Executive Summary

The purpose of the Semi-Annual Equal Employment Opportunity Institute Report is to provide the Joint Legislative Commission on Governmental Operations with an overview of the level of participation by all state agencies, departments, and universities in the Institute. This report covers the period January through June 2011.

The data is analyzed by: a) number of attendees; b) number of sessions; c) number of participants; d) number of sessions by adjunct agency; e) number of participants by adjunct EEOI location and instructor; f) participants by region; g) participants by agency, department, or university; h) participants by race and gender; and i) participants by salary grade.

In this reporting period the Office of State Personnel Learning and Development Division (OSP-L&D) and eight (8) adjunct agencies (Transportation, North Carolina State University, Health & Human Services, Correction, Labor, NC A&T State University and UNC Healthcare) utilized thirty (30) instructors to host fifty-five (55) sessions in nineteen (19) cities across the state. OSP and participating adjunct agencies trained nine hundred and seventeen (917) managers and supervisors from eight (8) universities and twenty-six (26) agencies. The EEOI was held in each of the seven established regions and was readily accessible to a wide range of managers and supervisors. Adjunct agencies hosted forty-one (41) of the fifty-five (55) sessions and trained seven hundred and ten (710) or 77% of the total participants. OSP hosted fourteen (14) of 55 sessions and trained two hundred and seven (207) or 23% of the total attendees. We are pleased to report that adjunct agencies have consistently conducted more sessions and trained more participants than OSP. This has been one of the goals of the adjunct trainer program.

The following universities are commended for having the highest participation rates in the EEOI enrollment process: NCSU (12.0%), A&T (8.0%), and ECU (4.4%). The following agencies are also commended for having the highest participation rate include: Labor (40.8%), Crime Control (12.2%), Community Colleges (12.0%), Agriculture (10.5%), and UNC Healthcare (10.5%). DOC (231 participants) HHS (144) and DOT (128) continue to hold previous patterns of enrolling the greatest number of participants. North Carolina State University (NCSU) is highly praised for consistently enrolling large numbers of participants since signing on with the adjunct trainer program. NCSU (120) followed by A&T (30), and ECU (17) enrolled the highest number of participants from the University system. Employment Security Commission is applauded for requiring their supervisors to attend the EEOI on a three-year cycle.

White males accounted for 46.4% of the enrollees, White females 28.0%, Black females 12.9%, and Black males 8.2%. Asians, "Others," American Indians and Hispanic/Latinos, made up the balance (4.42%) of the enrollees respectively. Whites enrolled at a higher rate than their representation in state government (74.5% as compared to 66.24%); Blacks participated at lower rate (21.0% as compared to 29.34%); and other minorities participated at a rate commensurate to their population in state government (4.42% as compared to 4.43%).

Introduction

Background

Ensuring a high quality, diverse, and motivated workforce should be one of the key objectives in any organization's strategic action plan. It is a pivotal component of achieving the critical mission of providing leadership and support to agencies and universities in creating and sustaining a dynamic human resource system which attracts, retains, develops, and motivates a diverse and competent workforce. A prerequisite for achieving this objective is supporting the principles of equity and diversity in the workforce. The Office of State Personnel leads the effort in developing policies and programs that ensure equal employment opportunity (EEO), promote inclusiveness, and foster a culture that values diversity and empowers individuals in the workforce. Hosting the Equal Employment Opportunity Institute (EEOI) is one of the vehicles OSP uses to develop a high quality workforce. The Institute instructs managers and supervisors on laws, policy and best practices for creating and a fair and equitable workplace.

The EEOI was created to ensure that North Carolina's state government managers and supervisors understand the components of successful diversity management and EEO compliance and act to elicit high productivity from all its employees. The Institute began as a pilot program in 1988 and became a legal mandate for state government managers and supervisors in 1991. The Institute has undergone several changes/improvements since its inception in 1988.

EEO refers to the set of laws that mandate all individuals' rights to equal opportunity in the workplace, irrespective of race, color, sex, religion, national origin, age, disability or genetic information. EEO compliance is the adherence to those laws and the implementation of policies and programs to enforce them. In contrast, diversity management is the proactive response to the changing profile of the workforce and the steps management takes to solidify its employees into a highly functioning, productive team. The EEOI seeks to encourage managers and supervisors to view the two initiatives as complementary functions essential to the success of the State of North Carolina as a high performing organization.

The Learning and Development Division of the Office of State Personnel manages and conducts the EEOI to help state managers and supervisors deal with the challenges, issues, and opportunities of a diverse workforce.

Mandate

House Bill 959 amended Chapter 126 of the General Statutes. The amendment added a section to this Chapter, i.e. 126-16.1. The section requires agencies and departments to enroll newly appointed supervisors and managers in the Equal Employment Opportunity Institute (EEOI) within the first year of hire, appointment or promotion. The amendment also requires the Office of State Personnel to administer the EEOI and to track the progress of enrollment and participation. OSP works in concert with agency EEOI training coordinators to complete the enrollment process. EEOI Coordinators at

each agency have the responsibility for confirming candidate eligibility and subsequently enrolling candidates in the Institute. The procedure is monitored through the compilation and evaluation of data collected during the enrollment and delivery. The process includes:

- reviewing new hire and promotion occurrences;
- enrolling eligible candidates in the EEOI on the basis of the review process;
- hosting the EEOI; and
- evaluating the effectiveness of the training.

Objectives

The objectives of the Equal Employment Opportunity Institute (EEOI) are to help managers and supervisors:

- identify and understand federal and state EEO laws, executive orders, regulations and general statutes;
- handle situations involving potential discrimination on the basis of age, race, sex, ethnic origin, religion, disability, etc. effectively
- understand the need to hire, retain, motivate, and promote culturally and socially diverse employees
- recognize the benefits of utilizing the skills of all individuals without regarding their ethnicity or cultural background;
- understand the pride others show in their ethnic and cultural backgrounds and how to respond effectively in encounters with individuals who are culturally different;
- understand the effects of stereotyping and prejudice in employee-related management decisions; and
- enhance communications among individuals from different backgrounds.

Methodology

The EEOI is a one and one-half day course. The course is divided into two sections. Section I primarily focuses on federal and state laws and Section II covers best practices for valuing and managing a socially and culturally diverse workforce.

The course is designed to address how equal employment opportunity laws impact the work environment and the responsibilities managers and supervisors have in regard to those laws. It is also designed to stimulate and encourage managers to value the uniqueness, skills, abilities, creativity and knowledge each individual brings to the workplace. The learning occurs through lecture, group exercises, role-play, videos, writing activities and group discussions.

There are two versions of the EEOI. Level I is the standard one and one-half days course designed for the majority of candidates and Level II is a one-day course designed to accommodate cabinet level secretaries, deputy secretaries, chancellors and their deputies.

Staffing

The EEOI utilizes full-time core trainers and collateral duty trainers from the Office of State Personnel (OSP) to staff the Institute. OSP also has an adjunct trainer certification program to certify individual employees from various agencies and universities across the state to assist in delivering the Institute's curriculum. Adjunct trainers from the Department of Correction (DOC), the Department of Health and Human Services (DHHS), the Department of Transportation (DOT), UNC Asheville (UNCA), UNC Healthcare Systems (UNC HCS), Department of Cultural Resources (DCR), Elizabeth City State University (ECSU), Department of Revenue (DOR), UNC Greensboro (UNCG), the Department of Justice (DOJ) and North Carolina State University (NCSU) currently host training sessions exclusively for their respective agencies. Adjunct trainers from OSP, DOC-Enterprises, Health and Human Services, North Carolina State University, Labor, Revenue, Employment Security and Agriculture also assist OSP in delivering statewide "open enrollment" sessions.

Candidate Selection and Enrollment

Eligibility for the EEOI has traditionally been determined through use of the PM 669 report, a monthly new hire and promotion report of permanent SPA (State Personnel Act) employees at each state agency, department and university. OSP-HRIS was responsible for generating the PM 669 report. OSP-L&D distributed the report to the agencies and universities. Each agency or university EEOI coordinator reviewed the report to confirm candidate eligibility and added backlogged employees to determine their total list of eligible candidates. However, the introduction of the BEACON accounting system has rendered the PM 669 useless as a tool for assessing EEOI candidate eligibility. We currently rely on agencies to determine eligibility. We are hopeful the new Learning Management System (LMS) will provide a method for tracking new managers and supervisors. L&D occasionally requests updates from HRIS on the number of supervisors by agency. We use this information to determine the percentage of supervisors attending the training each reporting period (i.e. Jan-Jun or Jul-Dec). Supervisors are required to attend the Institute within their first year of employment. Some agencies have not consistently complied with the mandate and, have, subsequently, developed a backlog of supervisors in need of training. Backlogs accumulate when: 1) the EEOI is not currently offered in an area convenient to a candidate; or 2) a candidate is enrolled but does not attend his/her scheduled session; or 3) the agency EEOI coordinator is not actively enrolling candidates in available sessions.

During this reporting period agencies, departments and universities enrolled a total of nine hundred and seventeen (917) employees in EEOIs sponsored by OSP or an adjunct agency. (See Table 1)

TABLE 1Monthly Participation

MONTH	ENROLLED
January	103
February	203
March	122
April	188
May	100
June	201
Total	917

Number of Participants

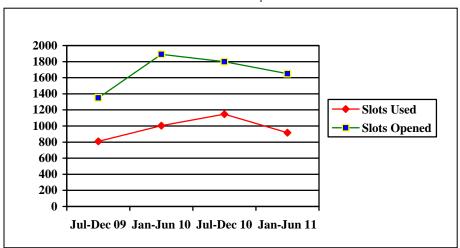

The Office of State Personnel and participating adjunct agencies scheduled fifty-four **(54)** Level I sessions and one **(1)** Level II session during this reporting period. Nine hundred and seventeen **(917)** managers and supervisors attended classes scheduled for the January through June 2011 period. This period's schedule opened sixteen hundred and fifty **(1650)** slots for enrollment. This total is derived from multiplying the maximum number of participants allotted per class [thirty (30)] by the number of classes held (60), i.e. $30 \times 55 = 1650$. This reporting period's attendance count represents a utilization rate of fifty-six **(56%)** of the available slots. Overall enrollment decreased **20%** under the last reporting and the usage rate decreased by **8%** as compared to the July-December 2010 reporting period. **(Table 2 & Chart 1)**

Table 2

Utilization Rate Trends
(Current & Previous 3 Reporting Periods)

Period	Classes Offered	Slots Opened	Attendees	Rate of Usage	Slots Unused	Percent Unused

Jan-Jun 11	55	1650	917	56%	733	44%
Totals	223	6690	3878	58%	2812	42%

Chart 1
Utilization of Slots Opened

Adjunct organizations are agencies, departments and universities that have entered into an agreement with OSP to conduct the EEOI for their respective organizations. Adjunct arrangements foster a higher degree of involvement in the EEOI; allow agencies to set their own training schedules; arrange the most cost effective logistics; and permit agencies to train more staff over a shorter period of time. Adjunct agencies manage enrollment, scheduling, material production and instructor selection for their organizations' EEOIs. Adjunct instructors must complete OSP's certification-training program before instructing the EEOI. OSP-L&D has worked with adjunct agencies since 2002, signing its first agreement with the Department of Correction. Since 2002, OSP has signed a total of 17 adjunct agreements with various state agencies and universities.

Fifty-five (55) sessions were held during this reporting period. 8 adjunct agencies sponsored 41 of the 55 sessions. A total of 30 instructors, which includes 7 OSP trainers (2 core instructors and 5 collateral duty instructors) and 23 adjunct agency trainers were enlisted to conduct the training. Adjunct instructors trained an average of 17 participants per session and OSP instructors trained an average of 15 participants per session. 7 OSP instructors conducted 14 of the 55 sessions and trained 207 (23%) enrollees; 5 DOC instructors hosted 13 sessions and trained 230 (25%) enrollees; 6 DHHS instructors conducted 5 sessions and trained 142 (15%) enrollees; 3 DOT instructors hosted 11 sessions and trained 128 (14%) enrollees; 3 NCSU instructors conducted 7 sessions and trained 117 (13%) enrollees; 2 NC A&T instructor hosted 1 session and trained 29 (3%) enrollees; 1 UNC Healthcare instructor hosted 1 session and trained 27 (3%); and 1 DCR instructor hosted 1 session and trained 7 (1%) enrollees. Overall, adjunct instructors trained 710 enrollees or 77% of this reporting period's total participants. (Chart 2 & Table 3)

Host Training Sites

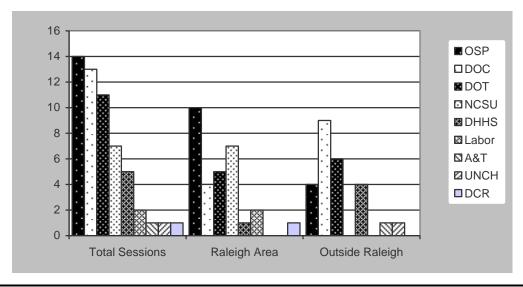

Raleigh has the highest concentration of State employees. Because of this fact, OSP has chosen to hosts most of its sessions inside the Raleigh area. However, State employees are also physically located in every county throughout the state. The adjunct host process allows and encourages agencies to schedule sessions in areas where they may have a high concentration of employees or in areas that are often underserved. This process allows the program to serve the greatest number of participants. In this reporting period adjunct agencies conducted twenty-one (21) out of forty-one (41) sessions or 51% outside the Raleigh area and twenty (20) of the forty-one or (49%) inside the Raleigh area. OSP conducted ten (10) out of fourteen or 71% of their total sessions inside the Raleigh area and four (4) or 29% outside the Raleigh area. Overall, 55% of the total sessions (OSP & adjunct agencies) were held inside the Raleigh area and 45% were held outside of Raleigh. (Table 4 & Chart 3)

Scheduling EEOIs by region enables agencies and universities to participate in the EEOI in a cost-effective manner by reducing travel costs. Fifty-five (55) EEOI sessions (Levels I & II) were held across seven (7) of the seven (7) established regions. Participants attended sessions inside and outside of their respective regions. The majority of participants attended sessions within the region of their duty station. One hundred and five (105) of the participants were from Region I; seventy (70) were from Region II; one hundred and thirty-nine (139) were from Region III; eighty-one (81) were from Region IV; fifty-three (53) were from Region V; seventy-nine (79) were from Region VI; and three hundred and ninety (390) were from Region VII. Table 5 shows the number of participants attending training by region and Chart 4 lists the number of sessions held in each region of the state. Table 6 highlights the percentage of sessions held by region. Region VII (the Raleigh area), as expected, consistently hosts the greatest number of sessions.

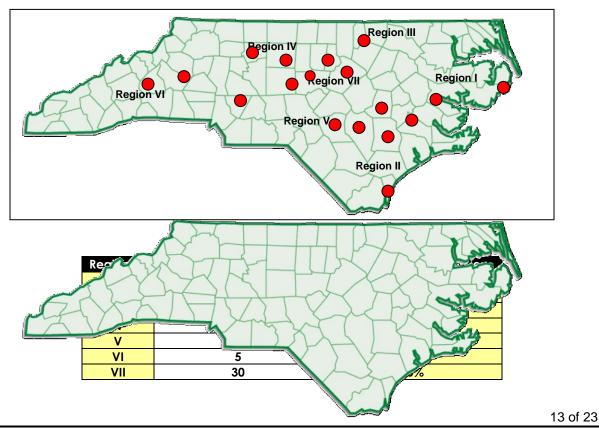

Table 5Number of participants attending training by region

See Appendix D for Regional Groupings (listed by county)

Participation by University & Agency/Department

A review of University and Agency/Department enrollment shows eight (8) universities and twenty-six (26) agencies participated in the EEOI this reporting period. The three universities with the highest participation rates include NCSU (12.0%); NC A&T (8.0%) and; ECU (4.4%). The three universities with the highest number of participants include NCSU (120), A&T (30), and ECU (17). The five agencies with the highest participation rates include: Labor (40.8%); Crime Control (12.2%); Community Colleges (12.0%); Agriculture (10.5%); and UNC Healthcare (10.3%). The five agencies with the highest number of participants enrolled include Correction (231), Health & Human Services (144), Transportation (128); Employment Security (32), and Labor (29). Additional Comments

Evaluation

At the conclusion of each Institute, each participant is given an opportunity to rate the training. The EEOI is now beginning its ninth (9th) reporting period utilizing the revised training curriculum. The revised process uses a rating scale of (1) to five (5), one being the lowest rating and five being the highest. The results of the evaluations are compiled and used as a tool to reinforce proven practices and improve the Institute's course materials.

The average rating received for the period January through June 2011 was 4.7. Participants continue believe time spent in the training was justified. Frequently mentioned comments were very similar to comments made in previous reporting periods. Other frequent comments include: 1) pleased to learn about changes in the laws, particularly the Genetic Information Nondiscrimination Act (GINA) and the Americans with Disabilities Amendments Act (ADAAA); and 2) understanding the importance of keeping interview questions job-related. The viewing of the video "A Class Divided" (which has been shown since the program's inception) also continues to remain a valued tradition.

Adjunct Trainer Certification Program Update

OSP created an Adjunct Trainer Certification program to provide training to the increasing number of managers and supervisors in State government who need enhanced skills to effectively manage a diverse workforce. An additional program objective is to have adjunct agencies' enrollment exceed OSP's enrollment. Adjunct agencies combined consistently enroll more managers and supervisors in the EEOI than OSP. OSP's arrangements with the participating adjunct agencies has met program objectives and exceeded many expectations.

Adjunct certified agencies (DCR, DHHS, DOC, DOT, DOL, NC A&T, NCSU, and UNC Healthcare) conducted forty-one (41) sessions and trained seven hundred and ten (710) or 77% of the nine hundred and seventeen (917) managers and supervisors trained this reporting period. OSP-HRD monitors the adjunct trainer programs through collection of class schedules, class rosters and classroom evaluations. Full-time core trainers also monitor adjunct programs' EEOIs via on-site classroom visits to ensure training is delivery consistently throughout the state.

An adjunct trainer session was held in December 2010. This class began with ten (10) candidates. One candidate was militarily deployed during the certification process and four (4) candidates decided not to continue with the process. However, two additional candidates from UNC Greensboro were added to the roster at a later date. At the conclusion of the January through June 2011 training period, six (6) candidates remain. Four have completed the process. The remaining three are expected to

complete the process in the July-December 2011 timeframe. The seven candidates are from HHS, UNC-CH, CCPS, NCCU, DOT and UNC-G. HHS and UNC-G currently have agreements with OSP to conduct the EEOI. Discussions are in progress to sign an agreement with NCCU, CCPS and UNC-CH. To date, twenty-five (25) agencies have individuals who have participated in the Adjunct Trainer Certification program. One hundred and six (106) candidates have completed all certification requirements including six (6) OSP employees from the Equal Employment Opportunity division. Sixty-five (65) adjunct trainers from nineteen (19) agencies and universities are currently available to conduct the training. The program will continue to host additional certification sessions as the need arises or as requested.

Conclusion

The Learning and Development Division of the Office of State Personnel is currently implementing the EEOI per the requirements of H.B. 959 and G.S. 126-16.1. EEOI materials are reviewed periodically to ensure that they are accurate and reflect current information and data. Implementation procedures and policies are in place for administrative efficiency.

EEOI Coordinators at each agency have the responsibility for identifying and enrolling candidates in the Institute. The enrollment process can be improved by developing a BEACON report that identifies newly hired and recently promoted managers and supervisors. This report will assist agencies in identifying managers and supervisors who need to attend this training.

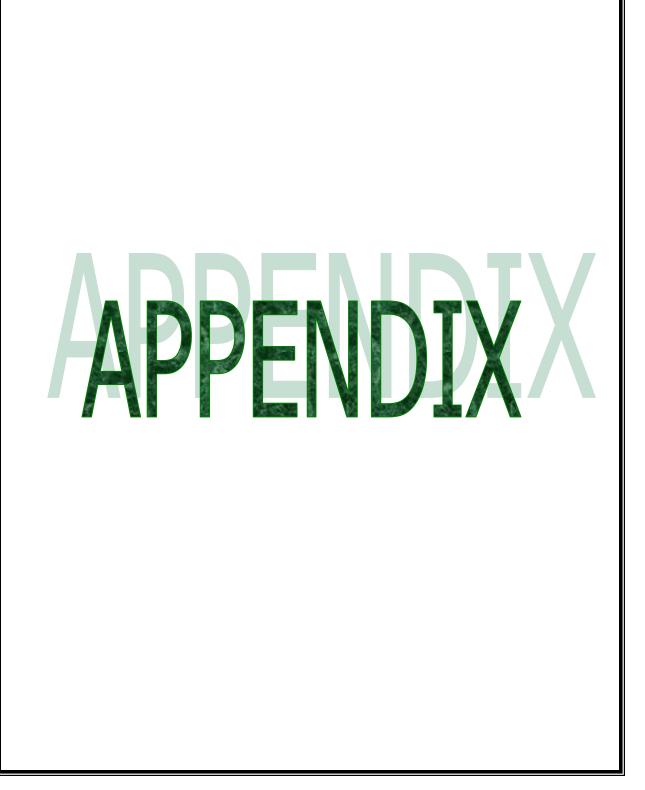

The EEOI is currently being re-evaluated to update materials to include the most recent changes in employment law and to focus on skill-building to change behavior in dealing with diversity management. Plans include adding materials that reflect new laws, specifically, the Americans with Disabilities Amendments Act (ADAAA) and the Genetic Information Nondiscrimination Act (GINA).

The EEO Institute continues to be a valuable resource for state government. In the 21st Century, we must be competitive and strong, and, we must be able to continue to deliver high quality services to the citizens of North Carolina. With the awareness and skills attained from this course, managers are better able to: (a) effectively manage diversity in the workforce, (b) create and maintain an atmosphere of equity and fairness, (c) increase employee participation, and (d) utilize the skills and talents in the work force. Improved management skills will positively affect the State's ability to continue to attract and retain well-qualified individuals.

Recommendations

The Human Resource Development Group recommends:

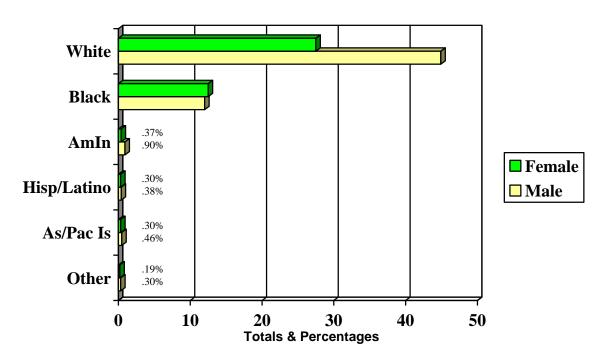

- continued development and expansion of the adjunct trainer certification program; and
- incorporate EEOI enrollment data into the new Learning Management System.

^{* -} This table represents utilization as opposed to a backlog of eligible candidates. "Eligible Candidates" totals represent the cumulative number of managers and supervisors (July 1991 to the end of the present reporting period) identified on the PM 669 reports as **eligible** to attend the EEOI. It includes individuals who may have retired, resigned, been dismissed, etc. Since the PM 669 no longer reports accurate counts and BEACON has yet to produce a similar or equivalent report, the "**Eligible Candidate**" count was unavailable during this reporting period. "**Actual Participants**" totals represent the cumulative total of participants **completing** the EEOI from July 1991 to the present.

APPENDIX C Cumulative Totals of Agency Candidates By Eligibility and Attendance*

(July 1991-June 2011)
