Raleigh, NC 27603

Dear Chairmen:

Session Law 2021-180, Section 9D.15C requires the Department of Health and Human Services to submit an annual report to the Joint Legislative Oversight Committee on Medicaid on information regarding direct care workers who serve Medicaid beneficiaries receiving services through the North Carolina Innovations Waiver program. Pursuant to the provisions of law, the Department is pleased to submit the attached report for 2024.

Should you have any questions regarding this report, please contact Karen Wade, Director of Policy, at Karen.Wade@dhhs.nc.gov.

Sincerely,

DocuSigned by:

I. Background

This is the third report required by Section 9D.15C of S.L. 2021-180 (see *Appendix A*)¹. The legislation directed the NC Department of Health and Human Services (DHHS) Division of Health Benefits report to the Joint Legislative Oversight Committee on Medicaid and Health Choice on the Direct Support Professionals (DSP)² serving individuals in the Innovations Waiver Program and to develop a plan for any recommended increases in those workers' wages. Note that DSPs are a subset of a larger group known as Direct Care Workers (DCWs), which is the term used in the title of this report. The term DSP is used in the body of the report where it is more precise.³

North Carolina Medicaid oversees the 1915(c) Home and Community Based Innovations Waiver (Innovations) and receives regular feedback on the waiver from beneficiaries, families, providers, Local Management Entities/Managed Care Organizations (LME/MCOs), and other stakeholders. The Innovations Waiver began in 2005 as a pilot, with statewide expansion being completed in 2013. It was then approved by the Centers for Medicare and Medicaid Services (CMS) for an additional five years, effective July 1, 2019, through June 30, 2024. The Innovations Waiver was again renewed in 2024 effective July 1, 2024, through June 30, 2029. During this reporting period, the Innovations Waiver is available through: Alliance Health, Partners Behavioral Health, Sandhills Center, Eastpointe Human Services, Trillium Health Resources, and Vaya Health.

The Innovations Waiver provides community-based alternatives for individuals with Intellectual or Developmental Disabilities (IDD) who are at risk for placement in an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF-IID). The target waiver population consists of beneficiaries with IDD who meet ICF-IID Level of Care and who need support to live in the community. The waiver provides for a continuum of care that includes rehabilitative and long-term support services that are provided within the homes and communities of enrolled beneficiaries.

There are 14,138 slots in the Innovations Waiver, inclusive of the additional 1,000 slots that were made available pursuant to Section 9D.12.(a) of S.L. 2021-180 to be effective March 1, 2022 and July 1, 2022. Innovations Waiver slots are awarded on a first-come, first-serve basis based on the date of application and the beneficiary's ranking resulting from the equitable distribution of waiver funding among the subdivisions of the LME/MCO region based on population. As of January 2023, there are 16,833 people on the waiting list for the Innovations Waiver. The majority of services through the NC Innovations Waiver are provided by DSP paraprofessionals. Paraprofessionals are defined in 10A NCAC 27G as individuals who have a GED or high school diploma.

¹ The previous report may be viewed at <https://www.ncdhhs.gov/sl-2021-180-section-9d15c-direct-care-workers-serving-innovations-waiver-program/download?attachment> and <https://www.ncdhhs.gov/sl-2021-180-section-9d15c-direct-care-workers-serving-innovations-waiver-program-0/download?attachment>

² The Department defines direct support professionals (DSPs) as Direct Care Workers (DCW) who work in Innovations Waiver Services and Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) programs.

³ Integrated Care Facility for Intellectual and Developmental Disabilities (ICF-IID) Staff are included in the broader definition of DSP the Division uses, however, this report is exclusive to those DSPs working under the Innovations Waiver

II. Data Elements

This report, the third in the series, utilizes information from the 2023 National Core Indicators (NCI) IDD State of the Workforce Survey, formerly known as the Staff Stability Survey Report. NC Medicaid is reviewing the data elements for this report and may adjust and/or expand the types of data included in the next report submission.

Data elements pertaining to DSPs required for this report are (1) statewide data on the number of these licensed and non-licensed DSPs by worker classification; (2) identification of providers that employ these DSPs; (3) the weekly average number of hours worked by individuals serving in these positions; (4) the average and range of wages paid to these workers; (5) the average length of employment of these workers by any one provider; and (6) an assessment of whether the wages of licensed DSPs, non-licensed DSPs, or both need to be increased.

III. Results

This report is limited to 2023 data⁴; the results are below.

1. Statewide data on the number of licensed and non-licensed direct care workers by worker classification.

- a. According to the 2023 NCI-IDD State of the Workforce Survey, there were 325,591 Direct Support Professionals (DSPs) providing direct support to adults (age 18 and over) with intellectual and developmental disabilities (IDD) with 3,934 Provider agencies participating in the Survey. Of the total number of DSPs in the survey, 13,830 DSPs and 136 Provider agencies participated from North Carolina. Despite slightly lower Survey participation than last year, the number of DSPs was higher than in the previous annual report.
- b. The majority of individuals providing services through the NC Innovations Waiver are non-licensed DSPs and hold roles such as Personal Support Specialists, Home Health Aides, and Residential Support Workers. Clinically licensed staff (therapists, nurses, social workers, psychologists, etc.) are not considered DSPs for the purposes of this report, and the exact number of such staff that provide services through the Innovations Waiver, while unknown, is understood to be minimal.

2. Identification of providers that employ these Direct Support Professionals.

Appendix B contains a list of all 538 NC Innovations and TBI Waiver Services Providers for 2023, based on encounter data which includes the 136 providers who took part in the

⁴ There was a slight decrease in participation in the 2023 NCI-IDD State of the Workforce Survey for North Carolina from the previous year. Higher participation in the 2022 Survey year may be attributable to more advertising of the Survey. While the decrease is not material, the Department will continue to promote Survey participation.

2023 NCI-IDD State of the Workforce Survey. This is an increase in the total number of providers as compared to the 517 reported in the previous report.

3. The weekly average number of hours worked by individuals serving in these positions.

While the weekly average number of hours worked by individuals is not known, according to the 2023 NCI-IDD State of the Workforce Survey, the Average Percent of DSPs that were employed in North Carolina full time is 64.0%. This is a slight decline (about 1%) as compared to the previous report.

4. The average and range of wages paid to these workers.

According to the 2022 Survey, the Average Hourly wage for a NC Innovations Waiver DSP was \$13.93 per hour, while the Median Hourly wage was \$14.01 per hour. According to the 2023 Survey, the Average Hourly wage for these workers increased to \$15.02 per hour and the Median Hourly wage also increased to \$15.00 per hour. However, the Maximum Hourly wage noted in the 2023 Survey was \$25.00, a decrease from the 2022 Maximum Hourly wage of \$25.97.

5. The average length of employment of these workers.

According to the 2023 and 2022 NCI-IDD State of the Workforce Surveys, the trends related to the tenure of DSPs are as follows:

Tenure Length	2022	2023	Change
<6 Months	12.7%	15.5%	2.8%
6-12 Months	14.2%	11.8%	-2.4%
12-24 Months	12.9%	12.5%	-0.4%
24-36 Months	11.3%	9%	-2.3%
>36 Months	48.9%	51.2%	2.3%

Additionally, North Carolina's mean DSP turnover ratio is 26.9%, which is the 2nd lowest turnover rate of the 24 participating States, with Washington DC being the lowest (23.6%). This is also a lower turnover ratio than the previous report, where NC registered a 30.4% mean turnover rate.

6. Assessment of whether wages of licensed and non-licensed DSPs should be increased.

DHB recommends a goal of increasing the wages of non-licensed DSPs to an average of \$18.00 per hour. DHB does not have clear data on licensed individuals who perform DSP activities and does not have a specific recommendation with respect to wages for licensed people. If Section 9E.15 of S.L. Session Law 2023-134 had been fully funded, the average hourly wage would have been higher than this recommendation. At the time S.L. 2023-134 was enacted, the most recent report submitted to the Joint Legislative

Oversight Committee on Medicaid in accordance with Section 9D.15C of S.L. 2021-180 had estimated the average hourly wage of DSPs to be \$12.06. An increase of \$6.50 per hour, which the General Assembly stated as its intent in the legislation, would have resulted in an average hourly wage of \$18.56. The amount actually appropriated in S.L. 2023-134 supported provider increases estimated to raise the average wage to \$15.02. DHB estimates that approximately \$23 million in additional recurring appropriations are required to enable Innovations Waiver providers to increase DSP wages to an average of \$18.00 per hour and recommends appropriations to reach this goal.

It is important to note that, while legislative efforts to date to increase wages for DSPs have partially addressed providers' challenges in retaining and recruiting qualified staff, legislative increases that only target this, or other, subsets of DCWs create wage disparities between these professionals and those employed in other Medicaid services whose reimbursement rates have not received the same increases, such as North Carolina's community alternatives program (CAP) waivers, personal care and home health services via North Carolina's Medicaid State Plan, and Developmental Centers. To comprehensively address North Carolina's Long-Term Service and Support DCW staffing crisis, the General Assembly must consider increasing reimbursement and wages for all provider types employing DCWs. This comprehensive approach is the only way to promote wage parity across the entire direct care environment and avoid putting undue recruitment and retention pressure on any particular service, setting, or provider type within the Medicaid continuum.

Besides the recommendations above, the Department is providing updates on the recommendations outlined in the white paper "Leveraging the State's Olmstead Plan and Creating Choice for People with Intellectual and Developmental Disabilities," which has been referenced in past reports. The white paper proposed \$150 million in federal and state investments and highlighted actions based on the priority commitments in the Plan.⁵ The status of each priority is addressed below.

- Increase Wages for DSPs.
 - The rate increases in Section 9E.15 of [S.L. 2023-134](#) and Section 9D.15A [S.L. 2021-180](#) as amended by Section 3.3 of [S.L. 2022-6](#) have increased wages for Innovations waiver DSPs working for ICF-IDD providers.
- Raise Innovations Waiver rates \$3 per hour in SFY 2023-24.
 - Innovation waiver rates increased by \$1.13 per 15-minute unit (\$1.13x 4= \$4.52/hour, exceeding the \$3 goal) when Section 9E.15 of [S.L. 2023-134](#) was implemented.

⁵ To provide clear continuity with previous iterations of this report, the 2022 version of the Olmstead Plan is addressed in this report. The most recent Olmstead Plan can be found here: <https://www.ncdhhs.gov/2024-25-olmstead-plan/open>

- Require that 75% of the rate increase funding go to DSPs.
 - Providers were directed by the Departmental to use no less than 80% of funds received from the rate increase in Section 9D.15A of S.L. 2021-180 to increase Home and Community Based Services (HCBS) DCW wages. The Innovations waiver DSP rate increase in Section 9E.15(a) of S.L. 2023-13 directed providers to attest they would apply 100% of the rate increase to increase hourly wage, benefits, or associated payroll cost. The ICF-IDD rate increase in Section 9D. 15 of S.L. 2021-180 also directed providers to use 80% of funds received to increase wages.
- Establish an online certification program for DSPs in FY 2024/25 that will be linked to enhanced rates for providers beginning in FY 2025/26.
 - The Division of Mental Health/IDD/SUS has implemented a DSP workgroup focused on the creation of a DSP certification.

IV. Recommendations to Ensure Adequate Direct Care Workforce

Recommended actions to ensure an adequate direct care workforce are essentially unchanged from earlier reports except for the formation of a DCW Workforce Advisory Committee. They are:

1. Future adoption of the Remote Supports⁶ definition to allow individuals to safely spend time without 1:1 support as appropriate.
2. Continue to offer self-direction as a service delivery option in the Innovations Waiver to allow beneficiaries to pay increased wages and have more ownership of their services.
3. Continue allowing relatives to be employed as DSPs.
4. Continue to oversee the LME/MCOs responsibility to monitor their provider networks and survey needs and gaps across their provider network. It is important to note that the LME/MCOs have rate-setting authority and the ability to enhance rates in order to stabilize staffing.
5. Assess the efficacy of Back Up Staffing Report, which was reintroduced after the Public Health Emergency (PHE).
6. Continue to work with community stakeholders to gain feedback on the impact of the most recent DCWs Wage Increases. A DCW Workforce Advisory Committee convened November 17, 2023 and meets monthly to review initiatives related to recruitment and retention of DCWs including providing high quality standardized training and advanced training opportunities tied to a piloted wage differential and career advancement.

⁶ Remote support services in North Carolina use assistive technology and 24/7 live communication to help people with intellectual and developmental disabilities (IDD) live more independently.

V. Next Steps

1. DHHS will continue work to encourage all NC Innovations Waiver providers to complete the National Core Indicators (NCI) IDD State of the Workforce Survey to ensure core comprehensive data.
2. DHHS will continue the Wage Increases discussed above and any future actions by the General Assembly.
3. DHHS is working to increase the NC Innovation Waiver Community Alternatives Programs (CAP) so that it keeps pace with increased Innovation's DSP wages.

Appendix A: Session Law 2021-180 9D.15C

STUDY DIRECT CARE WORKERS SERVING INDIVIDUALS IN THE INNOVATIONS WAIVER PROGRAM AND DEVELOP A PLAN FOR ANY RECOMMENDED INCREASE IN THOSE WORKERS' WAGES

SECTION 9D.15C. No later than March 1, 2022, and annually thereafter for the next five years, the Department of Health and Human Services, Division of Health Benefits (DHB), shall submit a report to the Joint Legislative Oversight Committee on Medicaid and NC Health Choice that contains all of the following information regarding direct care workers who serve Medicaid beneficiaries receiving services through the North Carolina Innovations waiver program:

- (1) Statewide data on the number of these licensed and non-licensed direct care workers by worker classification.
- (2) Identification of providers that employ these direct care workers.
- (3) The weekly average number of hours worked by individuals serving in these positions.
- (4) The average and range of wages paid to these workers.
- (5) The average length of employment of these workers by any one provider.
- (6) An assessment of whether the wages of licensed direct care workers, non-licensed direct care workers, or both need to be increased. If DHB determines that there is a need for an increase in wages, then DHB shall develop a plan, or update to a previously submitted plan as applicable, for such increase.
