The Circle of Care Program

The COC Program was launched in 2023, seeded by grant funding. Unfortunately grant funds were not released until April 2024. It is an effort to mentor pregnant and early parenting mothers, helping them to learn skills such as goal setting and budgeting to begin to emerge from a mindset that just plans day-to-day. Financial help provided by the grant enables the case manager to pay car repairs, assist with accessing a safe housing situation, buying medicine, etc. The goal is to assist the client to move to a place of financial stability. Emerging from generational poverty is a slow process, but we have seen definite progress in many lives.

To date 1,795 women have been assisted extensively by the COC Program.
