Ecosystem Enhancement Program – Private Mitigation Banking Survey

- i. [Survey Objectives](#)
- ii. [Survey Details](#)
- iii. [Survey](#)
- iv. [Responses Table](#)
- v. [Private Mitigation Banks](#)

Survey Objectives

As mandated in General Statute 143-214.13, "The Department of Environment and Natural Resources shall report each year by November 1 to the Environmental Review Commission regarding its progress in implementing the Ecosystem Enhancement Program and its use of the funds in the Ecosystem Restoration Fund. The report shall document statewide wetlands losses and gains and compensatory mitigation performed under G.S. 143 214.8 through G.S. 143 214.12. The report shall also provide an accounting of receipts and disbursements of the Ecosystem Restoration Fund, an analysis of the per acre cost of restoration, and a cost comparison on a per acre basis between the State's Ecosystem Enhancement Program and private mitigation banks."

Survey Details

Participants: [Private Mitigation Banks](#)

Submission Method: Online survey

Responses: Two (2)

Survey

1. Name of Mitigation Bank:

2. On what date was this bank approved, (and if applicable on what date was your first release of credits)?

3. List of 8-digit Cataloging Units or other designated service areas as appropriate in which credits can be utilized (please separate answers by commas if more than one):

Ecosystem Enhancement Program – Private Mitigation Banking Survey

4. This bank produces which type of credits?

- Stream
- Riparian Wetland
- Nonriparian Wetland
- Coastal Marsh
- Riparian Buffer
- Phosphorus - Nutrient Offset
- Nitrogen - Nutrient Offset

5. Please list the total number of stream, wetland, buffer and/or nutrient credits of which the bank is comprised by credit type. For example: 20 non-riparian restoration credits, 10 non-riparian credits, 1500 stream credits, etc. (* Please specify total credits by type, and indicate the number that have been released and the credits currently available for sale.)

6. How many credits of each type have been sold (Please specify the total that have been sold and the number that have been sold since July 25, 2009)?

7. What is the cost of one stream and one wetland credit in your bank? (What do you charge to sell one credit? Feel free to indicate a range. Complete this for stream, riparian wetland, non-riparian wetland and salt-water wetland types.)

8. What is the cost of one Buffer credit in your bank (What you charge to sell one credit? Feel free to indicate a range.)?

Ecosystem Enhancement Program – Private Mitigation Banking Survey

9. What is the cost of one Nitrogen Nutrient Offset credit in your bank (What you charge to sell one credit? Feel free to indicate a range.)?

10. What is the cost of one Phosphorus Nutrient Offset credit in your bank (What you charge to sell one credit? Feel free to indicate a range.)?
