# STATE BOARD OF EDUCATION

## STATE BOARD OF EDUCATION VISION

Every public school student in North Carolina will be empowered to accept academic challenges, prepared to pursue their chosen path after graduating high school, and encouraged to become lifelong learners with the capacity to engage in a globally-collaborative society.

## STATE BOARD OF EDUCATION MISSION

The mission of the North Carolina State Board of Education is to use its constitutional authority to guard and maintain the right of a sound, basic education for every child in North Carolina Public Schools.

## NC DEPARTMENT OF PUBLIC INSTRUCTION

**Maurice "Mo" Green, State Superintendent / 301 N. Wilmington Street, Raleigh, North Carolina 27601**

In compliance with federal law, the NC Department of Public Instruction administers all state-operated educational programs, employment activities and admissions without discrimination because of race, religion, national or ethnic origin, color, age, military service, disability, or gender, except where exemption is appropriate and allowed by law.

**Inquiries or complaints regarding discrimination issues should be directed to:**

Thomas Tomberlin, Senior Director, Educator Preparation, Licensure, and Performance, NCDPI  
6301 Mail Service Center, Raleigh, NC 27699-6301 / Phone: (984) 236-2114

## INTRODUCTION

BACKGROUND: SL 2021-180 Section 7.27(a) established a grant program during the 2021-2023 fiscal biennium for qualifying public-school units (PSUs) to improve teacher quality and mitigate learning loss, notwithstanding G.S. 115C-296.2, by reimbursing teachers for the cost of the participation fee for National Board for Professional Teaching Standards (NBPTS) certification, in response to the COVID-19 pandemic.

Additionally, for the 2023-2024 fiscal year, the biennial budget passed in 2023 (Session Law 2023-134, Section 7.15(b)) also allocated an additional funding allotment of remaining ESSER funds toward this reimbursement.

- The law is prescriptive in the criteria for a PSU to qualify and participation required an application submission by each PSU
- Governing bodies of PSUs receiving funds are required to distribute by criteria outlined in the law
- The opportunity is not contingent on a teacher receiving national board status. It is available for any who applied regardless of the outcome of the attempt.

A total of \$1,000,000 was available from this funding source to reimburse teachers seeking National Board Certification reimbursement for fiscal year 2024-25. Of the 1,853 applicants seeking reimbursement across the state, 965 received some form of allotment.

### **Funding Source: Session Law 2023-134**

Session Law 2023-134, Section 7.15(b) allotted \$1,000,000 for the 2024-2025 school year. Unlike the limited districts identified in previous Session Law 2021-180, this funding was available to all PSUs across the state.

Allocations were determined based on whether a teacher was teaching in a low performing school and the percentage of students identified as economically disadvantaged in their school. A total of \$1,000,000 dollars was allocated across the state for reimbursement.

### **Annual Reporting**

#### **1. Public school units applying for and receiving grants.**

For 2024-2025, NCDPI gathered data from two sources: PSUs directly, and administrative data gathered from the National Board application NBCONNECT. This method allowed for a more complete accounting of those educators that paid for National Board components and were eligible to be considered for reimbursement. Given the more comprehensive data collection effort there were 105 public school units identified. Of the 105 public school units, 15 are charter districts and 90 are regular school districts. The total requested amount across all above referenced PSUs amounted to \$1,945,430, representing all 105 PSUs. The total amount allotted based on the methods identified in legislation, and outlined above, was \$1,000,000, representing 102 PSUs. The total amount distributed specifically to teachers was \$823,279, representing 89 PSUs. For a full breakdown of the distribution by LEA, see Appendix A.

**2. Number of teachers receiving reimbursements.**

There was a total of 1,853 teachers eligible to apply for reimbursement. Of those, around half (965) were allocated funding based on the amount available and the criteria set out in law, as noted above. Of the 965 teachers that were allocated funding, 826 had funding distributed to them by their PSU.

**3. Demographic information of teachers receiving reimbursements.**

In prior reporting cycles, demographic information for National Board reimbursement recipients could not be provided due to limited data collection methods. However, recent improvements in data collection now allow for a more comprehensive examination of recipient demographics.

Gender

Of the 964 teachers who received National Board reimbursements, a substantial majority (863, or 90 percent) were female. Eighty-four (9 percent) were male, and 17 recipient genders were not collected.

Age

Table 1 presents the distribution of recipients by age group. More than one-third (36 percent) of teachers are between 40 and 49 years old, and nearly another third (31 percent) fall into the 30–39 age group.

*Table 1: National Board Candidates Reimbursed by Age Group*

Recipient Age	Number of Recipients
20-29	94
30-39	300
40-49	350
50-59	184
60-69	29
70-79	2
Not Provided	5

Race/Ethnicity

More than three-quarters of recipients (76 percent) identified as White (Table 2). Black recipients represented 14 percent of the total, while Hispanic/Latino teachers comprised fewer than five percent. Asian and American Indian/Alaskan Native recipients each accounted for less than one percent of the total.

*Table 2: National Board Candidates Reimbursed by Race/Ethnicity*

Recipient Race/Ethnicity	Number of Recipients
American Indian/Alaskan Native	6
Asian	11
Black	133
Hispanic/Latino	44
White	732
Not Provided	38

#### Education Level

As shown in Table 3, nearly three-quarters (73 percent) of recipients reported holding undergraduate degrees. About one-quarter (25 percent) had earned a master's degree. Advanced (S-level), Doctorate, and CTE degrees were comparatively rare, collectively representing about 2 percent of all recipients.

*Table 3: National Board Candidates Reimbursed by Education Level Obtained*

Recipient Education Level	Number of Recipients
Advanced (S Level)	11
CTE	2
Doctorate	2
Masters	240
Undergraduate	704
Not Provided	5

**4. Employment status of teachers receiving reimbursements, including the public school where the teacher is employed and whether the teacher remains employed with his or her original qualifying public school.**

With the improvements in data collection methods for this reporting period, the Department is now able to track the employment status of reimbursement recipients beginning with this cohort.

*Table 4: Within Year Retention of NB Reimbursed Educators*

Disposition	Within Year Retention	
	(N)	(%)
Stayed	912	94.5%
Moved to a different district	3	0.3%
Moved to a different school	29	3.0%
Moved to central office	5	0.5%
Left	16	1.7%

This cohort will be monitored for employment status going forward and reported in subsequent annual reports over time.

**5. Licensure areas of teachers receiving reimbursements.** Improvements to collection methods for this year's reporting cycle also allow for an examination of reimbursement recipients by licensure areas. This was not available in prior years' reports. In an examination of the broader subject areas of licenses (Table 4), Elementary (315) and Exceptional Children (112) licenses are the most commonly prevalent among the recipient population. See Appendix B for a complete breakdown of recipients and their specific license content area.

*Table 4: National Board Candidates Reimbursed by Subject Area*

Subject Area	Candidates Reimbursed
Administration	20
Arts	42
CTE	41
Exceptional Children	112
English Language Arts	95

Science	37
Social Studies	54
Specials	73
Student Services	79
Unidentified	7

**6. Effect of the program on the performance and growth of students taught by teachers receiving reimbursements.**

EVAAS data needed to answer this question is not available in time to respond to this question and meet the reporting deadline required in law. We will be able to respond to this question in next year's report.
