The North Carolina Division of Marine Fisheries conducts the Pamlico Sound Trawl Survey. This seasonal survey is designed to provide a long-term fishery-independent database on the distribution, relative abundance, and size composition of target species of estuarine fish and decapod crustaceans for the waters of Pamlico Sound. Funds for this project will be used to produce acceptable input files for the SEAMAP/HMS systems of Pamlico Sound Survey data from the NCDMP Biological Database and develop and implement a protocol for data conversion and transfer. Funds will also be used to complete cruise reports and to respond to directed data requests as time permits.					
The Division Director has approved the award of funds for the division. This is a new grant that has not been previously funded. This grant will have one budget code, one fund code, and one RCC which has been established, the RCC is 13203283.
