The Honorable Roy A. Cooper III
Governor, State of North Carolina
State Capitol
Raleigh, North Carolina 27603-8001

Dear Governor Cooper:

Pursuant to the General Statutes of North Carolina, Chapter 87, Article 5, we are presenting to you herewith our annual report for the year beginning January 1, 2020 and ending December 31, 2020. This report contains a statement of revenue, a statement of expenses and a condensed summary of the activities of the State Board of Refrigeration Contractors for the stated period.

We would welcome any recommendations that you may wish to make relative to the activities, enforcement and administration of the law in the operation of this Board.

Respectfully submitted,

STATE BOARD OF REFRIGERATION CONTRACTORS

G. Gary Ramsey
Secretary

Substance of any anticipated request by the Board to the General Assembly to amend statutes related to the Board: None

Substance of any anticipated change in rules adopted by the Board or the substance of any anticipated adoption of new rules by the Board: None

Examinations are given by appointment in the Board office in Garner.

The Board has a website (www.refrigerationboard.org) where a register of all licensed refrigeration contractors may be found as well as the General Statutes and Administrative Codes pertaining to refrigeration, licensing information, CFC information and testing sites and

information on various educational opportunities offered throughout the State for commercial refrigeration contractors.

The Board continues to take an active role in keeping informed on the Clean Air Act of 1990 as it relates to the commercial refrigeration industry and in disseminating this information to its licensees, wholesalers, inspectors and the interested public. A library of up-to-date information is available for use at the Board office. The Board has been approved as an EPA Technician Certification Testing Agency under Section 608 of the Clean Air Act.

Work continues on revising the commercial refrigeration examination to consolidate needed reference materials in an effort to hold down costs for technicians desiring to take the examination and to insure the most up-to-date materials are used. The section for plans, specifications and estimating was totally reworked to include new refrigerants and equipment. Work was continued on developing and revising all sections of the industrial refrigeration examination.

Copies of the General Statutes, the Board Rules and the newsletter are available free of charge from the office of the Board.

Stancil PC audited the books and records of the Board.
