The purpose of the grant is to support program capacity to implement effective social, environmental, policy, and system approaches to help reduce the social inequalities in health by creating healthier communities. It also expands existing activities to increase the use of policy and systems approaches and reach a greater proportion of the population.

This funding comes from the American Recovery and Reinvestment Act (Recovery Act). The grant is divided into three components with an award date of late December for two components and January for the third component. Should we find out from CDC that this will come in two grant awards for the first two components rather than one, we will revise this accordingly. There will be no continuation application in FY 10-11 as the grant award will be for the entire 2-year grant period through December 2011.
