MEMORANDUM

To: Joint Legislative Oversight Committee on Justice and Public Safety
From: Roger "Chip" Hawley, Director *REH*
Subject: SBI Report on Domestic Violence Related Homicides for 2025

General Statute 143B-901 requires the Department of Public Safety to submit a report to the legislature each year, illustrating the number of domestic violence related homicides which were reported during the previous calendar year.

Due to the split of the Department of Public Safety and the North Carolina State Bureau of Investigation (SBI), and because this report is prepared by the SBI, we are submitting the attached Report on Domestic Violence Related Homicides for Calendar Year 2025.

If you have any questions, please contact me at any time.

Report on Domestic Violence Related Homicides for Calendar Year 2025 Reporting Requirements and Implementation

North Carolina State Bureau of Investigation

At the request of the Department of Public Safety, the North Carolina State Bureau of Investigation collects this information from other law enforcement agencies throughout the state. This information is simply collected and forwarded to the SBI voluntarily by those agencies. The SBI has not validated each claim individually.

Reporting Requirements

North Carolina General Statute 143B-901 directs all state and local law enforcement agencies to report specific information regarding domestic violence related homicides to the North Carolina Department of Public Safety. Pursuant to this statute, the North Carolina State Bureau of Investigation has developed the Domestic Violence Related Homicide Report form, in consultation with the NC Council for Women/Domestic Violence Commission, the NC Sheriffs Association, and the NC Association of Chiefs of Police. Each law enforcement agency in North Carolina must complete a report for each domestic violence related homicide committed within that agency's jurisdiction. The report is to be completed upon the filing of charges, or when charges would have been filed against the offender if other circumstances, like the death of the offender, had not intervened. Reporting of domestic violence related homicides is an ongoing requirement for all state and local law enforcement agencies. The State Bureau of Investigation collects this information and reports it to the General Assembly.

§ 143B-901. Reporting system and database on certain domestic-violence-related homicides; reports by law enforcement agencies required; annual report to the General Assembly.

The Department of Public Safety, in consultation with the North Carolina Council for Women/Domestic Violence Commission, the North Carolina Sheriffs' Association, and the North Carolina Association of Chiefs of Police, shall develop a reporting system and database that reflects the number of homicides in the State where the offender and the victim had a personal relationship, as defined by G.S. 50B-1(b). The information in the database shall also include the type of personal relationship that existed between the offender and the victim, whether the victim had obtained an order pursuant to G.S. 50B-3, and whether there was a pending charge for which the offender was on pretrial release pursuant to G.S. 15A-534.1. All State and local law enforcement agencies shall report information to the Department of Public Safety upon making a determination that a homicide meets the reporting system's criteria. The report shall be made in the format adopted by the Department of Public Safety. The Department of Public Safety shall report to the Joint Legislative Oversight Committee on Justice and Public Safety, no later than April 1 of each year, with the data collected for the previous calendar year. (2007-14, s. 2; 2014-100, ss. 17.1(g), (rr).)

Report on Domestic Violence Related Homicides for
Calendar Year 2025

Statistics

There were 162 victims of domestic violence related homicide during calendar year 2025. This represents a 4.5% increase from the 155 individual victims reported for calendar year 2024. The 2025 incidents catalogued 150 offenders, which is 5 less offenders than reported in 2024.

Additional information reported is as follows:

- ◆ 102 victims were female
- ◆ 59 victims were male
- ◆ 1 victim’s gender was unknown as it was an unborn child
- ◆ 135 offenders were male
- ◆ 15 offenders were female
- ◆ Seven of the 162 victims in 2025 had previously taken out protective orders when the homicide occurred. Five of those protective orders were current (active) at the time the homicide occurred.
- ◆ Only three of the offenders reported were participating in a pre-trial release program, for crimes of aggravated and simple assault, when the homicide occurred.

Information in this report represents data submitted to the SBI by state and local law enforcement agencies as of January 31, 2026. The offender count may differ from the victim count because single victims may have more than one offender and one offender might have multiple victims.

Relationship Between Victim and Offender as a Percent of Total Reports in 2025

The cumulative percentage of total reports exceeds 100%. A single offense can involve more than one relationship code.

Note that one victim/offender pair could be represented in more than one relationship group.

Relationship 1

Current or former spouses

Relationship 2

Persons of opposite sex who live together, or have lived together

Relationship 3

Related as parents and children, including others acting in loco parentis to a minor child, or as grandparents and grandchildren

Relationship 4

Have a child in common

Relationship 5

Current or former household members

Relationship 6

Persons of the opposite sex who are in a dating relationship or have been in a dating relationship. A dating relationship is one wherein the parties are romantically involved over time, and on a continuous basis, during the relationship. A casual acquaintance or ordinary fraternization between persons in a business or social context is not a dating relationship.
