Joint Legislative Education Oversight Committee Report:

Local Education Agencies are initially funded based on the higher of the projected average daily membership (ADM) for the school year and the actual ADM for the prior year. Per S.L.2007-323, Section 7.15(b), if the higher of the first or second month ADM in a LEA is at least two percent (2%) or 100 students lower than the projected ADM used for allotments for the unit, DPI shall reduce allotments for the LEA. The reduced allotments shall be based on the higher of the first or second month ADM plus one-half of the number of students overestimated in the projected ADM. Only the base allotments that are adjusted for increases are impacted.

S.L. 2020-97 Section 3.1(1) and SL2021-180 Section 7.23(a) provided a hold harmless to the LEA ADM, and instructed the State Board of Education to not reduce allocations to public school units due to difference between projected and actual ADM.

The State Board of Education approved a policy for public school units that are not LEAs that was consistent with the application to LEAs.
