The Honorable Mark Hollo, Co-Chair
Appropriations Subcommittee on Health
And Human Services
Room 639, Legislative Office Building
Raleigh, NC 27603

Dear Representatives Avila, Brisson and Hollo:

Pursuant to North Carolina General Statute 143B-152.15, please find enclosed the Family Resource Center Grant Program Annual Report for State Fiscal Year 2012-2013. This report also covers the federally funded Family Support Programs.

This report covers two models of Family Support service, Family Resource Centers (FRC) and Respite programs that were funded by the Division of Social Services (DSS) during state fiscal year (SFY) 2012-2013. Family Support programs were funded to develop local family-centered services aimed at helping families provide safe and stable environments for the healthy development of children. During the report period, forty two Family Support programs and nine Respite programs were fully or partially funded during this reporting year. They served 6,205 duplicated participants, meaning that some participants were counted more than once because they received multiple services. Four thousand eight hundred six (4,806) individuals from 2,924 families participated in targeted, ongoing activities for which outcome assessments were completed. One thousand one hundred and fifty (1,150) families had multiple family members participating in such activities.

We appreciate the opportunity to share this report with you and look forward to responding to any questions you may have about this report. If you have questions about the report, please contact Wayne Black, Director of the Division of Social Services. He can be reached at (919) 527-6335 or via e-mail at Wayne.Black@dhhs.nc.gov.

Executive Summary

Pursuant to North Carolina General Statute 143B-152.15, this report presents evaluation data and findings for the Family Resource Center Grant Program administered by the North Carolina Department of Health and Human Services, Division of Social Services. This report provides evaluation results of two community-based child abuse and neglect prevention models - Family Support and Respite Programs. Funding for these programs comes from federal Promoting Safe and Stable Families, Subpart II of the Social Security Act and federal Community-Based Child Abuse Prevention (CBCAP) monies. The information in this report covers the period July 1, 2012 to June 30, 2013.

Forty two (42) Family Support programs and nine (9) Respite programs were fully or partially funded during this reporting year. Combined, these programs served 6,205 duplicated participants.¹ Four thousand eight hundred six (4,806) unduplicated individuals from 2,924 families participated in targeted, ongoing activities for which outcome assessments were completed. One thousand one hundred fifty (1,150) families had multiple family members participating in such activities.

The North Carolina Family Support Outcome Scale (NCFSES) is used to measure participants' progress in meeting outcome goals related to service areas. NCFSES assessments demonstrate that Family Support and Respite programs are meeting goals to help children and families develop skills to strengthen relationships, increase family functioning, promote child well-being, and prevent child abuse and neglect.

¹ Participants were counted more than once because they received multiple services.

2013 ANNUAL REPORT

Pursuant to G.S. 143B-152.15, the North Carolina Department of Health and Human Services (DHHS) submits the Family Resource Center Grant Program annual report for State Fiscal Year 2012-2013. This report is submitted to the Senate Appropriations Committee on Health and Human Services, the House of Representatives Appropriations Subcommittee on Health and Human Services, and the Fiscal Research Division and provides a description of the program and the results of the program evaluation.

Description of the Family Resource Center Grant Program

The Family Resource Center Grant Program is comprised of community-based Family Support and Respite services. Funding for these services is authorized by the federal Promoting Safe and Stable Families, Subpart II (P.L. 112-34) and the federal Community Based Child Abuse Prevention (CBCAP, P.L. 111-320). The purpose of these funds is develop, operate, expand, and enhance community-based, prevention-focused programs and activities designed to strengthen and support families to prevent child abuse and neglect

Family Support and Respite services support community-based evidence-based, evidence-informed programs and practices that provide outreach, support and services to individuals and families identified as being at-risk of compromised health and safety to eliminate or reduce those risks by promoting protective factors that strengthen and support families.

Family Support Programs

Family Support programs are designed to prevent involvement in child protective services. By targeting a wide range of needs within the family, Family Support programs are able to help the individual family members, strengthen the family as a whole, and increase community involvement. The expectation is for a reciprocal effect, stronger communities then fostering strong families and protecting children.

NCDSS funding requires each Family Support program to tailor services to meet the needs of the community, through the delivery of evidence-based, evidence-informed programs. Programs in one area of the state may look quite different from those in another area because of the differing needs in the two communities

Respite Programs

Similar to Family Support, agencies delivering Respite programming are required to deliver services based on identified community need. Emerging research has demonstrated respite is an essential component of a comprehensive continuum of child abuse and neglect prevention programming. Respite programming is short-term and is intended to keep families together and children to remain at home and in the community. Respite service models include, but are not limited to:

- In-home respite with trained professionals or volunteer providers;
- Out-of-home respite (child care centers, schools, family care home, foster care homes, hospitals, or specific respite facility) with trained professionals or volunteer providers;
- Periodic respite (churches, community centers or other community-based organizations that support periodic respite events);
- Summer camps, recreational, or after-school programs.

Respite programs may utilize a voucher system, where participants are given vouchers for respite providers; some operate facilities where children may stay for a predetermined amount of time; while

others offer structured activities for children to provide parents a few hours on their own. Respite services provide a much-needed break for parents and caregivers, particularly parents of children with special needs. Respite services are inexpensive and are an investment that can reduce family stress, mitigating the risk of child abuse and neglect.

During SFY 2012-2013, NCDSS funded forty two (42) Family Support programs and nine (9) Respite programs. (See Appendix A for the Statewide Distribution of Programs by model of service).

Program Evaluation

Pursuant to 143B-152.15(a), NCDSS utilizes the North Carolina Family Support Database to assess the effectiveness of Family Support and Respite program services. This database was developed in conjunction with the Human Service Smart Agency at the University of North Carolina at Chapel Hill School of Social Work, housed and maintained by Appalachian State University's Social Work Program. The database is now maintained by the DHHS' Division of Information Resource Management (DIRM).

NCDSS requires providers of Family Support and Respite services to input data monthly. This data includes the following process and outcome metrics and measures:

- Type of services provided by the Family Support or Respite Program
- Demographic information about the participants of each activity
- North Carolina Family Support Outcome Scales (NCFSOS)

Participant Demographics and Services Summary

The following outputs are reported for SFY 2012-2013:

- 6,205 participants served
- 4,806 individuals from 2,924 families participated in targeted, ongoing activities (See Table 1).
- Of these 4,806 persons, 965 participated in two or more activities.
- 1,150 families had more than one family member participate in an activity where NCFSOS outcome assessments were completed.

Table 1 – Summary of Individual Statistics Activities Statewide

Number of Activities	359
Average Length (in days)	139.3
Average Duration of Sessions (in hours)	3
Participants (duplicated)	6,205
Participants (unduplicated)	4,806
Persons Participating in More Than One Activity	965
Number of Families	2,924
Families Having More than one Participant	1,150

Table 2 provides demographic information based on unduplicated counts regarding participant age, ethnicity, and gender. To summarize:

- The largest group served was the European-American with 2,394 individuals (49.8%).
- 34% of participants were children under the age of 13

- 40.1% were 18 or younger.
- Slightly more than half (52.0%) were between the ages of 19 and 49
- 62.6% of the participants were female.

Table 2² – Family Support/Respite Program Participant Demographics (Unduplicated Count)

Age of Participants	Individual Activities	
	Number	Percent
0 – 5	925	19.2%
6 – 12	711	14.8%
13 – 18	295	6.1%
19 – 29	948	19.7%
30 – 39	1,024	21.3%
40 – 49	530	11%
50 – 59	242	5%
60+	131	2.7%
TOTAL	4,806	100.00%
Race of Participants	Individual Activities	
	Number	Percent
African American	1,636	34%
Asian American	26	0.5%
European American (Caucasian)	2,394	49.8%
Hispanic	475	9.9%
Native American	160	3.3%
Other	115	2.4%
TOTAL	4,806	100.00%
Gender of Participants	Individual Activities	
	Number	Percent
Female	3,009	62.6%
Male	1,797	37.4%
TOTAL	4,806	100.00%

Table 3 identifies the type of service delivered through activities and the unit(s) of service provided for each type. The predominate units of service were devoted to Parent/Child Participation (30.1%), Parent Education (20%) and Child Development (16.4%), which is consistent with the NCDSS requirement that Family Support Programs provide evidence-based/evidence-informed programs and practices to families within their communities. Type of service is counted, rather than participants, to report a more accurate portrayal of the total services provided through each activity. An individual attending a parenting class eight (8) times is recorded as receiving eight (8) units of service. Using this methodology, activities that

² Percentages shown in the tables have been rounded to a single decimal place and therefore may not add up to exactly 100%.

were more long term and required more resources appear with more units of service than shorter duration activities with similar numbers of attendees.

Table 3 – Family Support/Respite Program Service Types/Participant Percentages

Service Type	Individual Activities	
	Number	Percent
Adoption Promotion/ Support	6,230	12.6%
Child Development	8,126	16.4%
Fatherhood	943	1.9%
Parent Education	9,869	20%
Parent Support Group	4,410	8.9%
Parent/Child Participation	14,855	30.1%
Respite Care	4,985	10.1%
TOTAL	49,418	100.00%

North Carolina Family Support Outcome Scale

The North Carolina Family Support Outcome Scale (NCFSOS) is a strength-based assessment tool developed for measuring outcomes across the wide range of services offered by Family Support and Respite programs. It has been incorporated into the on-line database and is the assessment tool used by all NCDSS funded Family Support and Respite programs. A NCFSOS is completed with all participants to measure their progress relative to the target goal of the activity. All outcomes are tied to the goals and outcomes mandated for these programs, either through legislation or NCDSS policy. The NCFSOS is divided into four domains, each of which measures several broad areas through subscales:

- Overall Child Functioning
- Overall Parent Functioning
- Overall Family Functioning
- Family's Relationship to the Community

Because there is a large array of potential services, each item in the scale addresses a very complex issue with a single global phrase. A NCFSOS outcome assessment is completed for each participant. It is important to note, if an individual participates in a Nurturing Parenting class and a Fathering program, that individual will have separate assessments for each of those activities, as the targeted outcomes for each class are different. Family Support and Respite program staff complete the intake assessment as soon after the beginning of the activity as is practical and only those subscales that are directly related to the outcome goals of the activity being provided are rated. (See Appendix B for the NCFSOS tool).

Results

Tables 4 through 8 show the results for all domains covered by the NCFSOS. For each subscale, the table indicates the total number of participants who were evaluated using that particular subscale, and the number and percentage of participants achieving each level of change. By assigning a value of "1" to the rating "weak strength" and a value of "5" to "clear strength", movement along this continuum is shown in the results of the NCFSOS. Moving 'backward' (from a solid strength to a mild strength, for example) would result in an assessment score of "less than or equal to -1", while moving 'forward' would result score of +1, +2, or +3 or more, depending on the distance moved. A score of zero indicates that there was

no change in the rating from intake to closure. It is important to note that a score of "0", or no movement, does not necessarily indicate any weaknesses in the family interactions. If a participant is rated in the beginning with strengths in certain areas, and the subscales addressing those areas were rated accordingly at intake, there may not be a change in those areas at closure. This may be due to the Family Support and Respite program and participant concentrating their efforts in other areas, where the individual was not as strong. A score of "0" might also indicate a stabilization of the participant issues related to the subscale. This occurrence would generally be characterized as positive.

The results of the NCFSSOS assessments clearly indicate that Family Support and Respite programs help both individual family members and families as a whole develop skills to strengthen their relationships and increase family functioning. All domains showed that participants generally enhanced their functioning or retained previously effective levels of functioning. Few participants overall saw a decrease in functioning.

In the Overall Child Functioning Domain (Table 4), all domains showed an increase by at least one-third of participants. Over one-half reflected an increase in Child's Behavior (52.42%), and just less than one-half showed increases in School Performance (47.96%) and Child's Developmental Status (48.88%).

Table 4 – NCFSSOS Outcome Assessments

Level of Change per Participant – Overall Child Functioning

Overall Child Functioning	Less than or equal to -1	0	1	2	Greater than or equal to 3	Number of Participants evaluated
Child's Developmental Status	0.23% 6	50.89% 1,315	35.53% 918	11.03% 285	2.32% 60	2,584
Child's Physical Health	0.42% 10	60.77% 1,430	29.28% 689	8.8% 207	0.72% 17	2,353
Child's Mental Health	0.43% 9	61.28% 1,282	31.12% 651	6.93% 145	0.24% 5	2,092
Child's Behavior	0.83% 20	46.75% 1,129	36.85% 890	12.05% 291	3.52% 85	2,415
Child's School Performance	0.53% 6	51.51% 580	34.64% 390	11.37% 128	1.95% 22	1,126
Teenager's Movement Towards self-sufficiency	0.00% 0	60.14% 258	32.87% 141	6.06% 26	0.93% 4	429

In the Overall Parent Functioning Domain (Table 5), over one-half of parents increased their Parenting Skills, Knowledge, and Attitudes (54.5%) and their Sense of Support in Parenting Role (53.22%). Increased knowledge and confidence, as well as support, can relieve the stress and anxiety of parenting, and lead to a decrease in child maltreatment. Over forty percent of the participants increased their Participation in Community Groups and Activities (45.54%) which can provide the parent with a support base within their community.

Table 5 – NCFSES Outcome Assessments
Level of Change per Participant – Overall Parent Functioning

Overall Parent Functioning	Less than or equal to -1	0	1	2	Greater than or equal to 3	Number of Participants evaluated
Parenting skills, knowledge, and attitudes	0.15% 5	45.35% 1,552	36.15% 1,237	14.64% 501	3.71% 127	3,422
Parent's sense of support in parenting role	0.54% 17	46.25% 1,466	36.25% 1,149	12.84% 407	4.13% 131	3,170
Parent's physical health	0.65% 18	72.03% 1,986	20.67% 570	5.33% 147	1.31% 36	2,757
Parent's mental health	0.69% 19	67.63% 1,857	22.07% 606	8.19% 225	1.42% 39	2,746
Parent's educational attainment	0.39% 11	74.26% 2,089	18.73% 527	5.26% 148	1.35% 38	2,813
Parent's leadership skills	0.72% 21	57.58% 1,682	28.76% 840	9.96% 291	2.98% 87	2,921
Parent's participation in community groups and activities	0.86% 23	53.6% 1,435	30.37% 813	10.87% 291	4.3% 115	2,677

In the Overall Family Functioning Domain (Table 6), programs are meeting the mandate to improve parent/child interactions. Over one-half (50.87%) of participants showed increases in Parent-child Interactions/Parent-child Relationships, increases in Family Communication (55.55%), and increases in Family Cohesiveness and Mutual Support (51.92%). Over forty percent of participants increased their Informal Social Support (42.5%), Physical, Learning and Emotional Environments in the Home (41.64%) and their Ability to Solve Family Disputes without Violence (40.44%).

Table 6 – NCFSS Outcome Assessments
Level of Change per Participant – Overall Family Functioning

Overall Family Functioning	Less than or equal to -1	0	1	2	Greater than or equal to 3	Number of Participants evaluated
Parent-child interactions, parent-child relationship	0.44% 12	48.69% 1,339	33.38% 918	12.98% 357	4.51% 124	2,750
Family Communication	0.36% 8	44.09% 985	37.24% 832	13.83% 309	4.48% 100	2,234
Family cohesiveness, mutual support	0.23% 5	47.85% 1,022	35.49% 758	11.47% 245	4.96% 106	2,136
Physical, learning, emotional environments at home	0.48% 8	57.88% 959	30.78% 510	9.23% 153	1.63% 27	1,657
Informal social support	0.59% 11	56.91% 1,058	31.04% 577	9.58% 178	1.88% 35	1,859
Family economic self-sufficiency	0.87% 15	70.61% 1,223	21.82% 378	5.48% 95	1.21% 21	1,732
Ability to meet basic economic needs	0.76% 13	73.16% 1,254	21.35% 366	4.2% 72	0.53% 9	1,714
Ability to solve family disputes without violence	1.16% 20	58.41% 1,011	30.04% 520	9.3% 161	1.1% 19	1,731

Programs have also been successful in the domain of Families' Relationships to the Community (Table 7). The greatest increase was in Knowledge of Available Human Services (58.85%) and Linkages between Family and Community Resources (59.17%). Nearly one-half of participants exhibited increases in Relations between Family and Human Services Staff (48.21%). The more positive the relationship between family members and service providers, the more likely the family is to get the assistance they need. Having an existing relationship with community services may prevent the family's situation from deteriorating, or lead the family to seek additional help prior to becoming part of a Child Protective Services report.

Table 7 – NCFSSOS Outcome Assessments
Level of Change per Participant – Family's Relationship to the Community

Family's Relationship to the Community	Less than or equal to -1	0	1	2	Greater than or equal to 3	Number of Participants evaluated
Family's knowledge of available human services	0.09% 2	41.06% 930	34.83% 789	16.82% 381	7.2% 163	2,265
Linkages between family and community resources	0.1% 2	40.73% 813	35.42% 707	15.08% 301	8.67% 173	1,996
Relations between family and human services staff	1.07% 17	50.72% 808	30.89% 492	13.87% 221	3.45% 55	1,593
Family's participation in FS program governance	2.45% 30	61.6% 754	21% 257	12.34% 151	2.61% 32	1,224

The North Carolina Family Support Outcome Scale (NCFSSOS) is used to measure participants' progress in meeting outcome goals related to service areas. NCFSSOS assessments demonstrate that Family Support and Respite programs are meeting goals to help children and families develop skills to strengthen relationships, increase family functioning, promote child well-being, and prevent child abuse and neglect.

Fiscal Analysis

In SFY 2012-2013, NCDSS awarded Family Support and Respite program contracts totaling \$3,993,282. This amount included \$2,889,822 in federal Promoting Safe and Stable Families, Subpart II and \$1,103,460 in federal Community-Based Child Abuse Prevention (CBCAP) monies. There were no state funds appropriated for the Family Resource Center Program during SFY 2012-2013.

Family Support programs received braided funding through both Promoting Safe and Stable Families and CBCAP funds; however the majority of Family Support programs were wholly funded through IVB-2. Respite programs were funded entirely with CBCAP funds (See Appendix C). Per unduplicated participant costs equaled approximately \$831, annualized.

Appendix B

North Carolina Family Support Outcome Scale

Type: ☐ Intake ☐ Closure Client's Name: _____
 Date: ____/____/____ Activity Name: _____
 Staff Member: _____

This questionnaire addresses issues that are important to families. It is to be completed at least twice—once before the intervention begins and once after it ends—**by the same staff member**. It is very important that the same staff member fill out this assessment for the same family so the success of the intervention or service can be measured. Consider each item below in terms of the family's current situation. Rate each item on the **5-point continuum** below. N/A means Not Applicable, and this may be the appropriate response for many items. To complete the Scale, please check the appropriate box for each item.

A. Overall Child Functioning

	<u>Weak Strength</u>	<u>Mild Strength</u>	<u>Moderate Strength</u>	<u>Solid Strength</u>	<u>Clear Strength</u>	<u>Not Applicable</u>
1. Child's developmental status (social, cognitive, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Child's physical health	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Child's mental health	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Child's behavior	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Child's school performance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Teenager's movement towards self-sufficiency	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

B. Overall Parent Functioning

	<u>Weak Strength</u>	<u>Mild Strength</u>	<u>Moderate Strength</u>	<u>Solid Strength</u>	<u>Clear Strength</u>	<u>Not Applicable</u>
1. Parenting skills, knowledge, and attitudes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Parent's sense of support in parenting role	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Parent's physical health	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Parent's mental health	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Parent's educational attainment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Parent's leadership skills	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Participation in community groups and activities	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<u>C. Overall Family Functioning</u>	<u>Weak Strength</u>	<u>Mild Strength</u>	<u>Moderate Strength</u>	<u>Solid Strength</u>	<u>Clear Strength</u>	<u>Not Applicable</u>
1. Parent-child interactions, parent-child relationship	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Family communication	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Family cohesiveness, mutual support	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Physical, learning, emotional environments in home	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Informal social support (from friends, extended family)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Family economic self-sufficiency	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Ability to meet basic economic needs	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Ability to solve family disputes without violence	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<u>D. Family's Relationship to Community</u>	<u>Weak Strength</u>	<u>Mild Strength</u>	<u>Moderate Strength</u>	<u>Solid Strength</u>	<u>Clear Strength</u>	<u>Not Applicable</u>
1. Family's knowledge of available human services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Linkages between families and human services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Relations between families and human services staff	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Family's participation in FS program governance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
