SUBJECT: 2013 Inactive Hazardous Sites Program report

DATE: October 1, 2013

Pursuant to G.S. 130A-310.10, The Secretary of the Department shall prepare and submit to the Joint Legislative Commission on Governmental Operations, the Environmental Review Commission and Fiscal Research a report on Inactive Hazardous Sites Program. Please consider the attached as the formal submission of this report. If you have any questions or need additional information, please contact me by phone at (919) 707-8618 or via e-mail at neal.robbs@ncdenr.gov.

October 2013

EXECUTIVE SUMMARY

The N.C. General Assembly created the Inactive Hazardous Sites Program in the Department of Environment and Natural Resources' (DENR) Division of Waste Management (DWM) to identify, investigate and clean up properties contaminated with hazardous substances. The program also manages the assessment and cleanup of old pre-regulatory landfill sites that have environmental contamination. The landfill sites addressed through the program are those that predate modern landfill standards designed to prevent contamination. This report satisfies the requirements, set out in G.S. 130A-310.10, for an annual report to the General Assembly.

The report describes activities at voluntary remedial action sites, priority cases, orphan site actions, imminent hazard abatement and EPA National Priorities List sites. DWM has electronically compiled information on the contaminant type and environmental media known or believed to be affected at each site only for the Priority List sites in the Inactive Hazardous Sites Inventory. That information continues to be included in this legislative report. Almost without exception, the "amount" of waste is unknown since there is rarely a record of the amount released. Generally, a complete site evaluation has to be completed before it is possible to reasonably estimate the volume of waste.

A table with site status information for each cataloged site can be found in Appendix B of this report. A table with the location of the pre-regulatory landfills (organized by county) is available on the DWM website. These sites are being handled as prescribed in Session Law 2007-550.

Since the program started in 1987, 3,106 chemical spill or disposal sites and old, unlined dumps or landfills (pre-regulatory) have been cataloged. Of this number, 2,623 still require work to address public health or environmental hazards.

Of the 2,623 remaining open cases, 677 are old, unlined landfills that predate solid and hazardous waste permitting laws. Half of the proceeds of a statewide solid waste disposal tax are directed by statute to the Inactive Hazardous Sites Cleanup Fund to address contamination at these pre-regulatory landfills. DWM has established contracts with private firms to assess and remediate the pre-regulatory landfill sites.

At the end of FY2012-13, the uncommitted cash balance in the Inactive Hazardous Sites Cleanup Fund (IHSCF) was \$0. The fund has received approximately \$400,000 each year from a portion of the Scrap Tire Tax since FY 2009-10. In FY 2013-14, this revenue source was replaced with a \$400,000 appropriation.

The program has recovered funds for assessment and remediation through bankruptcy claims for several sites over the years. In FY2012-13, \$410,699 in additional proceeds was recovered from Lyondell (total \$4.1 million recovered) for four sites, \$98,010 from Kysor Fuel Systems for one site, \$5,866 from Polylok for one site and \$3,801 from Collins & Aikman for one site. Additional proceeds in the amount of \$1,100 were received from the Pillowtex bankruptcy proceeding for two sites. In most cases, these new monies go into special trust funds, since the payments can only be used in accordance with the bankruptcy settlement agreements.

Session Law 2011-186 authorized a new approach to remediating contaminated groundwater. The bill allows use of alternate risk-based groundwater remediation standards for cleanup at certain industrial properties. This remediation approach is only available on sites where the owner can show that contamination has not migrated off the property and will not in the future. DWM has three preliminary applications for risk-based cleanup at the end of FY 2012-13. A total of \$67,500 has been collected in associated fees for review of these applications.

The following provides a status of sites cataloged by the Inactive Hazardous Sites Program.

Total Number of Inactive Hazardous Sites Cataloged	3,106
Chemical Spill or Disposal Sites	2,429
New Sites Cataloged This Reporting Year <i>(109 new sites screened; 35 added)</i>	35
Pre-Regulatory Landfills	677
Total Number Sites of Requiring No Further Action	483
Sites Completed In FY 2012-13 <i>(18 reviewed; 18 were eligible)</i>	18
Remaining Open Sites	2,623
Oversight of Responsible Party Cleanup Actions	205
Registered Environmental Consultant (REC)-Supervised Remedial Actions	116
Staff-Supervised Remedial Actions Under Administrative Agreements	64
Spill Response Actions	25
Additional Priority Sites	142
<i>(orphaned case actions, determining responsible parties, soliciting responsible party cooperation, enforcement actions and bankruptcy actions)</i>	
Inactive Hazardous Sites Cleanup Fund Actions in FY 2012-13	26
Sites Undergoing Contaminant Assessments	11
Sites Undergoing Contaminant Remediation	8
Homes Provided Alternate Water or Treatment Systems Maintained For 7 Sites	26
Water Supply Wells Sampled at Non-Landfill Sites	90

Pre-Regulatory Landfill (PRLF) Sites - FY2012-13 Actions

1st Phase Assessments Completed (<i>receptor research, geophysical perimeter assessment</i>)	5
Delineation Phase Assessments (<i>can be multiple field events</i>)	8
1st Phase Assessments Ongoing	5
Delineation Phase Assessments Ongoing	49
Remedial Design Ongoing	9
Remedial Action Ongoing	3
Remedial Action Completed	1
Homes Provided Alternate Water or Treatment Systems Maintained	21
Number of water supply wells sampled	147

Other program activities include groundwater and soil sampling to identify hazards, prioritization of sites, response to public inquiries (these generally run 2000 to 3000 each year), notification of responsible parties of their responsibility for assessment and cleanup, implementation of the Registered Environmental Consultant Program and the Bernard Allen Emergency Drinking Water Program (BAP) (data for the BAP is provided in a separate report to the N.C. General Assembly) and conducting training events.

I. THE INACTIVE HAZARDOUS SITES INVENTORY AND THE INACTIVE HAZARDOUS WASTE SITES PRIORITY LIST

The Division of Waste Management's (DWM) Inactive Hazardous Sites Branch implements the Inactive Hazardous Sites Response Act of 1987 (IHSRA). The IHSRA requires DENR to maintain a catalog of inactive hazardous substance or waste disposal sites. The program has cataloged 2429 chemical spill sites and 677 old unlined landfills. Of these, 483 sites now have all work completed and are assigned "No Further Action" status. Eighteen completed all work and were assigned "No Further Action" status in FY 2012-13. Table 2, on page 3, provides a list of those sites. Table 1, on page 2, provides a list of sites added to that inventory in FY2012-13. A total of 35 new sites were added this past fiscal year.

N.C.G.S. 130A-310.2 requires DWM to prioritize sites cataloged in the Inactive Hazardous Sites Inventory based on the threat to public health and the environment. Sites are first cataloged in the "Evaluations Pending" category of the Inactive Hazardous Sites Inventory until DWM ranks the site based on rules found in 15A NCAC 13C .0200. Once ranked, sites are transferred to the Inactive Hazardous Waste Sites Priority List. The priority list is provided in an appendix to this report organized in order of the threat to public health and the environment.

N.C.G.S. 130A-310.10 requires reporting of the location of each inactive hazardous waste disposal site, the type and amount of hazardous substances or waste known or believed to be located at each of these sites, the last action taken at each of these of these sites and the date of the last action. Due to the large numbers of contaminated sites, most of the sites have undergone complete assessments. Appendix B provides the supplemental information to the extent available.

II. SITES THAT MAY OR ARE KNOWN TO REQUIRE USE OF THE INACTIVE HAZARDOUS SITES CLEANUP FUND

Purpose of the Fund

The Inactive Hazardous Sites Cleanup Fund is used to: (1) address imminent hazard sites; (2) pay for assessment and cleanup when responsible parties do not comply with orders to clean up sites; (3) pay for assessment and cleanup of sites without financially-viable responsible parties (orphan sites); and (4) pay for preparation of a notice of Inactive Hazardous Substance or Waste Disposal Site if the owner does not comply with orders to record a notice. When a financially viable responsible party exists, the state must attempt to recover its expenditures from the responsible party.

The Inactive Hazardous Waste Sites Priority List helps determine priorities for cleanup. Responsible parties for top priority sites are encouraged to voluntarily clean up their sites. When a responsible party does not comply with a request and subsequent order to clean up a site, the state must perform the cleanup using the Inactive Hazardous Sites Cleanup Fund. The demand for state funds to conduct site cleanups depends on two factors: (1) how often responsible parties refuse to comply with orders to conduct cleanup and (2) the number of sites that lack financially viable responsible parties.

The statute requires that the program report the list of sites known to require funds and the list of sites suspected to require funds for cleanup. Determining whether a responsible party exists (and thus, whether state funds will be needed for assessment and cleanup) is often a complex and lengthy process. It is also difficult to keep this information updated as owners and operators of the facilities change over time. To avoid the need to update the information several times, DWM performs responsible party research when a site is next in priority for action.

Orphan Chemical Sites

The Inactive Hazardous Sites Cleanup Fund was used to address several sites this year. A summary of the work is provided in Table 3.

Table 3. Summary of Inactive Hazardous Sites Cleanup Fund Expenditures FY2012-13

<i>Site Name</i>	<i>City/County</i>	<i>Activity</i>	<i>FY 2012-13 Fund Expenditure</i>
Alkalai Screen Printing	Wilmington/ New Hanover	Threatened potable wells at a business park sampled due to printing ink contamination. Wells tested.	\$1,747
Anaconda Road Sites	Tarboro/ Edgecombe	Threatened residential water supply wells in an area of chlorinated solvent contamination in groundwater. DWM's contractor sampled monitoring wells and water supply wells to try to identify sources and threats. Four cataloged sites in immediate area: Ansell Healthcare, Baily Site, Polylok, and Superior Essex.	\$59,015 (\$5,866 from Polylok bankruptcy funds)

<i>Site Name</i>	<i>City/County</i>	<i>Activity</i>	<i>FY 2012-13 Fund Expenditure</i>
Boyette Property	Wilson/ Wilson	Groundwater contamination in residential area with water supply wells. DWM had its contractor investigate soil and groundwater contamination in the area.	\$12,845
Breckenwood Subdivision	Pleasant Garden/ Guilford	Maintenance of a treatment system installed on a contaminated residential well.	\$428
Busick Road	Reidsville/ Rockingham	Maintenance of a treatment system installed on a contaminated residential well.	\$1,295
Cheesman Property	Rockwell/ Cabarrus	Lead contaminated soils on residential property from battery plate recycling/dumping. Contaminated soil removal continued from previous fiscal year. Site now assigned No Further Action status.	\$4,177
Christian Creek PCE	Swannanoa/ Buncombe	Bottled water followed by connection to city service made on a contaminated residential water supply well.	\$3,481
Crowder's Mountain State Park	Gastonia/ Gaston	DWM's contractor excavated more than 1,000 cubic yards of soil containing hazardous waste and removed 50 drums in FY 2009-10. The Inactive Hazardous Sites Cleanup Fund had insufficient revenue to complete the removal because the volume was discovered to be much larger than originally estimated. The U.S. EPA completed the soil and drum removal work by excavating more than 150 drums and an additional 1,000 cubic yards of contaminated soil. The surrounding water supply wells for several residents all tested clean at the time. In June 2011, DWM's contractor initiated a groundwater investigation at the site. Toluene was found in groundwater in excess of state standards. Additional groundwater investigation and sampling of water supply wells was conducted in FY 2012-13. Low levels of trichloroethene found in two water supply wells and not found at the site. Additional monitoring planned.	\$32,620
Durwood Grocery	Willard/ Pender	Very elevated groundwater contamination in a residential area. Vapor testing conducted to determine if structural vapor intrusion potential existed for residences.	\$5,898

<i>Site Name</i>	<i>City/County</i>	<i>Activity</i>	<i>FY 2012-13 Fund Expenditure</i>
G&B/Farmer Property	Scotland Neck/ Halifax	Contaminated soils from a wood treating operation with residence on property. Contaminated soil removal work continued from last fiscal year. Site now assigned No Further Action status.	\$4,248
Paziuk Warehouse	Wilmington/ New Hanover	Assessment to attempt to determine source of groundwater contamination continued into FY2012-13.	\$6,790
Priddy Property	Lawsonville/ Stokes	Maintenance of a treatment system installed on a contaminated residential well.	\$300
Pender Plating	Burgaw/ Pender	High levels of chromium in soil and groundwater on abandoned property adjoining a residential area. Sampling conducted to delineate problem. Work continued from last fiscal year. DWM is seeking U.S. EPA assistance on conducting a removal of contaminated soils.	\$6,497
Phoenix Recycling	Havelock/ Craven	Multiple phases of assessment were conducted by DWM's contractor in last two years. Arsenic, chromium and manganese were above state groundwater standards on the site and localized arsenic contamination is present in soils. The site is an abandoned recycling operation near a school and some residences, with occasional access by trespassers. Levels present in soils do not exceed levels safe for trespassers and drinking water wells in the area all tested clean. Additional testing of arsenic and metals was conducted indicating no off-property migration is expected to occur.	\$3,292
Primrose Avenue PCE	Charlotte/ Mecklenburg	Very elevated groundwater contamination in a residential area. Testing conducted to determine structural vapor intrusion for homes in the area. Homes found to be safe.	\$35,867
Rochelle Street Wells	Durham/ Durham	Groundwater contamination in residential area. Assessment to determine the nature and extent of contamination in residential area continued into FY2012-13.	\$842
Seabreeze Road	Wilmington/ New Hanover	Testing of threatened water supply well.	\$1,698
Sherwood Treating	Winston-Salem/ Forsyth	Elevated arsenic contamination in soils on abandoned property. Sampling of soils conducted to characterize extent.	\$11,246

<i>Site Name</i>	<i>City/County</i>	<i>Activity</i>	<i>FY 2012-13 Fund Expenditure</i>
Spectrum Dyed Yarns	Kings Mountain/ Cleveland	Bankrupt textile plant contaminated several residential water supply wells. Some previously connected to public water supply by facility. DWM used bankruptcy funds to connect other homes. Work will continue into next year.	\$18,000
Staley PCE	Staley/ Randolph	Treatment system installed on contaminated residential water supply well.	\$7,662
Stony Hill Road Contamination	Wake Forest/ Wake	DWM sampling of wells in the area revealed contaminated groundwater suspected to be coming from a former circuit board manufacturer had affected numerous residential water supply wells. The U.S.EPA provided alternate water to the homes. DENR conducted a vapor study to determine threats of contaminated vapors entering homes. Results did not find threats. The U.S. EPA and DENR continue to work on the site in getting potential responsible parties to take action on cleanup.	\$33,053
Summit Avenue	Charlotte/ Mecklenburg	Threatened water supply wells sampled.	\$1,661
Taylor Net Dip	Atlantic/ Carteret	Complaint residential property used to dip fishing nets in polyaromatic hydrocarbon solution to prevent decay causing soil contamination. DWM tested soils and groundwater and found contamination was below unrestricted use levels. No further action needed.	\$1,307
Texfi Industries	Fayetteville/ Cumberland	Groundwater contamination on Fayetteville Public Works Commission property which comes in contact with the City of Fayetteville's finished water holding tank. Sampling to characterize the extent of contamination and treatment of solvents in the subsurface has been ongoing. Work at this site has been funded through bankruptcy proceeds and the Inactive Hazardous Sites Cleanup Fund. The General Assembly approved six special appropriations, with the latest for FY2013-14 and totaling \$350,000 to assist in cleanup and monitoring of the site. The widespread contamination and difficulty in treatment and removal of the source material has put cleanup costs in the millions of dollars. Additional hot spot remediation was	\$24,749

<i>Site Name</i>	<i>City/County</i>	<i>Activity</i>	<i>FY 2012-13 Fund Expenditure</i>
		conducted this year. Monitoring will continue with remaining funds.	
Villa Mobile Home Park	Kannapolis/ Cabarrus	Mobile home park with elevated levels of lead in soils from battery casing dumping. After completing sampling to determine the nature and extent of contamination, DWM was able to get the U.S.EPA to conduct the removal of soils with some assistance by DWM. Work has continued from last year.	\$198,134
Woodleaf & Ridge PCE	Salisbury/ Rowan	Maintenance of a treatment system installed on a residential drinking water well contaminated with hazardous substances.	\$421

DWM has also recovered some funds to address specific sites through bankruptcy claims. The following summarizes work activities in FY2012-13 using bankruptcy funds:

- **Chemtura Corporation** – A total of \$3.75 million was recovered for cleanup of the Crompton and Knowles site in Lowell and the Leeson site in Burlington. Work is pending.
- **CMC** - \$925,000 recovered for assessment and cleanup of the Elkin site. Remedial action implemented in FY10-11. Conducting periodic monitoring of groundwater. Funds in the amount of \$278,382 remain for monitoring.
- **CMI** – \$1.25 million, \$750,000 and \$100,000 have been recovered for three CMI sites. These funds have been used to conduct assessment/remediation at three CMI sites in Elkin. \$19,080, \$25,132, and \$32,790 remain, respectively, for each site. Assessment/cleanup activities are ongoing.
- **Collins and Aikman** - \$3,108 recovered for assessment and cleanup for the Graham site in FY2012-13. Work pending.
- **Fuel Systems** - \$98,010 recovered in FY2012-13 for assessment and cleanup of the Kysor site in Charlotte.
- **GM** - \$20,205 recovered in FY2011-12 for the GM Training Center site in Charlotte. Action pending.
- **Lyondell** – A total of \$4,120,121 in four payments and liquidated stock to address four sites: two Cherokee Resources sites in Charlotte, SCM Proctor-Silex in Mount Airy, and SCM Proctor-Silex in Southern Pines. Appropriate distribution of expenditures is being evaluated across these sites based on risk posed and feasibility of remedies.
- **Mark IV** – A total of \$42,738 was recovered for three Dayco Inc sites in Haywood County. Work is pending.
- **Pillowtex** – A total of \$244,800 (\$1,100 in FY 2012-13) has been recovered to address the Fieldcrest Mills site in Spencer and the Cannon Mills site in Kannapolis. Sampling conducted at the Spencer site. Widespread groundwater contamination on property. Cannon Mills site will be addressed through the Pre-Regulatory Landfill program. DWM is evaluating where best to spend remaining \$198,216 in funds.

- **Polylok** - \$5,866 recovered for assessment of the Tarboro site in FY 2012-13. Assessment conducted in conjunction with contamination at three other neighboring sites to determine sources of contamination. Funds depleted.
- **SCM** – \$5.3 million was obtained to address the SCM site in Charlotte. The funds are held in a private trust fund. The trustee contracts the work at DWM’s direction. Work is ongoing.
- **Spectrum Dyed Yarns**- \$121,889 recovered for the Kings Mountain site in FY 2011-12. Funds are being used to connect residences with affected water supply wells to public water service. A total of \$17,442 remained at the end of FY 2012-13. Work is ongoing.
- **Texfi Inc.** – A total of \$941,215 in funds recovered that is being used to remove sources of contamination at the Fayetteville property. A total of \$139,360 remains. Work is continuing.

Pre-Regulatory Landfills

Session Law 2007- 550 established a statewide tax on solid waste disposal, half of which goes to address the hazards posed by landfills that predate federal and state rules on solid waste disposal. The provisions of the bill that relate to the assessment and abatement of contamination at these pre-regulatory landfills went into effect in July 2008. The Division of Waste Management received the first proceeds of the tax in February 2009.

DWM has cataloged a total of 677 unpermitted, unlined landfills. Initial work at each site involved confirming the location, determining the current use of the property, and identifying the use of surrounding property (for example, residential or commercial) to help prioritize the sites for action. That work has been completed. The division then established contracts for contaminant assessment and mitigation of the sites. The nature and extent of the contamination must first be defined through testing. Then a remedy is designed implemented to address the exposure risks. Now that contaminant assessments have been completed at several of the highest risk sites, these sites are moving into remedial action. The division also provides review and approval of assessment work being conducted by local governments and reimburses the cost of that work from the tax proceeds.

In FY 2012-13, DWM completed first phase remedial investigations at five sites. That work involves updating information on location of water supply wells, streams, structures and other potential exposure routes, and conducting assessment needed to determine the perimeter of the waste. DWM completed the second phase of assessment (delineation of the extent of the contamination on the site) at five sites. Contaminant delineation investigations were completed at eight sites. Additionally in FY 2012-13, the number of sites with ongoing work included five sites undergoing first phase investigations, 49 sites undergoing contaminant delineation investigations, nine sites in the remedy design phase, and three undergoing remedial action. All remedial action work was completed at one site. The program also sampled 147 private water supply wells on or near unpermitted landfills and provided alternate water supplies or is maintaining treatment systems on wells for 21 homes with high levels of contamination. Three new sites were screened for program qualification. Of those, one was added to the program catalog. The assessment and cleanup process is a complex one. Aside from dealing with exposure issues caused by contaminated water supplies, contaminated vapors entering buildings, methane gas posing explosion risks and exposed wastes on residential property, extra efforts are

required in many cases on gaining access to the multiple affected properties at each site, in dealing with illegal dumping continuing during investigation and remedial action work and in trying to work with owner's current and planned use of the property.

Cleanup Funds Needed

Currently 330 of the cataloged contaminated sites have no financially-viable responsible party available to pay for contaminant testing and cleanup. Of these, 282 sites are higher risk by being used for residential purposes, having contaminated water supply wells or having a drinking water source located within one-quarter mile of the site. The total number of orphan sites, though, is unknown. Determining whether a responsible party exists (and thus, whether state funds will be needed for assessment and cleanup) is often a complex and lengthy process. It is also difficult to keep this information updated as owners and operators of the facilities change over time. To avoid the need to update the information several times, DWM performs responsible party research when a site is next in priority for action.

Orphan site work can include assessment only, small-to-large soil and waste cleanup, waterline installation or larger groundwater restoration projects. An average cost-per-site was determined by first calculating the average cost for orphan soil cleanup actions conducted by DWM's Inactive Hazardous Sites Branch and averaging that figure with an average site cleanup cost for several state programs, published by the Association of State and Territorial Solid Waste Management Officials, adjusting for inflation. That figure comes to \$739,886 per site. The total cost for cleanup is estimated to be \$208,647,852 for 282 highest risk orphan sites. For all of the 330 orphan sites identified thus far, the total comes to \$244,162,380.

As of July 1, 2013, the balance of the Inactive Hazardous Sites Cleanup Fund was \$456,982. Of this, \$139,360 consists of bankruptcy proceeds dedicated to conducting contaminant source remediation at the Texfi-Fayetteville site. The remaining \$317,622 is currently committed in contracts or pending actions for assessment and cleanup of contaminated sites. A total of \$429,830 in income from all sources was deposited in the fund in FY2012-13

III. NATIONAL PRIORITIES LIST SITES REQUIRING A STATE COST SHARE

National Priorities List (NPL) sites are those hazardous substance or waste disposal sites that are priorities for cleanup under the federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), more commonly known as Superfund. These are sites identified by the U.S. EPA as high priorities for environmental cleanup because of the nature of the contamination and actual or potential threat to human health and the environment. North Carolina has 37 NPL sites.

The NPL includes both sites with financially-viable responsible parties and orphan sites. Cleanup costs are financed either by responsible parties or by a federal trust fund with a state cost share. When the federal trust fund is used, CERCLA requires North Carolina to pay 10 percent of the cleanup cost plus 100 percent of the cost to operate and maintain the remediation system.

Table 4 provides a list of the North Carolina NPL sites and the following information for each site: location, investigation/cleanup status, estimated costs and projected start dates for cleanup. Part I of Table 4, found on page 12, includes those sites where the Federal Trust Fund/North Carolina cost share is required. A summary of North Carolina's cost-share obligations is provided at the end of this part. Part II of Table 4, found on page 14, includes the status of responsible party-funded cleanups.

SUMMARY OF NORTH CAROLINA COST-SHARE REQUIREMENTS (AS OF JUNE 30, 2013)

Estimated total cost of pending/ongoing federal trust fund/N.C. cost-share cleanups (based on signed contracts): (Includes both the federal cost and state's 10 percent cost-share)	\$117,867,049*
--	----------------

N.C.'s 10 percent cost share for pending/ongoing cleanups (based on signed contracts):	\$11,786,705*
--	---------------

Amount of cost share funds distributed in FY2012-13	\$1,434,876
---	-------------

Fund balance:	\$6,455,739
---------------	-------------

Encumbered amount of the fund balance for cost share payments:	\$3,333,272
--	-------------

*This number will increase due to remedial action cost estimates not being available for all sites. Also, other sites may be added to the National Priorities List, which will require a state cost-share. Also, increases in remedial costs from the original state/U.S. EPA contract amounts can occur.

**Date applies to either entire site or operable unit.

IV. RESPONSIBLE PARTY VOLUNTARY SITE REMEDIAL ACTION

When the Inactive Hazardous Sites Branch requests that a person responsible for contamination at a priority site take action to address it, most agree to voluntarily conduct a cleanup. Some responsible parties and owners initiate an approved assessment and/or remedial action on their own. Due to the number of voluntary remediation projects and very limited staff resources, the General Assembly authorized DWM to privatize oversight of voluntary remediation activities at lower-priority sites. DWM continues to provide oversight for assessment and remediation at sites that present more severe public health threats or other concerns.

The privatized portion of the voluntary cleanup program is called the Registered Environmental Consultant (REC) Program. Under this program, a responsible party hires a private consultant to conduct the site assessment and cleanup and to certify that those activities comply with regulations. The REC certification replaces state oversight of the assessment and cleanup. For a firm to qualify as a REC, it must meet certain qualifications. DWM audits a number of the REC projects each year to ensure program integrity. DWM has the authority to sanction an REC where necessary. DWM staff auditors are funded through fees collected from the voluntary participants.

A current list of the 180 sites where assessments and cleanups are underway in accordance with an administrative agreement with the state is provided in Table 5 on the following page. These are a mixture of REC-directed and DWM-directed actions. Table 6, found on page 20, is a list of additional DWM-directed responsible party assessment and cleanup actions not under administrative agreements.

Note: Many other sites are not listed in Tables 5 and 6 where staff are conducting work, including (1) residential properties with contaminated drinking water wells or other contamination and lacking responsible parties, (2) higher priority sites where staff are investigating responsible parties, (3) bankruptcy claims, (4) review of requests for “No Further Action Status,” (5) response to spills, (6) screening of newly discovered sites and (7) responses to public inquiries on sites.

V. IMMINENT HAZARD SITES

DENR and the U.S. EPA are committed to addressing imminent hazard sites when identified. Table 7 provides a list of sites where imminent hazards have been discovered, or where abatement activities have continued, in FY2012-13. Their location, a site description, status and funding source are also provided.

TABLE 7. SUMMARY OF IMMINENT HAZARD SITES

<i>Site</i>	<i>City/ County</i>	<i>Site Description</i>	<i>Status</i>	<i>Funding Source</i>
Aberdeen Fabrics/ R&L Carriers Acid Spill	Aberdeen/Moore	Tri-potassium salts leaked from truck.	Responsible party performed cleanup. No further action planned.	Responsible Party
Aqua America	Denver/Lincoln	900 gallon bleach spill to the ground.	DENR worked with responsible party on directing initial abatement actions and post-excavation sampling. All affected soils removed below regulatory limits.	Responsible Party/State
Bailey Nitrogen	Bailey/Nash	Diesel and liquid fertilizer storage tanks vandalized. Material spilled contaminating surrounding soils.	Contaminated soil removed and tanks repaired.	Responsible Party
Balsam Grove Drums	Balsam Grove/ Transylvania	Caller reported formaldehyde drums next to French Broad river in a state of disrepair or leakage.	DENR coordinated with the county emergency management coordinator who visited the site and found the drums were mislabeled trout food supplement for a trout farm.	NA
Beaufort Co. Health Dept.	Washington/Beaufort	Propylene glycol leak from mechanical lines	Leak repaired and assessment conducted by County. No further action planned.	Beaufort County
Bechmann Technologies	Durham/ Durham	Several residences and other property found to have drinking water wells with contaminants above federal drinking water standards. Source of contamination not known.	U.S. EPA has connected four residences to city service. The U.S. EPA plans no further work. The DENR plans to investigate whether responsible parties can be located.	U.S. EPA
Blackman Warehouse	Selma/Johnston	DENR inspection found approximately 1000 drums and 100 chemical totes dumped on farm property.	The U.S. EPA and the responsible party removed the drums. Work completed October 2012.	Responsible Party/U.S. EPA
Briscoe Apparel	Ramseur/Randolph	Anonymous complaint that company was illegally dumping dyes into septic system and stream.	Claims investigated by County Health Department. No evidence of illegal dumping identified.	Randolph County
Brookshire Trailers	Charlotte/ Mecklenburg	Three semi vans containing 520 drums of chemicals. Some drums have leaked. All the vans have leaked.	The U.S. EPA completed a removal of chemical wastes from the site.	U.S. EPA
600 Capps Hill Mine Rd	Charlotte/ Mecklenburg	Complaint received about waste being buried at church. U.S. EPA requested DENR assistance in the investigation.	DENR and the U.S. EPA conducted an investigation at the site in December 2012. No hazards were found.	State/ U.S. EPA
CPS RoundUp Spill	Princeton/Johnston	Chemical storage tank vandalized. Herbicide spilled contaminating soil in area around tank	Spill contained and contaminated soil removed. Confirmation samples collected. No further action planned.	Responsible Party
Crestwood	Mocksville/Davie	Bankrupt facility with vegetable	DENR requested the U.S. EPA investigate	U.S.EPA

Farms		oil release. DENR inspection found abandoned drums of sulfuric acid and caustics and other chemical storage vessels that could potentially overflow.	the site. The U.S. EPA is conducting a contaminant assessment of the site.	
Crowders Mountain State Park	Gastonia/ Gaston	Large disposal of drummed wastes located on residential and park property.	DENR removed some of the drums. Due to large numbers, DENR did not have the resources to remove all of the drums and contaminated soils. The U.S. EPA agreed to take over the drum/contaminated soil removal. All of the wastes and contaminated soils have been removed.	U.S. EPA/State
Daimler Trucks North America	Cleveland/Rowan	Spill of 9663 gallons of ethylene glycol at the facility.	Facility and their contractor conducted multiple soil removal and sampling events to complete the work.	Responsible Party
Derringer Drive Water Supply Wells	Marshall/ Madison	Two newly installed water supply wells found to be contaminated with chlorinated solvents.	DENR Public Water Supply Section made efforts to ensure the wells were not connected into the municipal water supply system. DENR and U.S. EPA sampled supply wells in the area. Source of contamination unknown at this point.	U.S. EPA/State
Dipel Spill	Weeksville/Pasquotank	2.5 gallon spill of Dipel EE along road.	US Department of Agriculture handled cleanup with responsible party.	Responsible Party
Domtar	Plymouth/ Martin	A 50 gallon alum spill.(pH 1.7) contaminated soil. Responsible party has also had previous spills.	Responsible party neutralized spill and removed contaminated soil.	Responsible Party
Eden Odorant Spill	Eden/Rockingham	Ethyl mercaptan spill from an underground storage tank meter station	Responsible party performed cleanup. Complete documentation not provided and some contamination may remain on the site. Site cataloged for further work later.	Responsible Party
Franklin Pesticides Site	Franklin/Macon	A house fire allegedly released pesticides stored in the basement of the house into the supply well of the residence.	DENR staff sampled the supply well and found no impacts.	State
I-26 Sulfuric Acid Spill	Hendersonville/ Henderson	Tanker truck wreck released sulfuric acid onto the Green River Bridge.	No discernible impact to surface waters but affected bridge structure and soils. DOT oversaw structural repair of bridge. Contaminated soils were excavated. Confirmation sampling found some of the remaining soils required additional neutralization and/or excavation. Additional response actions taken. Second confirmation samples documented remaining soils below remedial goals. DENR conducted inspection and monitoring activities during work.	Responsible Party
Kapstone Sulfuric Acid Spill	Roanoke Rapids/Halifax	Sulfuric acid spill in rail yard of facility. Material contained by catch basins.	Material contained and removed.	Responsible Party
Patterson Ave Battery Dump	Concord/ Cabarrus	Soil contaminated with battery casing chips and high levels of lead found in residential area.	DENR is working with the U.S. EPA to conduct a removal of the contaminated soils.	U.S. EPA
Pender Plating	Burgaw/ Pender	High levels of chromium in soil and groundwater in a residential area.	DENR completed assessment of contamination in FY11/12. U.S. EPA considering partial removal of contaminated soils.	State
Plaza	Charlotte/ Mecklenburg	Former General Wood Preserving site reported by County as now being used as residential property.	The State, County and U.S. EPA conducted testing of surface water, stream sediment, a supply well and soil samples. Initial samples found arsenic present in soils. Additional testing in relation to natural background concentrations found no removal action necessary.	State/ Mecklenburg County/ U.S. EPA

Primrose Ave PCE Contamination	Charlotte/ Mecklenburg	High concentrations of PCE found in groundwater in a low income residential area.	Water supply well survey and testing as well as vapor intrusion investigations were performed in the residential community. No wells were impacted. Vapor intrusion potential study for homes in the area did not find elevated hazards.	State
Priddy Property, Winifred	Lawsonville/ Stokes	Residential water supply well contaminated with chlorinated solvents.	DENR installed treatment systems on affected wells.	State
P & W Waste Oil	Leland/Brunswick	Waste oil collection facility. Spills of waste oil. U.S. EPA sampling found PCBs.	The U.S. EPA is conducting an assessment of the facility to determine the degree of the hazard.	U.S. EPA
R&L Carriers UN3244 Acid Spill	Statesville/Iredell	A damaged 5 gallon pail of corrosive liquid in a trailer resulted in a leak onto pavement outside the trailer.	A cleanup contractor was hired by the responsible party, R&L Carriers, to remove the damaged container and cleanup the spilled material. It was determined that none of the spilled material moved from the pavement to soils.	Responsible Party
R & L Carriers	Mebane/Alamance	Spill of UN 1987 Alcohol	Spill contained and remediated.	Responsible Party
Springs Road Go Cart Track	Conover/ Catawba	Pond in residential area with creosote-like material.	Elevated levels of volatile and semi-volatile organic compounds in surface water. U.S. EPA removed contaminated soil completing the immediate removal action and is evaluating the site for further remedial action as a NPL site due to proximity of water supply wells in the area.	U.S. EPA
Stoller Chemical	Severn/ Northampton	Former fertilizer formulating company. Hazardous substances left behind after bankruptcy.	Both DENR and the U.S. EPA are seeking site access with plans for removal of wastes.	U.S. EPA/State
Stony Hill Road Contamination	Wake Forest/Wake	Widespread groundwater contamination in residential area caused by former circuit board assembly business. Two probable source areas.	DENR sampled local water supply wells as part of priority site investigation. Discovery of large plume led to U.S. EPA connecting affected residents to community water. U.S. EPA and DENR negotiating with responsible parties. DENR performed vapor intrusion investigation on multiple local residences. DENR investigating extent of groundwater contamination and preparing proposal for NPL nomination.	U.S. EPA/State
Texfi Industries	Fayetteville/ Cumberland	Chlorinated solvent groundwater contaminant plume has migrated from a former textile mill to the city of Fayetteville's water plant property. The city's finished drinking water holding tank sits in contact with contaminated groundwater. The city's drinking water intakes on the Cape Fear River are 450 feet downstream from the Texfi property line.	DENR constructed a subsurface barrier wall in 2001 to prevent further contaminant migration to the holding tank area and installed extraction wells to remove contaminated groundwater in the area of the tank. Concentrations have been reduced. DENR has received special appropriations to continue monitoring of groundwater and the remedy. DENR is addressing the source area through use of funds from a bankruptcy settlement. Source treatment is underway. Extensive source contamination into clay formations at the site will make source removal/treatment extremely expensive. Additional source treatment of using HRC – X injectant conducted near finished drinking water holding tank in FY12/13. Follow-up sampling of injectant area noted concentrations in groundwater decreased. June 2013 investigation in ditch near Texfi and PWC found high PCE levels in soil. Plans in 2013 -2014 to remediate soils in ditch.	State
Trawick Road	Raleigh/Wake	Solvent and pesticide contamination discovered in water supply wells	DENR sampling area to determine extent and severity of contamination.	State

Ulah Battery	Asheboro/ Randolph	Battery dump with lead contaminated soils in a residential area.	Multiple cleanup actions conducted by both DENR and the U.S. EPA in the past. A minor amount of contamination remains on adjoining furniture plant property.	State/ U.S. EPA
Villa Mobile Home Park	Kannapolis/ Cabarrus	Lead - contaminated soils in a residential area due to battery casing disposal.	DENR and the U.S. EPA have conducted a removal of contaminated soils and performed a restoration of excavated area to allow unimpeded flow of surface water through the stream. Additional surface water drainage issues remain present upstream of the removal area but are the responsibility of the land owner.	State/ U.S. EPA
Vitran Express	Charlotte/ Mecklenburg	A 5 gallon container of sulfuric acid was knocked off a storage pallet and caused a release of material onto concrete and asphalt.	The released material was captured and over packed by a response contractor for off-site disposal at a permitted facility. No impact to soil or water was observed.	Responsible Party
Watts, Levi Property	Tabor City/ Columbus	Residential area contaminated with lead from battery casing disposal.	DENR conducted removal of contaminated soils. Several properties complete. One owner refuses to allow cleanup. A notice will be placed on property deed after some additional assessment.	State

**VI. SUMMARY OF THE INACTIVE HAZARDOUS SITES CLEANUP FUND AND
NATIONAL PRIORITIES LIST COST SHARE FUND**

Inactive Hazardous Sites Cleanup Fund

Fund 6372

FY 2012-13

Beginning Cash Balance	\$539,772
Deposits (FY2012-13)	
Interest	\$2,217
Deposits from Scrap Tire Account	\$415,639
Bankruptcy proceeds (Polylok and Collins & Aikman)	\$8,974
No Further Action review fees	\$3,000
Total Deposits	\$429,830
Expenditures (FY2012-13)	
Texfi Industries-Fayetteville source remediation contract	\$24,749
Orphan priority site sampling/removal contract/alternate water supplies	\$487,871
Total Expenditures	\$512,620
Ending Cash Balance	\$456,982
Obligations (Contract encumbrances-actual and pending)	
Texfi source remediation contract	\$139,360
Orphan priority site sampling/removal commitments	\$400,412
Total Current Obligations	\$456,982
Current Effective Cash Balance	\$0
Orphan Cleanup Cost Requirements (see Chapter II for more details)	
Funds needed for 282 higher priority orphan sites identified	\$208,647,352
Funds needed for all orphan sites thus identified (330 sites)	\$244,162,380

Additional Funds from Bankruptcy Proceedings

DWM has recovered funds for assessment and remediation of sites through bankruptcy proceedings. Payments out of a bankruptcy proceeding must go into a special trust account to be used only for the specific sites identified in the bankruptcy settlement agreement. Others are held in private escrow accounts.

Funds recovered through bankruptcy proceedings in FY2012-13 include:

Collins and Aikman - \$3108 for one site (deposited in Fund 6372).

Kysor Fuel Systems --\$98,010 for one site.

Lyondell – An additional \$410,699 received for four sites (see below).

Pillowtex – An additional \$1,100 recovered in FY2012-13 for two sites (see below).

Polylok - \$5,866 for one site (deposited in Fund 6372).

Previous bankruptcy claims where funds remain and work is pending include:

CMC--\$925,000 for one site. \$284,984 remains.

CMI -- \$1.25 million, \$750,000 and \$100,000 recovered for three CMI sites. \$19,080, \$25,132 and \$32,790 remain, respectively, in each account.

Chemtura -- \$3.75 million for two sites.

Gilbert & Bennett--\$87,912 for one site.

GM -- \$20,205 for one site.

Lyondell -- \$4,120,112 for four sites

Mark IV -- \$42,738 for three sites.

Pillowtex -- \$244,800 for two sites. \$198,216 remains.

SCM -- \$5.3 million for the SCM Corp site in Charlotte.

Spectrum -- \$121,889 for one site. \$17,442 remains.

Texfi -- \$941,216 for one site. \$139,360 remains.

Revenue Dedicated to the Pre-Regulatory Landfills*
FY 2012-13

Beginning Cash Balance	\$25,470,837
Deposits (FY2012-13)	
Tax	\$8,729,053
Interest	\$121,537
Total Deposits	\$8,850,590
Expenditures (FY2012-13)	
Contracts	\$3,435,477
Operating budget	\$837,694
Total Expenditures	\$4,273,171
Ending Cash Balance	\$30,048,256
Total Current Contract and Local Government Obligations (Encumbrances not yet Paid)	\$24,264,631
Current Effective Cash Balance	\$5,783,625

* A portion of a solid waste disposal tax established by the legislature is dedicated to the Pre-Regulatory Landfill Program. Funds are deposited into the Inactive Hazardous Sites Cleanup Fund. Funds are used to contract assessment and cleanup work at uncontrolled pre-regulatory landfills and to fund state staff to implement the program. The first years of the program required locating the sites, determining exposure, and conducting contaminant delineation testing. The program is now moving into remedial action on the highest risk sites while continuing to conduct contaminant delineation testing at additional high risk sites.

**Revenue Dedicated to Support Special Technical Review of Sites Applying for Risk-Based
Remediation Pursuant to N.C.G.S. 130A-310.65 – 310.77**
FY2012-13

Number Sites Applying for Program:	3
Number of Total Acres Covered:	15
Total Fees Collected:	\$67,500
Interest Earned:	\$160
Funds Expended:	\$0
Balance:	\$67,660

**National Priorities List Cost-Share Fund
Fund 6375
FY 2012-13**

Estimated cost of federal trust fund/N.C. cost share cleanups	\$117,867,049
North Carolina's 10 percent cost share for pending/ongoing cleanups	\$11,786,705*
Total fund disbursements for cost-share payments	\$8,453,433
Current balance	\$6,455,739
Encumbered amount of the fund balance for cost-share payments	\$3,333,272
Effective Cash Balance	\$3,122,467*

- * Cleanup cost estimates are not yet available for all sites. The cost share figure will increase as cost estimates become available. Also, other sites may be added to the National Priorities List that will require a state cost share. This account is also used to pay for the state's operation and maintenance obligations at these sites. Aside from interest, the fund has no continuing source of income.

APPENDIX B. INACTIVE HAZARDOUS SITES INVENTORY – SITE STATUS
N.C.G.S. 130A-310.10(a1) Supplemental Reporting

Note: Upon discovery, sites are added to the Evaluations Pending or Pollutant Only Site-Open categories of the Inactive Hazardous Sites Inventory. As resources are available, the sites are ranked and transferred to the Sites Priority List. If a party volunteers to clean up a site and enters into an agreement with the Division, the site is then transferred to the Voluntary Action category. Once cleanup is complete, the site is transferred to one of the "No Further Action" categories (NFAs). Information on contaminants and contaminated media has only been compiled for the Sites Priority List. That information can be found in Appendix A. Other information on sites activities this reporting year can be found in sections II -V of that report. Location information on the pre-1983 landfills can be found on the Division’s website. Additional site-specific information can be provided on request.
