ANNUAL REPORT ON CURSIVE WRITING AND MULTIPLICATION TABLES

Introduction

§ 115C-81.81. Annual report on cursive writing and multiplication tables. The State Board of Education and the Department of Public Instruction shall report to the Joint Legislative Education Oversight Committee by March 30 of each year on the compliance of each local school administrative unit with the requirements regarding cursive writing pursuant to G.S.115C-81.75 and the memorization of multiplication tables pursuant to G.S.115C-81.80. The report shall include at least the following information:

1. The percentage of local school administrative units in the State complying and not complying with G.S.115C-81.75 and a list of both sets of units. § 115C-81.75 states that the standard course of study shall include the requirement that the public schools provide instruction in cursive writing so that students create readable documents through legible cursive handwriting by the end of fifth grade. (2017-126, s. 5.)
2. The percentage of local school administrative units in the State complying and not complying with G.S.115C-81.80 and a list of both sets of units. § 115C-81.80 states that the standard course of study shall include the requirement that students enrolled in public schools memorize multiplication tables to demonstrate competency in efficiently multiplying numbers. (2017-126, s. 5.)
3. A list of all instructional strategies used by each local school administrative unit to comply with G.S.115C-81.75 categorized by unit.
4. A list of each instructional strategy identified pursuant to subdivision (3) of this section and the corresponding percentage of local school NC General Statutes - Chapter 115C97 administrative units in the State using that strategy to comply with G.S.115C-81.75.
5. If, in any given year, one or more local school administrative units does not respond to inquiries from the Department of Public Instruction related to this section, the percentage of local school administrative units in the State that were nonresponsive and a list of those units. (2018-32, s. 1(a).)

Alignment with the NC Standard Course of Study

Cursive Writing

The 2017 *NC Standard Course of Study for English Language Arts* (implemented in NC public schools in the 2018-19 school year) includes Handwriting in the Foundational Skills Strand, which clearly articulates the progression of manuscript and cursive writing from Kindergarten through fifth grade:

The foundational skills are directed toward fostering students' understanding and working knowledge of concepts of print, the alphabetic principle, and other basic conventions of the English writing system, including handwriting. These foundational skills are necessary and important components of an effective, comprehensive reading program designed to develop proficient readers with the capacity to comprehend texts across a range of types and disciplines. A systematic approach to handwriting instruction (manuscript and cursive) in the elementary grades is essential for students to communicate their ideas clearly. To achieve handwriting proficiency, students need to apply their handwriting skills to authentic writing activities (*Understanding the English Language Arts Standard Course of Study, Grade 5, 2017*).

Cursive writing skills are specifically addressed in grades 3, 4, and 5, reflecting the legislative requirement that students “create readable documents in legible cursive writing by the end of fifth grade.”

Foundational Skills Strand in the NC Standard Course of Study for English Language Arts (2017): Handwriting

GRADE	NUMBER	STANDARD
3rd Grade	RF.3.2	Create readable documents with legible handwriting (manuscript and cursive).
4th Grade	RF.4.2	Create readable documents through legible handwriting (cursive).
5th Grade	RF.5.2	Create readable documents through legible handwriting (cursive)

Memorization of Multiplication Facts

The 2017 *NC Standard Course of Study for Mathematics* (implemented in NC public schools in the 2018-19 school year) includes memorization of multiplication facts and is specifically addressed in 3.OA.7, reflecting the legislative requirement that students enrolled in public schools memorize multiplication tables to demonstrate competency in efficiently multiplying numbers. In third grade, competency is developed through representing, interpreting, and solving one-step problems involving multiplication and division. The standard is explicitly addressed in third grade, and is not repeated, but it should be maintained and built upon in subsequent grades.

OPERATIONS AND ALGEBRAIC THINKING in the NC Standard Course of Study for Mathematics (2017)

Multiply and Divide within 100

GRADE	NUMBER	STANDARD
3	3.OA.7	Demonstrate fluency with multiplication and division with factors, quotients and divisors up to and including 10. <ul style="list-style-type: none">• Know from memory all products with factors up to and including 10.• Illustrate and explain using the relationship between multiplication and division.• Determine the unknown whole number in a multiplication or division equation relating three whole numbers.

Methodology

A short survey was launched from December 11, 2019 – February 13, 2020 to Superintendents in each Local Education Agency (LEA), as well as to each public charter school who serves students in 3rd, 4th, and/or 5th grade. 115 of the LEAs participated. Although Charters were not required to participate per legislation, upon the request of a NCGA member, the survey was opened to charters that serve 3rd, 4th, and/or 5th grades. Out of 174 eligible charters, 161 responded to the survey. Districts and charter schools responded to a series of questions related to the implementation of cursive writing and memorization of multiplication facts requirements. In the survey, if a district or charter school indicated that they were not implementing cursive writing and/or memorization of multiplication facts, they were asked to list the schools along with an explanation. Therefore, even if one school was not implementing cursive and/or memorization of multiplication facts, the respondents had to answer no and are listed as non-compliant.

Organization

Section 1: Cursive Writing

- The percentage of local school administrative units in the State complying and not complying with G.S.115C-81.75 and a list of both sets of units.
- A list of all instructional strategies used by each local school administrative unit to comply with G.S.115C-81.75 categorized by unit.
- A list of each instructional strategy identified pursuant to subdivision (3) of this section and the corresponding percentage of local school NC General Statutes-Chapter 115C97 administrative units in the State using that strategy to comply with G.S.115C-81.75.

Section 2: Multiplication Tables

- The percentage of local school administrative units in the State complying and not complying with G.S.115C-81.80 and a list of both sets of units.

Section 3: List of Nonresponsive Units

- The percentage of local school administrative units in the State that were nonresponsive and a list of those units. (2018-32, s. 1(a).)

This table includes all responses by LEA.

- Column 1 indicates the District Name
- Column 2 indicates if all students in grades 3-5 are receiving cursive writing instruction and if no, which schools and why;
- Column 3 indicates which instructional practices are being used to support cursive writing.
- Column 4 indicates if all students can create readable documents and if no, which schools and why;
- Column 5 indicates approximately how much time overall is allotted to the teaching and practicing of cursive writing?
- Columns 6 and 7 indicate whether the district uses specific Curriculum or Programs and lists the programs.
