived from one 23 24 or more of a variety of sources such as natural gas, renewable gas, hydrogen, liquified petroleum 25 gas, renewable liquified petroleum gas, or other liquid petroleum products and that is delivered to the consumer by an entity legally authorized to provide such service or electricity that is 26 derived from one or more sources of electric generation and is delivered to the consumer by an 27 entity legally authorized to provide such service and the distribution of the electricity occurs 28 according to the territorial rights established by G.S. 62-110.2, 160A-331.2, or 160A-332. For 29 purposes of this section, the terms "renewable gas" and "renewable liquified petroleum gas" shall 30 31 mean gas derived from a renewable energy resource, as that term is defined by 32 G.S. 62-133.8(a)(8).

33 (c) Nothing in this section shall be construed to (i) limit the ability of a city to choose the
 34 energy service for property owned by the city, (ii) prohibit a city from recovering reasonable

|----------|--|
| 1        | costs associated with reviewing and issuing a permit, (iii) affect the authority of a city to manage   |
| 2        | or operate a city-owned utility, including a city's authority to require persons residing within their |
| 3        | jurisdictions to obtain energy service from a city-owned utility or a joint municipal power agency     |
| 4        | of which they are a member, or (iv) impair a contract executed pursuant to G.S. 160A-322 prior         |
| 5        | to the effective date of this section for the supply of electric service.                              |
| 6        | (d) Notwithstanding any authority granted to municipalities to adopt local ordinances,                 |
| 7        | any local ordinance that prohibits or has the effect of prohibiting the activities described in        |
| 8        | subsection (a) of this section shall be invalid."  |
| 9        | <b>SECTION 1.(b)</b> Article 6 of Chapter 153A of the General Statutes is amended by                   |
| 10       | adding a new section to read:  |
| 11       | "§ 153A-145.11. Limitations on regulation of energy choice.  |
| 12       | (a) A county shall not adopt an ordinance that prohibits, or has the effect of prohibiting,            |
| 13       | either of the following:   |
| 14       | (1) The connection, reconnection, modification, or expansion of an energy service                      |
| 15       | based upon the type or source of energy to be delivered to an individual or any                        |
| 16       | other person as the end-user of the energy service.  |
| 17       | (2) The sale, purchase, or installation of an appliance utilized for cooking, space                    |
| 18       | heating, water heating, or any other appliance included under the definition of                        |
| 19       | "white goods" pursuant to G.S. 130A-290(a).  |
| 20       | (b) As used in this section, "energy service" means the energy source that a consumer                  |
| 21       | may choose to use to illuminate, heat, or cool buildings; produce hot water; operate equipment;        |
| 22       | operate appliances; or any other similar activities, where the energy source is derived from one       |
| 23       | or more of a variety of sources such as natural gas, renewable gas, hydrogen, liquified petroleum      |
| 24       | gas, renewable liquified petroleum gas, or other liquid petroleum products and that is delivered       |
| 25       | to the consumer by an entity legally authorized to provide such service or electricity that is         |
| 26       | derived from one or more sources of electric generation and is delivered to the consumer by an         |
| 27       | entity legally authorized to provide such service and the distribution of the electricity occurs       |
| 28       | according to the territorial rights established by G.S. 62-110.2, 160A-331.2, or 160A-332. For         |
| 29       | purposes of this section, the terms "renewable gas" and "renewable liquified petroleum gas" shall      |
| 30       | mean gas derived from a renewable energy resource, as that term is defined by                          |
| 31       | <u>G.S. 62-133.8(a)(8).</u>  |
| 32       | (c) Nothing in this section shall be construed to (i) limit the ability of a county to choose          |
| 33       | the energy service for property owned by the county, (ii) prohibit a county from recovering            |
| 34<br>25 | reasonable costs associated with reviewing and issuing a permit, or (iii) affect the authority of a    |
| 35       | county to manage or operate a county-owned utility, including a county's authority to require          |
| 36       | persons residing within their jurisdictions to obtain energy service from a county-owned utility.      |
| 37       | (d) Notwithstanding any authority granted to counties to adopt local ordinances, any local             |
| 38       | ordinance that prohibits or has the effect of prohibiting the activities described in subsection (a)   |
| 39<br>40 | of this section shall be invalid."   |
| 40       | DADT IL DECOMMISSIONING OF LITH ITV SCALE SOLAD DDOLECTS LIDON   |
| 41<br>42 | PART II. DECOMMISSIONING OF UTILITY-SCALE SOLAR PROJECTS UPON<br>CESSATION OF OPERATIONS               |
| 42<br>43 | <b>SECTION 2.(a)</b> Article 9 of Chapter 130A of the General Statutes is amended by                   |
| 43<br>44 | adding a new Part to read:   |
| 44<br>45 | "Part 2J. Management of Solar Energy Equipment.  |
| 46       | "§ 130A-309.240. Decommissioning and restoration requirements for utility-scale solar                  |
| 40<br>47 | projects; recycling of project components required; financial assurance                                |
| 48       | requirements.  |
| 49       | (a) Definitions. – For purposes of this Part, the following definitions apply:                         |
| 50       | (1) "Cessation of operations" means a utility-scale solar project has not produced                     |
| 51       | power for a period of 12 months. This 12-month period shall not, however,                              |

|          | General Assemb    | oly Of North Carolina  | Session 2023                   |
|----------|-------------------|--|--------------------------------|
| 1        |                   | include a period in which the (i) project fails to pro   | oduce power due to an event    |
| 2        |                   | of force majeure or (ii) owner has retained leg  | gal control of the project's   |
| 3        |                   | footprint and has commenced rebuilding the facil   |                                |
| 4        | <u>(2)</u>        | "Expansion" or "expanded," when used in reference  | ence to a utility-scale solar  |
| 5        |                   | project, means adding 2 megawatts AC (MW   | AC) or more of directly        |
| 6        |                   | connected solar energy generating capacity to the  | e local or regional electrical |
| 7        |                   | grid with the ability to deliver power to the elect  | rical grid, or increasing the  |
| 8        |                   | ability of the project to deliver power to the e   | lectrical grid by thirty-five  |
| 9        |                   | percent (35%), whichever is larger.  |                                |
| 10       | <u>(3)</u>        | "Photovoltaic module" or "PV module" means   | the smallest nondivisible,     |
| 11       |                   | environmentally protected assembly of pho  | otovoltaic cells or other      |
| 12       |                   | photovoltaic collector technology and ancillary  | parts intended to generate     |
| 13       |                   | electrical power under sunlight, which is part of a  | utility-scale solar project.   |
| 14       | <u>(4)</u>        | "Rebuild" or "rebuilt" when used in reference to   | a utility-scale solar project  |
| 15       |                   | means a utility-scale solar project for which more   | than fifty percent (50%) of    |
| 16       |                   | the original photovoltaic modules have been repla  | aced with a different type of  |
| 17       |                   | photovoltaic module or other fuel source and the   | project is deemed to be new    |
| 18       |                   | for income tax purposes.   |                                |
| 19       | <u>(5)</u>        | "Recycle" means the processing, including disas  | sembling, dismantling, and     |
| 20       |                   | shredding of PV modules or other equipment from  |                                |
| 21       |                   | or their components, to recover a usable produc  | t. Recycle does not include    |
| 22       |                   | any process that results in the incineration of su   |                                |
| 23       |                   | determined to be hazardous shall comply with   | applicable hazardous waste     |
| 24       |                   | requirements even when recycled.   |                                |
| 25       | <u>(6)</u>        | "Utility-scale solar project" means a ground-mou   |                                |
| 26       |                   | (CPV), or concentrating solar power (CSP or solar  |                                |
| 27       |                   | generating 2 megawatts AC (MW AC) or more di   | •                              |
| 28       |                   | or regional electrical grid with the ability to del  | -                              |
| 29       |                   | grid. The term includes the solar arrays, accessor   |                                |
| 30       |                   | facilities, transmission facilities, and any other inf   |                                |
| 31       |                   | operation of the project. For purposes of this s   | •                              |
| 32       |                   | project does not include renewable energy facilitie  |                                |
| 33       |                   | electric customer intended primarily for the cust  |                                |
| 34       |                   | the customer's own retail electrical energy consum   | nption at the premises or for  |
| 35       |                   | <u>net metering.</u>   |                                |
| 36       |                   | <u>nmissioning Requirement. – The owner of a utility</u>   | 1 0                            |
| 37       | -                 | proper decommissioning of the project upon co  | -                              |
| 38       |                   | property in compliance with subdivision (3) of the   |                                |
| 39       |                   | herewith, no later than one year following cessation   | -                              |
| 40       |                   | epartment within 30 days of cessation of operations  |                                |
| 41       |                   | ption of the steps to be taken to properly decom   |                                |
| 42       |                   | e site. At a minimum, an owner shall take all  | of the following steps in      |
| 43       | decommissioning   |  |                                |
| 44<br>45 | $\frac{(1)}{(2)}$ | Disconnect the solar project from the power grid.  |                                |
| 45<br>46 | <u>(2)</u>        | <u>Remove all equipment from the solar project, and</u><br>for reuse, or recycle all of the components thereof |                                |
| 40<br>47 |                   |  |                                |
| 47<br>48 |                   | recycled, including the PV modules; the entire so  |                                |
| 48<br>49 |                   | aboveground electrical interconnection and dist  |                                |
| 49<br>50 |                   | longer deemed necessary; subsurface cable no lon<br>metal fencing; electrical and electronic devices,          |                                |
| 50<br>51 |                   | inverters; and energy storage system batteries, as   | -                              |
| 51       |                   | inverters, and energy storage system datternes, as   | s mat term is dermed under     |

| General    | Assem           | bly Of North Carolina   | Session 2023                          |
|------------|-----------------|---|---------------------------------------|
|            |                 | subsection (a) of this section. Components that will  | l not be shipped for reuse,           |
|            |                 | are incapable of being recycled, and do not meet the  | ne definition of hazardous            |
|            |                 | waste shall be properly disposed of in (i) an in  | dustrial landfill or (ii) a           |
|            |                 | municipal solid waste landfill. PV modules that   | meet the definition of a              |
|            |                 | hazardous waste shall comply with hazardous   | waste requirements for                |
|            |                 | recycling and disposal as applicable.   | -                                     |
|            | (3)             | Restore the property (i) as nearly as practicable to  | o its condition before the            |
|            |                 | utility-scale solar project was sited or (ii) to an alt   | ernative condition agreed             |
|            |                 | upon in a written contract or lease agreement betwee<br>project owner. A copy of the agreement signed | een the landowner and the             |
|            |                 | provided to the Department prior to decommission  |                                       |
|            |                 | property shall otherwise comply with any applicab   | -                                     |

# General Assembly Of North Carolina

| 1        | (i) Department Report. – Information regarding implementation of the requirements of  |  |  |  |
|----------|---|--|--|--|
| 2        | this section shall be included in the annual report required under G.S. 130A-309.06(c).   |  |  |  |
| 3        | (j) Rules Required. – The Department of Environmental Quality shall adopt rules   |  |  |  |
| 4        | establishing criteria to set the amount of financial assurance required for utility-scale solar   |  |  |  |
| 5        | projects as set forth in subsection (d) of this section. These rules shall consider, at a minimum,  |  |  |  |
| 6        | the solar technology to be employed, i.e., PV, CPV, CSP, or other technology; the approximate   |  |  |  |
| 7        | number and size of PV modules included in the solar arrays to be constructed; any ancillary   |  |  |  |
| 8        | facilities to be constructed in association with the project; the condition of the property prior to  |  |  |  |
| 9        | construction of a utility-scale solar project; the amount of acreage that would be impacted by the  |  |  |  |
| 10       | proposed project; and any other factors designed to enable establishment of adequate financial  |  |  |  |
| 11       | assurance for decommissioning and restoration on a site-by-site basis. In establishing  |  |  |  |
| 12       | requirements for financial assurance for a utility-scale solar project, the Department shall  |  |  |  |
| 13       | consider the salvage value of the project's equipment. The rules shall require periodic updates to  |  |  |  |
| 14       | be provided by owners with respect to financial assurance maintained. In addition, the  |  |  |  |
| 15       | Department shall adopt rules as necessary to implement other requirements of this section,  |  |  |  |
| 16       | including rules to address the following matters:   |  |  |  |
| 17       | (1) <u>Requirements for decommissioning plans, including required information,</u>  |  |  |  |
| 18       | and processes for submittal and review of plans.  |  |  |  |
| 19       | (2) <u>Fees to be assessed upon registration.</u>   |  |  |  |
| 20       | (3) Any other matter the Department deems necessary.  |  |  |  |
| 21<br>22 | " <u>§ 130A-309.241. Grants and incentives for recycling of solar panels.</u><br>The Department of Commerce, in consultation with the Department of Environmental |  |  |  |
| 22       | Quality, shall identify existing incentives and grant programs that may be used to encourage  |  |  |  |
| 23<br>24 | research and development on recycling and reuse of PV modules and to facilitate growth of the   |  |  |  |
| 25       | State's PV module recycling and reuse industry.   |  |  |  |
| 26       | "§ 130A-309.242. Utility-Scale Solar Management Fund.   |  |  |  |
| 27       | (a) Creation. – The Utility-Scale Solar Management Fund is created as a special fund  |  |  |  |
| 28       | within the Department. The Fund consists of revenue credited to the Fund from the proceeds of   |  |  |  |
| 29       | the fee imposed on owners of utility-scale solar projects under G.S. 130A-309.240.  |  |  |  |
| 30       | (b) Use and Distribution. – Moneys in the Fund shall be used by the Department to   |  |  |  |
| 31       | implement the provisions of this Part concerning proper decommissioning of utility-scale solar  |  |  |  |
| 32       | projects.   |  |  |  |
| 33       | "§ 130A-309.243. Enforcement and appeals.   |  |  |  |
| 34       | (a) This Part may be enforced as provided by Part 2 of Article 1 of this Chapter.   |  |  |  |
| 35       | (b) Appeals concerning the enforcement of rules, the imposition of administrative   |  |  |  |
| 36       | penalties, or any other action taken by the Department under authority of this Part shall be  |  |  |  |
| 37       | governed by the provisions for appeals set forth in Part 2 of Article 1 of this Chapter."   |  |  |  |
| 38       | <b>SECTION 2.(b)</b> G.S. 130A-309.06(c) reads as rewritten:  |  |  |  |
| 39       | "§ 130A-309.06. Additional powers and duties of the Department.   |  |  |  |
| 40       |   |  |  |  |
| 41       | (c) The Department shall report to the Environmental Review Commission and the Fiscal   |  |  |  |
| 42       | Research Division on or before April 15 of each year on the status of solid waste management  |  |  |  |
| 43       | efforts in the State. The report shall include all of the following:  |  |  |  |
| 44       |   |  |  |  |
| 45       | (21) <u>A report on the management of solar energy equipment pursuant to Part 2J of</u>   |  |  |  |
| 46       | this Article."  |  |  |  |
| 47       |   |  |  |  |
| 48       | DEPARTMENT OF ENVIRONMENTAL QUALITY TO ADOPT RULES AND REPORT   |  |  |  |
| 49<br>50 | <b>SECTION 2.(c)</b> The Department of Environmental Quality shall adopt permanent  |  |  |  |
| 50       | rules implementing the requirements of this section no later than August 1, 2025.   |  |  |  |

#### **General Assembly Of North Carolina**

1 **SECTION 2.(d)** Beginning December 1, 2023, through December 1, 2025, the 2 Department of Environmental Quality shall submit quarterly reports to the Environmental 3 Review Commission and the Joint Legislative Commission on Energy Policy on implementation 4 of the requirements of this section, including program development and the status of the 5 rulemaking.

6 7

# APPLICABILITY TO EXISTING CONTRACTS

8 **SECTION 2.(e)** Nothing in Section 2(a) of this act shall be construed to abrogate or 9 impair a contractual provision executed on or before the effective date of this act that is binding 10 on an owner, or their successors in interests, that expressly requires decommissioning and/or 11 restoration activities in direct conflict with the requirements of those sections, such as a contractual provision granting a landowner the right to retain project equipment after cessation 12 13 of operations, as that term is defined under G.S. 130A-309.240, as enacted by Section 2(a) of this 14 act. In such case, compliance with the provisions of Section 2(a) of this act shall be required to the maximum extent that decommissioning and/or restoration activities are not in direct conflict 15 with the terms of such a contractual provision. 16

#### PUBLIC STAFF OF THE UTILITIES COMMISSION TO PROVIDE INFORMATION CONCERNING DECOMMISSIONING COSTS FOR EXISTING UTILITY-SCALE SOLAR PROJECTS NOT SUBJECT TO FINANCIAL ASSURANCE REQUIREMENTS

21 **SECTION 2.(f)** The Public Staff of the Utilities Commission shall, in an effort to 22 ensure proper decommissioning of all utility-scale solar projects:

- (1) Identify existing laws, which do not require ratepayer contribution or governmental appropriations, that would enable recovery of the costs of decommissioning for utility-scale solar projects that are not subject to a financial assurance requirement pursuant to (i) Section 2(a) of this act, (ii) a requirement of a local government with jurisdiction over the property on which the project is sited, or (iii) a lease or other binding contract with the landowner of the property on which the project is sited.
  - (2) In consultation with the Department of Environmental Quality as needed, compile a list of all utility-scale solar projects operating within the State as of the effective date of this act.

The Public Staff shall report the information required by this section to the General
Assembly no later than January 1, 2025.

# 36 PART III. SEVERABILITY CLAUSE AND EFFECTIVE DATE

37

## 38 SEVERABILITY CLAUSE

39 SECTION 3. If any section or provision of this act is declared unconstitutional or 40 invalid by the courts, it does not affect the validity of this act as a whole or any part other than 41 the part declared to be unconstitutional or invalid. 42

### 43 **EFFECTIVE DATE**

44 **SECTION 4.** This act becomes effective as follows: 45 Section 2(a) of this act is effective when it becomes law, except as follows: (1)The requirements for decommissioning and registration established 46 a. under G.S. 130A-309.240(b) and (e), respectively, as enacted by 47 48 Section 2(a) of this act, become effective November 1, 2025, and apply 49 to utility-scale solar projects constructed prior to or after that date. The 50 owner of a utility-scale solar project shall register with the Department as follows: (i) by November 1, 2025, or at least 90 days prior to the 51

| Gen | General Assembly Of North Carolina Session 2023 |       |  |  |  |
|-----|---|-------|--|--|--|
|     |   |       | commencement of construction of the project if the project is constructed after November 1, 2025; and (ii) at least 90 days prior to       |  |  |
|     |   | h     | commencement of rebuild or expansion of a utility-scale solar project.   |  |  |
|     |   | b.    | The requirements for submittal of a decommissioning plan and financial accuracy actablished under $C = 120A - 200 - 240(a)$ and (d)        |  |  |
|     |   |       | financial assurance established under G.S. 130A-309.240(c) and (d), respectively, as enacted by Section 2(a) of this act, become effective |  |  |
|     |   |       | November 1, 2025, and shall only apply to (i) utility-scale solar  |  |  |
|     |   |       | projects for which applications for certificates of public convenience   |  |  |
|     |   |       | and necessity are pending or submitted on or after the effective date of   |  |  |
|     |   |       | this act and (ii) utility-scale solar projects that are generating solar   |  |  |
|     |   |       | energy or are interconnected to a transmission facility on the date this   |  |  |
|     |   |       | act becomes effective, only if the project is rebuilt or expanded, as  |  |  |
|     |   |       | those terms are defined by G.S. $130A-309.240(a)(2)$ and $(a)(4)$ , after  |  |  |
|     |   |       | the effective date of this act, in which case the project shall be subject   |  |  |
|     |   |       | to the requirements of G.S. 130A-309.240(c) and (d). The owner of a  |  |  |
|     |   |       | utility-scale solar project shall submit a decommissioning plan and  |  |  |
|     |   |       | establish financial assurance (i) by November 1, 2025, or prior to   |  |  |
|     |   |       | commencement of construction of the project if the project is  |  |  |
|     |   |       | constructed after November 1, 2025, and (ii) prior to commencement   |  |  |
|     |   |       | of rebuild or expansion of a utility-scale solar project.  |  |  |
|     | (2)   | The r | emainder of this act is effective when it becomes law.   |  |  |
