Raleigh, NC 27603

RE: Annual Report of Activities for 2024

Dear Sir:

The North Carolina Licensing Board for General Contractors pursuant to N.C.G.S. §93B-2 is pleased to present to you this report of its activities for 2024.

The Licensing Board is comprised of nine members, serving 5-year staggered terms. The Board employed 19 full-time employees during the 2024 calendar year. As charged by our governing legislation at Chapter §87 Article 1 of the North Carolina General Statutes, the purpose of the Board is to regulate the practice of general contracting in North Carolina by evaluating licensure applications for specific criteria by granting licenses to qualified contractors. The Board also imposes disciplinary action in appropriate cases by suspending or revoking the licenses of general contractors who violate provisions of the Board's disciplinary statute. The Board receives no state funding to conduct its operations. Rather, the Board is receipt-supported, being funded entirely by application, licensing and education fees charged to contractors located in North Carolina as well as in other states, US Territories, and foreign countries.

Applicants must pass an examination before a license can be issued unless they are admitted by reciprocity. Once an examination has been passed, reexamination is not required unless a license has lapsed for a period of four or more years (N.C.G.S. §87-10(f)). All failing candidates are entitled to a review of their exam, thereby allowing the candidate an opportunity to determine which examination questions were answered incorrectly.

As of December 31, 2024, there were 31,472 general contractors licensed to operate in North Carolina. North Carolina's general contractor licensing laws provide that persons, firms or corporations who bid upon or who construct projects costing \$40,000 or more shall be licensed to practice general contracting.

In 2024, a total of 10,894 persons, firms or corporations applied to the Board for licensure, and 4,702 examinations were administered. The overall pass rate for examinations given in 2024 was 52%. The Board granted 2,698 general contractor licenses to persons, firms, or corporations in 2024. There were 24 applications

submitted in 2024 that included a felony conviction record, resulting in 4 applications with felony convictions being granted and 20 applications with felony convictions being denied. There were no applications received in 2024 from applicants with military training or military spouses.

For the year 2024, the Board received 493 sworn complaints regarding contractors of which 250 were filed against unlicensed general contractors and 243 were filed against licensed general contractors. In 2024, the Board revoked or suspended 14 licenses, issued 70 formal reprimands and obtained 194 injunctions in Superior Court against contractors engaged in the unlicensed practice of general contracting.

The Homeowners Recovery Fund is administered by the Board to reimburse homeowners in North Carolina who have suffered a reimbursable loss in the construction or alteration of a single-family dwelling in this state. There were 20 Homeowners Recovery Fund Hearings conducted in 2024 allowing eligible claimants to present claims before the Board for reimbursement. A total of \$885,228.33 was awarded to eligible claimants.

In 2024 there were no amendments to Chapter 87 of the General Statutes. The Board's current Laws & Rules can be found on the Board website at www.nclbgc.org.

On or before April 30, 2025, pursuant to §93B-2(b) financial statements for fiscal year(s) ended December 31, 2024, will be sent to all required agencies and authorities. By our signatures below we affirm that we are authorized to respond on behalf of the Board. We further affirm that all information provided is truthful and correct. We hope that you have found this description of the Board's activities helpful.

Sincerely,

Eric Reichard
Board Chair

Ryan D. Cody
