Academic Common Market

October 2001 (revised)

The University of North Carolina

UNC-Academic Common Market

Pilot Program

as ratified by the
General Assembly of North Carolina,
Senate Bill 1055, Session 2001

ACADEMIC COMMON MARKET PILOT PROGRAM

SECTION 31.2.(a) The Southern Regional Education Board currently operates an Academic Common Market program. Under this program, qualified students from participating states may apply to attend programs at public universities in participating states that are not available in their home state's university system. North Carolina's participation for graduate programs would provide a cost-effective means of offering educational access for North Carolina residents. North Carolinians would be able to attend graduate programs that are not available at The University of North Carolina at reduced rates, and the State would avoid the cost associated with the development of new academic programs.

SECTION 31.2.(b) The Board of Governors of The University of North Carolina may establish a pilot program for participation in the Southern Regional Education Board's Academic Common Market at the graduate program level. The Board of Governors shall examine the graduate programs offered in The University of North Carolina system and select for participation only those graduate programs that are likely to be unique or are not commonly available in other Southern Regional Education Board states. Out-of-state tuition shall be waived for students who are residents of other Southern Regional Education Board states and who are participating in the Academic Common Market program. If accepted into The University of North Carolina graduate programs that are part of the Academic Common Market, these students shall pay in-State tuition and shall be treated for all purposes of The University of North Carolina as residents of North Carolina. Prior to the beginning of this pilot, the Board of Governors shall submit its list of graduate programs selected to be a part of the pilot program to the Joint Legislative Education Oversight Committee.

SECTION 31.2.(c) The pilot programs established under this section shall terminate July 1, 2005. However, once a student is enrolled in The University of North Carolina system under the Academic Common Market program, the student shall be entitled to pay in-State tuition as long as the student is enrolled in that graduate program. The Board of Governors shall report the success of the Academic Common Market program to the Joint Legislative Education Oversight Committee by December 31, 2003, and by January 31, 2005, and the Committee may recommend changes, if any are appropriate, to the pilot program at either of those times.

Requested by: Senators Dalton, Lucas, Garrou, Plyler, Odom, Lee; Representatives Boyd-McIntyre, Rogers, Yongue, Easterling, Oldham, Redwine, Thompson.
