January 12, 2010

Members of the Joint Legislative Commission on Governmental Operations Senator Marc Basnight, President Pro Tempore, Co-Chair Representative Joe Hackney, Speaker of the House of Representatives, Co-Chair

Fiscal Research Division Marilyn Chism, Director Richard Bostic Mark Bondo

Subject: Allocations for Repairs and Renovations

In the 2009 Session (S.L. 2009-451), the General Assembly authorized \$62,000,000 for the Statewide Reserve for Repairs and Renovations Account (\$50,000,000 of proceeds from bonds and notes and \$12,000,000 from the American Recovery and Reinvestment Act for the State Energy Program). The legislature allocated 50% (or \$31,00,000) of this Reserve to the Board of Governors of The University of North Carolina and directed that the subsequent allocations by the Board of Governors be reviewed by the Joint Legislative Commission on Governmental Operations and the Fiscal Research Division of the Legislative Services Office. The purpose of this report is to facilitate that review.

At its August 14, 2009 meeting, the Board of Governors allocated its funding in accordance with the guidelines developed in The University of North Carolina Funding Allocation Model for the Reserve for Repairs and Renovations.

The model allows the Board of Governors to consider allocations for high priority projects prior to applying the formula and directs that the formula be updated with the most recent institutional information on mission, size, and condition of campus facilities, before it is used to calculate constituent university allocations. The Chancellor at each university then selects the specific projects to be completed within that allocation and the statutory requirements that:

- 1. The funds be used only for the following types of projects:
  - a. Roof repairs and replacements
  - b. Structural repairs
  - c. Repairs and renovations to meet Federal and State standards
  - d. Repairs to electrical, plumbing and heating, ventilating and airconditioning systems
  - e. Improvements to meet the requirements of the Americans with Disabilities Act (as amended)
  - f. Improvements to meet fire safety needs
  - g. Improvements to existing facilities for energy efficiency
  - h. Improvements to remove asbestos, lead paint and other contaminants, including the removal and replacement of underground storage tanks
  - . Improvements and renovations to improve the use of existing space
  - j. Historical restoration

Allocations for Repairs and Renovations Page Two January 12, 2010

- k. Improvements to roads, walks, drives and utilities infrastructure
- 1. Drainage and landscape improvements
- 2. The funds shall not be used for new construction or for the expansion of the footprint of an existing facility unless required for compliance with Federal or State codes or standards.

The attached list of projects shows the Board of Governors allocations to each constituent university and the intended projects that will be funded from the available \$25,000,000 in the Reserve for Repairs and Renovations funded by proceeds from bonds and notes. Projects indentified with a "(\*)" are in facilities not supported from the General Fund.

The Chancellors have considered the use of funds from the Reserve for Repairs and Renovations to equip their existing residence halls with fire protection sprinkler systems and have, including \$1,420,048 for 2009-10, dedicated over \$5,200,000 from repair and renovation funds over the last four years to improve residence hall safety.

Sincerely,

Robert O. Nelson
