INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the North Carolina Respiratory Care Board, an agency of the State of North Carolina, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of North Carolina Respiratory Care Board, an agency of the State of North Carolina, as of June 30, 2014 and 2013, and the changes in financial position and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 4 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

NORTH CAROLINA RESPIRATORY CARE BOARD Management's Discussion and Analysis June 30, 2014

This section of the North Carolina Respiratory Care Board's (the Board) financial report represents our discussion and analysis of the financial performance of the Board for the year ended June 30, 2014. This information should be read in conjunction with the audited financial statements included in this report.

Overview of the Financial Statements

The audited financial statements of the Board consist of the following components:

- Management's Discussion and Analysis
- Financial Statements
- Notes to Financial Statements

The financial statements include statements of net position, statements of revenues, expenses and changes in net position, and statements of cash flows.

Financial Analysis

Net position is an indicator of the financial health of the Board. Assets exceeded liabilities by \$198,320, \$117,027 and \$106,885 as of June 30, 2014, 2013 and 2012, respectively.

Notes to Financial Statements June 30, 2014 and 2013

1. Summary of Significant Accounting Policies

A. Organization:

The North Carolina Respiratory Care Board (the Board) is an occupational licensing board authorized by Chapter 61 of the North Carolina General Statutes. The Board was established to maintain minimum standards for services provided by persons engaged in respiratory care.

B. Financial Reporting Entity:

The concept underlying the definition of the financial reporting entity is that elected officials are accountable to their constituents for their actions. As required by accounting principles generally accepted in the United States of America (GAAP), the financial reporting entity includes both the primary government and all of its component units. An organization other than a primary government serves as a nucleus for a reporting entity when it issues separate financial statements. The accompanying financial statements present all funds and activities for which the Board is responsible.

For financial reporting purposes, the Board is a nonmajor enterprise fund of the primary government of the State of North Carolina and is reported as such in the State's *Comprehensive Annual Financial Report* (CAFR). These financial statements for the Board are separate and apart from those of the State of North Carolina and do not present the financial position of the State nor changes in the State's financial position and cash flows.

C. Basis of Presentation:

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting principles and reporting standards.

All activities of the Board are accounted for within a single proprietary (enterprise) fund. Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or fees.

D. Basis of Accounting:

In accordance with Statement of Governmental Accounting Standards No. 34, the Board herewith presents Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position, and Statements of Cash Flows. These statements reflect entity-wide operations of the Board. The Board has no fiduciary funds or component units.

E. Accounting Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Notes to Financial Statements June 30, 2014 and 2013

1. Summary of Significant Accounting Policies (Continued)

F. Accounts Receivable:

Accounts receivable principally consists of amounts due for continuing education approval fees. The management of the Board reviews the collectibility of the accounts receivable on a periodic basis and utilizes the direct write-off method.

G. Capital Assets:

Capital assets (equipment) are recorded at original cost. Depreciation is provided using the straight-line method over the estimated useful lives of the capital assets. A capitalization threshold of \$500 is utilized.

Capital assets are depreciated over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Office Furniture	7
Office and Computer Equipment	5

H. Accrued Vacation and Sick Leave:

The vacation and sick leave policy of the Board provides for accumulation of earned vacation and sick leave with such leave being fully vested when earned. Because such leave is payable to employees at termination, a liability for the outstanding balances has been recorded. Accrued vacation and sick leave totaled \$41,972 and \$58,449 at June 30, 2014 and 2013, respectively.

I. Net Position:

Net position in the financial statements is classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors or laws or regulations of other governments or imposed by law through state statute. The Board currently has no restricted net position.

J. Revenue Recognition:

The Board's license fees are assessed and collected according to each respective licensee's license inception date. Licenses are renewed for a period of one year. License fees are nonrefundable and are therefore recognized in the period received and are not deferred and recognized as revenue over the periods in which they relate. This revenue recognition method reasonably reflects the income of the Board.

K. Cash and Cash Equivalents:

The Board considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

2. <u>Concentrations of Credit Risk</u>

The Board maintains cash balances at a financial institution located in Raleigh, North Carolina. At June 30, 2014, the balances in the financial institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Board has no uninsured cash balances at June 30, 2014 and 2013.

4. <u>Lease Obligations</u>

The Board leases office space through an operating lease which expires in September 2014. Rent expense of \$32,946 and \$31,989 is included in operating expenses at June 30, 2014 and 2013, respectively. In addition, the Board leases an automated mailing machine, which is included in office expenses, through an operating lease which expires in June 2016.

Future minimum rentals under the leases in effect at June 30, 2014 are as follows:

Year Ending	
June 30	Commitment

2016	1,392
	\$11,083

Notes to Financial Statements June 30, 2014 and 2013

5. Subsequent Events

Subsequent events have been evaluated through October 9, 2014, which is the date the financial statements were available to be issued.

On July 24, 2014, the Board entered into an agreement to begin leasing new office space in Cary, North Carolina. The 62-month lease agreement commences September 1, 2014 at a monthly rate of \$2,235. On each anniversary of the Commencement Date, the minimum monthly rent shall increase by 3% over the amount of the minimum monthly rent paid during the preceding 12-month period. The lease expires October 31, 2019.
