The substance of any anticipated change in rules adopted by the Board or anticipated adoption of new rules by the Board	None

Examinations are given by appointment in the Board office in Garner.

The Board has a website ([www.refrigerationboard.org](http://www.refrigerationboard.org)) where a register of all licensed refrigeration contractors may be found as well as the General Statutes and Administrative Codes pertaining to refrigeration, licensing information, CFC licensing information, and CFC testing sites.

The Board continues to take an active role in keeping informed on the Clean Air Act of 1990 as it relates to the commercial refrigeration industry and in disseminating this information to its licensees, wholesalers, inspectors, and the interested public. A library of up-to-date information is available for use at the Board office. The Board has been approved as an EPA Technician Certification Testing Agency under Section 608 of the Clean Air Act.

Work continues on revising the commercial refrigeration examination to consolidate needed reference materials in an effort to hold down costs for technicians desiring to take the examination and to ensure the most up-to-date materials are used. The section for plans, specifications, and estimating was totally reworked to include new refrigerants and equipment. Work was continued on developing and revising all sections of the industrial refrigeration examination.

Stancil PC audited the books and records of the Board.
