## STATE BOARD OF EDUCATION

### STATE BOARD OF EDUCATION VISION

Every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.

### STATE BOARD OF EDUCATION MISSION

The mission of the North Carolina State Board of Education is to use its constitutional authority to guard and maintain the right of a sound, basic education for every child in North Carolina Public Schools.

## **REPORTING REQUIREMENT**

This document reports computational thinking and computer science data to the General Assembly pursuant to G.S. 115C-12(48), which called for the following:

Computer Science Reporting. — The State Board of Education shall report annually by November 15 to the Joint Legislative Education Oversight Committee, the Senate Appropriations Committee on Education/Higher Education, and the House Appropriations Committee on Education on the following data related to computer science participation. For each item, the report shall include (i) statewide data for the current school year, and the four years prior when data is available, to establish trends in computer science instruction and (ii) data for the current school year for each public school unit, disaggregated by school within that unit:

- a. The number of teachers employed to teach computational thinking and computer science.
- b. The statewide courses and local elective courses offered in computer science and computational thinking, and the number of students enrolled in each of those courses. For public school units, the report shall indicate when courses are offered on a semester basis.
- c. The number of students enrolled in computer science and computational thinking courses by grade level.
- d. For sub-subdivisions b. and c. of this subdivision, the report shall also include information on enrollment numbers by the following subgroups:
  1. Economically disadvantaged students.
  2. Students from major racial and ethnic groups.
  3. Students by gender.
  4. Children with disabilities.
  5. English learners.

## **COMPUTER SCIENCE, IT, AND TECHNOLOGY EDUCATION**

The Office of Career and Technical Education (CTE) at the North Carolina Department of Public Instruction serves as lead for the Coding and Mobile App Development Program that is delivered through the Computer Sciences Standards and Computer Science, IT, and Technology (CSITT) Education. Computer Science is a content area focused on the understanding and creation of information and technological systems to be a digital age learner. As part of the Computer Science pathway of study, students can experience:

- Artificial Intelligence and Robotics
- Computing Systems and Applications
- Cybersecurity and Privacy
- Data Analytics
- Design Thinking
- Engineering and Advanced Manufacturing
- Impacts of Technology
- Information Processing
- Networks and the Internet
- Programming and Algorithms
- STEM

Students experience Computer Science, IT, and Technology Education through the NC Computer Science K-12 Standards administered at the elementary level through the North Carolina Standard of Study and through individual Computer Science, IT, and Technology Education courses in the middle grades and high school level.

## **PROTECTING STUDENT PRIVACY**

To protect the privacy of students and staff and to ensure compliance with federal regulation, state statutes, NC SBE policy and NCDPI standards for the public dissemination and reporting of data, various disclosure avoidance techniques are used in this report. These techniques include, but are not limited to, minimum cell size, small cell suppression and complimentary/secondary cell suppression.

In accordance with NCDPI's Data Management Group policy, the minimum cell size for reporting on student counts is a student group or subgroup population size of 10 students. Therefore, if the population size of a student group is less than 10, the data will be suppressed. In cross-tabular data tables, regardless of the number of students within the group or subgroup population, if the student count along with the data being cross-tabulated could potentially lead to the disclosure of unknown sensitive information about a student, these data will be suppressed. In addition, in cross-tabular data tables, if adjacent information about other student groups can be used in a way that might disclose the suppressed data, these data may also be suppressed.

Data being suppressed will be displayed as an “\*” in a table. In some cases, a column or row within a table may be removed entirely or smaller subgroups will be collapsed and presented as a single group.

## STATEWIDE COMPUTATIONAL THINKING AND COMPUTER SCIENCE DATA

The data in this section reflects the 2024–2025 school year and was drawn from PowerSchool and Infinite Campus. Because Infinite Campus is still in its pilot phase, some data is not yet available and continues to be processed.

### Statewide Teachers Employed

In 2024–2025, a total of **5,360 teachers** were employed to teach computational thinking and computer science.

### Statewide Student Enrollment by Course

Table 1 provides a summary of total student enrollment in computational thinking and computer science courses at the middle grades, high school, and College and Career Promise (CCP) levels. Enrollment figures also include local courses developed by PSUs. The total statewide enrollment for 2024–2025 was **323,628 students**.

### **Statewide Student Enrollment by Grade Level**

The table below summarizes the total unduplicated student enrollment in computer science and computational thinking courses by grade level.

*Table 2: Enrollment by grade level*

| Grade Level | Total Enrollment |
|-------------|------------------|
| Grade 6     | 79,619           |
| Grade 7     | 71,037           |

| Grade 13    | 1,581            |

### **Statewide Student Enrollment by Subdivisions**

The table below summarizes total student enrollment in computational thinking and computer science courses, broken down by grade level and subdivision. Because Infinite Campus is still in its pilot phase, data for economically disadvantaged students, students with disabilities, and English language learners is incomplete.
