Funding Source(s): Federal Receipts

Justification for Position (including description of duties and responsibilities):  
Technician is needed for daily operations of a new investigation into white perch, yellow perch, and catfishes in the Albemarle Sound area. Technician II is responsible for the collection of data per methods and time frames attained in the project documents and as directed by the supervisor to meet research and management needs. Collect fisheries dependent data from various commercial and recreational fisheries. Collect fisheries independent data through sampling of juvenile and adult finfish by seining, trawling, aging, tagging, and various other sampling as described by existing or newly designed projects. Ensure the proper use of sampling gear and procedural manuals for identifying, weighing, tagging, examining reproductive condition, and the removal of aging structures from the finfish in the field and laboratory. Compile data summaries in a factual, legible manner as specified by supervisor. Submit data within the time frame established by supervisor. Construct sampling related gear, as directed per instructions or to meet the need of the project within budgetary limits. Operate assigned equipment by observing the state policy guidelines, manufacturers guidelines, USCG rules and supervisors guidelines. Assists in report preparation in a factual, concise, legible and complete manner.
